In any event, the Client shall comply with such verification procedures and fulfil such other requirements as may be specified by the Company from time to time. If Instructions are given by telephone or other means not accompanied by the signatures of the Client or Authorized Persons, the Company is entitled to rely upon and act in accordance with such Instructions given by the Client or any one of the Authorized Persons singly and any Agreed Signing Arrangement will not apply.

4.2 Cut-off time: The Company is entitled to prescribe any cut-off time for receiving Instructions in general or Instructions of any particular nature or type, which may differ from any usual cut-off/trading time in any Market or prescribed by any Exchange or Clearing House. The Client acknowledges and agrees that the Company is not liable for any delay or failure in effecting any Instruction which is received by the Company after the applicable cut-off time.

4.3 Authorized Person(s): Any one of the Authorized Person(s) is authorized by the Client to give Instructions in relation to the Account on behalf of the Client and to sign on behalf of the Client all agreements and relevant documents relating to the Account and its operation until written notice to the contrary is actually received by the Company from the Client. The Client undertakes with the Company from time to time and at all times to ratify and confirm any Instructions or agreements or documents whatsoever given or signed or purported to be given or signed by any of the Authorized Person(s) for and on behalf of the Client including without limitation any Instructions which may be given or purported to be given or any agreements or documents which may be signed or purported to be signed by, any Authorized Person(s) between the revocation of the authority of any of the Authorized Person(s) and the actual receipt by the Company of notice of such revocation. The Client agrees that any Instructions given or purported to be given or any agreements or documents which may be signed or purported to be signed by any of the Authorized Person(s) for and on behalf of the Client after revocation by the Client of his authority shall be valid and effectual in favour of the Company if at the time of the receipt of such Instructions or signed agreements or documents the Company did not have actual notice of such revocation. All such documents and Instructions (whether oral or written) signed or given or purported to have been signed or given by any Authorized Person(s) shall be deemed to be within the power of such Authorized Person(s) and shall be absolutely and conclusively binding on the Client. The Client is responsible for ensuring that all Authorized Person(s) comply with the Agreement and in any event remains responsible for all Instructions, even if they are given by an Authorized Person or other third party.

4.4 Company's Reliance on Instructions: The Company shall be entitled to treat an Instruction given in accordance with these Terms as fully authorised by the Client. The Company shall be entitled (but not bound) to act on or take such steps in connection with or in reliance upon such Instruction as the Company may in good faith consider appropriate for the purpose of executing the Transaction in accordance with such Instruction (whether it be an Instruction to acquire, purchase, sell, transfer, dispose of or otherwise deal with Investment Products) and shall have authority to bind the Client to any agreement or other arrangement with the Company or with any other person or to commit the Client to any other type of Transaction or arrangement whatsoever for the purpose of executing such Instruction, regardless of the nature of the Transaction or arrangement or the value, type and quantity of

the Investment Products involved. Apart from verifying the signature of each of the Client and/or Authorized Persons (where an Instruction is signed by the Client and/or Authorized Person) against the Agreed Signing Arrangement or verifying the relevant designated number, password and/or any other information relating to the identity of the Client and/or any Authorized Persons (where an Instruction is given by any other means), the Company shall have no obligation to verify the identity or authority of the person giving any Instruction by any means or the authenticity of such Instruction. The Company shall be entitled to rely and act on Instructions believed by the Company in good faith to be genuine and any Transaction effected by the Company for the Client on that basis shall be absolutely and conclusively binding on the Client, whether or not the Instruction for such Transaction is made or authorised by the Client.

4.5 Electronic Services: The Company may, from time to time and at its sole and absolute discretion, provide to the Client the Electronic Services in accordance with Clause 14 (Electronic Services).

4.6 Risks with Electronic Communications: The Client recognizes the risks in giving Instructions by telephone, facsimile, electronic mail or other electronic means (including the Electronic Services) including the risk of any Instruction being unauthorized or given by an unauthorized person or intercepted by a third party. If the Client chooses to give Instructions by any electronic means, the Client accepts the risks in full and authorises the Company to act on any Instruction received by it through such means. The Company does not assume any responsibility for any delay, failure, error, interruption or suspension in the transmission or communication of Instructions or information on prices or the mistaken communication of Instructions or information to any other party, or for any claim, liability or loss which the Client may suffer or incur as a result of the use of any particular means for giving or receiving Instructions or of the Company acting on such Instructions, unless due to the gross negligence, fraud or wilful default of the Company or any of its officers or employees and only to the extent of direct and reasonably foreseeable loss and damage (if any) arising directly and solely therefrom. The Company will not be liable for any delay or failure in the transmission of orders due to breakdown or collapse of communication facilities or for any other delay or failure beyond the control of the Company.

4.7 Cancelling or Amending Instructions: Once an Instruction is given by or on behalf of the Client, it may not be amended, rescinded or withdrawn unless the Company agrees otherwise. In the case of full or partial execution of the Client's amended, rescinded or withdrawn Instruction, the Client agrees to accept full responsibility for the Transactions. The Company shall not be obliged to act on any Instruction for cancellation, variation or amendment of any Instruction already given by or on behalf of the Client to the Company nor be responsible or liable to the Client for any loss or expense suffered or incurred by the Client if the original Instruction has already been completed by the Company in good faith or it is not reasonably practicable for the Company

to act on such Instruction to cancel, vary or amend the original Instruction.

4.8 No Responsibility to Procure Compliance as a Fiduciary: The Company shall have no responsibility to procure compliance by the Client with any law or regulation governing the Client's conduct as a fiduciary (if applicable).

4.9 Priority: The Company may in its sole discretion determine the priority in the execution of the Client's Instructions.

4.10 Aggregating Orders: Subject to any Applicable Regulations, the Company may without notice to the Client aggregate the Client's order with its own orders or with those of persons connected with the Company or with those of other clients of the Company. Such aggregation may on some occasions operate to the Client's disadvantage and on other occasions to the Client's advantage.

4.11 Giving Instructions Outside Hong Kong: If the Client gives any Instructions outside Hong Kong, the Client undertakes that such Instruction will be given in compliance with all Applicable Regulations of the foreign place, and when in doubt, the Client shall obtain independent legal advice. If the Client is domiciled outside Hong Kong, the Client confirms that it is allowed to deal with the Investment Products in Hong Kong under the Applicable Regulations, and the Company has no duty to verify the same.

5. Executing Transactions

5.1 Instructing Brokers: The Client authorises the Company to instruct such executing brokers, agents, custodians, nominees, overseas brokers and dealers (including branches or associates of the Company) as the Company may in its absolute discretion deem fit to execute any Transactions and acknowledges that the terms of business of such persons and the applicable Rules of any relevant Exchange, Clearing House and/or Clearance System on and through which such Transactions are executed and settled shall apply to such Transactions. The Client understands and agrees that the Company may, as a result of providing services to the Client under the Agreement or otherwise, owe obligations towards a third party arising from, or in connection with, the Client's Investment Products and the Charged Assets. Such third parties may have rights and entitlements in the Client's Investment Products and the Charged Assets, which can affect (a) the Company's ability to discharge its obligations towards the Client in respect of such Investment Products and Charged Assets (for example, returning certain Investment Products or Charged Assets to the Client), and/or (b) the Client's ability to exercise any of its rights in respect of, or attached to, such Investment Products or Charged Assets (including without limitation its voting rights attached to stocks).

5.2 Relevant Laws: All Transactions which the Company effects on the Client's Instructions shall be effected in accordance with all Applicable Regulations and

Rules applicable to the Company and/or the Client. All actions taken by the Company in accordance with Applicable Regulations and Rules shall be binding on the Client.

5.3 Execution of Instructions "at best" or "at market": The Client acknowledges that by reason of market conditions or physical restraints on any Market and rapid changes in the prices of Investment Products and/or fluctuation in currency exchange rates, on occasions and despite the reasonable endeavours of the Company, executing brokers or dealers (whether in Hong Kong or elsewhere), the Company may not be able to execute the Client's Instructions in full or at the specific prices or time specified by the Client or "at best" or "at market". The Company shall not be liable if any Instruction is not performed in full due to market conditions or any other cause beyond the Company's control, and the Client shall accept and be bound by dealings effected by the Company.

5.4 Partial Performance of Order and Limit Order: Where the Company or any persons instructed by the Company are unable to perform any Instruction of the Client in full, the Company or such persons are entitled to effect partial performance without prior reference to or consent from the Client. Without prejudice to the generality of the aforesaid, unless at the time of giving an Instruction with respect to Investment Products, the Client expressly instructs the Company to immediately make the entire order public in the relevant Market (and the Company accepts such an Instruction), the Company is entitled not to do so having regard to the prevailing market conditions and market practice, in particular, where the Company is of the reasonable view that the order is not immediately executable in full under the prevailing market conditions.

5.5 Trading Day: Unless the Client gives any specific Instruction to the Company to the contrary (and the Company accepts such an Instruction), the Client acknowledges that all Instructions received by the Company on a trading day are valid for that trading day only (or such shorter or longer period as determined by the Company from time to time) (the "Trading Period"), and that, to the extent any Instruction is unfulfilled, it will lapse at the close of the official trading hours on the last trading day (within the Trading Period) of the Market in respect of which they are given. A good-till-cancelled order remains a pending order until cancelled by the Client. The order may be executed at any time prior to such cancellation, and the Client accepts full responsibility for the Transactions.

5.6 Interest: The Client shall pay interest on all overdue balances on any Account or any amount otherwise owing to the Company at any time (including interest arising after a judgment debt is obtained against the Client) at such rates and on such other terms as the Company notifies to the Client from time to time, or, failing such notification, at such rate determined by the Company from time to time. Interest shall accrue on a daily basis from the applicable due

date or otherwise the date of demand up to and including the date on which the Company receives actual and unconditional payment in full. Overdue interest shall be compounded monthly and shall itself bear interest.

5.7 Recording and Tapes: The Client acknowledges that all telephone conversations between the Client and the Company may be taped without an automatic tone warning device in order to, amongst other things, enable the Company to verify the Instructions of the Client. The Client agrees that the recordings on relevant tapes or a transcript of the recording may be used as final and conclusive evidence of the contents of the Instructions.

5.8 Company's Records are Conclusive: The Client acknowledges that the books, data and records of the Company shall, in the absence of manifest error, be conclusive of the matter to which it relates and shall be conclusive evidence against the Client in all courts of law and for all purposes.

5.9 Personal Operation of Accounts: The Client acknowledges that it will personally (or through its Authorized Persons) operate any Account opened by the Company for the Client in relation to the Agreement. In the event that the Client intends to appoint a third party to act in any way on behalf of the Client in relation to the Agreement, the Client shall appoint such third party by providing the Company with such letter of authorization or other form as prescribed by the Company, the terms and conditions of which shall be in addition to and shall be deemed to form a part of the Agreement. The Client shall ensure that any appointed third party trading representative also promptly provides to the Company a completed and signed client information statement as prescribed by the Company.

5.10 Prices: The actual bid and offer prices of any Transaction shall be determined at the time when the Transaction is effected and any figures which may be quoted or provided to the Client by the Company (some of which may have been provided to the Company by its third party information or service providers) or its representatives at any time are for reference only and are not binding on the Company or the Client. For the avoidance of doubt, the Company is entitled to act on any Instruction of the Client to effect a Transaction even if the price of the underlying Investment Product has altered to the disadvantage of the Client between the time of receipt of such Instruction and the time at which the Company or its agent actually effects the Transaction.

5.11 Title: The Company has no obligation to examine or verify the validity of ownership or title of any Investment Products.

6. Settlement

6.1 Settlement: Unless otherwise agreed or where the Company is already holding sufficient Investment Products, cash or other assets on the Client's

behalf to settle a Transaction, the Client shall, by such time, at such place, in such amounts and in such manner as the Company may notify to the Client in relation to the relevant Transaction:

- (a) pay or provide to the Company cleared funds or deliver to the Company the relevant Investment Products in deliverable form required for settling that Transaction; and

- (b) ensure that the Company will receive such cleared funds or deliverable Investment Products on the applicable settlement date or by such time as the Company may notify to the Client for the purpose of settling that Transaction.

6.2 Client's Failure to Settle: If the Client fails to comply with Clause 6.1 (Settlement), the Company shall be entitled, in its sole and absolute discretion, without prejudice to any other rights or remedies of the Company and without further notice to or consent from the Client, for the purpose of settling any Transaction:

- (a) in the case of a Transaction for the purchase or subscription of Investment Products, to sell or transfer the Investment Products being the subject matter of such Transaction and/or sell or transfer any other Investment Products in any Account to satisfy the Client's settlement obligations, at a price the Company believes to be reasonable and charge or debit any related costs, fees and expenses to any Account; or

- (b) in the case of a Transaction for the sale of Investment Products, to borrow and/or purchase Investment Products equivalent to the Investment Products being the subject matter of such Transaction to satisfy the Client's settlement obligations, at a price the Company believes to be reasonable; and in addition or as an alternative to Clause 6.1 (Settlement), to have recourse to its rights of combination and set-off or any other rights under the Agreement.

6.3 Right to Not Execute Transaction: Notwithstanding any other provisions of the Agreement, the Company is entitled, in its sole and absolute discretion and without giving reason, not to execute any Instruction for the:

- (a) purchase of Investment Products unless the Client has made available to the Company cleared funds of an amount which is, in the opinion of the Company, sufficient to settle the related purchase price, fees and expenses in connection with such purchase; and

- (b) sale of Investment Products unless the Client has deposited the relevant Investment Products with the Company to settle such sale.

6.4 Deficit: The Client shall be liable for any Deficit resulting from losses and

any cost, fee or expense (including legal costs) incurred by the Company, on a full indemnity basis, in relation to the purchase and/or sale of Investment Products pursuant to Clause 6.2 (Client's Failure to Settle).

6.5 Stock Borrowing and Lending: To facilitate due settlement by the Client, the Company may, in its absolute discretion, lend Investment Products to the Client or borrow Investment Products for or on behalf of the Client, to settle the Client's sale Instructions. The Company may also lend or borrow Investment Products to or from third parties (for the purposes of this clause only, a "Third Party") on the Client's behalf or for the Client's benefit, whether in the name of the Company, a member of the Futu Group or otherwise, upon such terms as the Company may in its sole discretion decide. The Client shall indemnify the Company and the members of the Futu Group for any margins, guarantees, Securities or collateral maintenance and expenses as may be required under the aforementioned borrowing and lending arrangements. The Company does not warrant or guarantee the availability or the continuing availability of any short selling facility. The Company shall be entitled to, either at its own discretion or at the request of a Third Party, terminate any such lending and borrowing arrangements and immediately call for the delivery or return of the underlying Investment Products. The Client must comply with any demand calling for the delivery or return of the underlying Investment Products.

7. Payments and Client Money

7.1 Payments to the Client: All monies payable to the Client by the Company shall be transferred to the bank account designated by the Client in the Account Opening Form or, at the option of the Company, by any other means, and either form of payment shall constitute a full discharge of the Company's obligation to make such payments.

7.2 Segregated Accounts: All money or other property received by the Company from the Client or from any other person for the account of the Client shall (unless otherwise permitted by the Applicable Regulations, or otherwise in accordance with a written direction of the Client or otherwise in accordance with a standing authority given by the Client to the Company from time to time, such direction or standing authority having been accepted by the Company) be segregated from the Company's own assets and paid into a segregated account.

7.3 Interest on Client's Money: Any interest derived from the Company's holding of client money (as defined in the SFO) shall be treated by the Company in any manner permitted by the Securities and Futures (Client Money) Rules (Cap. 571I, Laws of Hong Kong), and specifically, the Client consents to the Company retaining (for its own account) such interest.

7.4 Transactions Executed Outside Hong Kong: Notwithstanding Clause 7.2 (Segregated Accounts), in respect of Transactions executed outside Hong Kong,

the Client authorizes and directs the Company to pay into any trust account maintained by the Company with any financial institution, which may or may not be a licensed bank, in or outside Hong Kong all amounts (less all brokerage and other proper charges accruing thereon) from time to time received by the Company for and on behalf of the Client from the Transactions, notwithstanding that any such amounts may be reinvested in further Transactions for or on behalf of the Client.

8. Statements and Records

8.1 General: The Company shall, in accordance with the Applicable Regulations, provide to the Client contract notes or other confirmations relating to any Transactions and statements of account relating to the relevant Accounts.

8.2 Monthly Statement: The Company will also deliver a monthly statement in relation to the Accounts, unless there have been no Transactions in relation to a particular Account during a particular month and the Account has no outstanding balances or holds any positions or Investment Products.

8.3 Conclusive/Client to examine: The Client shall examine each statement (including daily statement and monthly statement) and record issued by the Company. Contract notes, transaction confirmations and statements of account shall be conclusive of the matters stated therein (except in the case of manifest error) and shall be deemed to have been accepted by and binding on the Client unless the Company has actually received from the Client notice in writing alleging any omission or error within 2 Business Days after the date of such contract note or transaction confirmation or statement of account. Thereafter, the Client shall not dispute the accuracy of such statement and shall be deemed to have waived such right to dispute.

8.4 Unilateral amendment: Notwithstanding anything to the contrary, the Company may without prior notice to the Client unilaterally amend any such statement or record if it considers it to be appropriate to do so.

8.5 Non-receipt: In the event of (a) non-receipt of any statement of account or Transaction record from the Company or (b) if the Client receives any confirmation but has not issued the related Instruction, the Client shall notify the Company in writing, in the case of (a) within 5 Business Days after the time when the statement or record would normally have been received in the ordinary course of business, or in the case of (b) immediately after it receives such confirmation.

8.6 Method of delivery: The Client consents to the Company's issuance of contract notes, transaction confirmations, statements of accounts and other advices (collectively, "trade documents") in electronic form, and agrees to receive them by such means as specified by the Company from time to time, including via electronic means (including via the Electronic Services). The Client

9. Foreign Currencies

9.1 Currency Conversion: Without prejudice to the generality of Clause 2.4 (Company's right to decline), the Company reserves the right to decline any Instruction of the Client to effect any sale or purchase of Investment Products requiring an exchange into or from one currency to another, or otherwise to refrain from effecting a currency exchange for other purposes (including for the purpose of effecting a dividend distribution), without giving any reason

therefor. If the Company accepts any Instruction of the Client to effect any such sale or purchase of Investment Products or effects any currency exchange for any other purpose, the costs of effecting the relevant currency exchange and any profit or loss arising as a result of fluctuation in the exchange rate of the relevant currency will be entirely for the account of the Client. The Company may convert monies in any Account into and from any currency at such rate of exchange as the Company shall in its sole discretion determine as being the then prevailing money market rate. Company.

10.3 Custodian: The Client appoints the Company as custodian of all cash and Investment Products of the Client delivered to and accepted by the Company or any of its sub-custodians or nominees subject to the Agreement. The Company shall be entitled to deposit such cash or Investment Products with such other company or institution and on such terms as it may deem fit. Such cash or Investment Products may be co-mingled with those of other clients of the Company (but not with cash or Investment Products held for the Company's own account).

10.4 Co-mingling: The Client acknowledges and agrees that, where the Client's assets are pooled and held collectively with the assets of other persons, the Client's individual entitlements may not be identifiable by separate documents, records or evidence of ownership or title, and the Client and such other persons may have to share any shortfall arising from a default of a company or an institution with which the assets are deposited.

10.7 Full Discharge of Liabilities: The obligations of the Company in Clause 10.5 (Transfer to Client) shall be subject to the other provisions of the Agreement and in particular Clause 16 (Charge) and to the right of the Company to require a full discharge of all the Liabilities prior to any withdrawal by the Client. The Company may, without notice to the Client, discharge any or all the Liabilities out of the monies standing to the credit of the Account prior to any registration or transfer in accordance with Clause 10.5 (Transfer to Client) or otherwise

require payment thereof to be made by the Client prior to any registration or transfer pursuant to Clause 10.5 (Transfer to Client).

10.8 Voting Rights etc.: The Client hereby authorises the Company to act on Instructions relating to the Client's Investment Products, including the exercise of voting and other rights attached to the Investment Products. Notwithstanding the aforesaid, the Company may decline to act on any Instruction in its absolute discretion without giving any reason therefor. Nothing in the Agreement shall in any way impose on the Company any duty to inform the Client or to take any action with regards the attendance of meetings and to vote at such meetings. The Company has no duty in respect of notices, communications, proxies and other documents relating to the Investment Products received by the Company or to send such documents or to give any notice of the receipt of such documents to the Client unless otherwise required the Applicable Regulations. The Company has the right to charge the Client for its services in taking any action pursuant to the Client's Instruction.

10.9 Dividends etc.: The Company will pay all dividends, distributions, interest, coupons or benefits relating to the Investment Products of the Client into the relevant Account.

10.10 No Obligation to Notify or Exercise Rights: Without prejudice to the generality of Clause 10.8 (Voting Rights etc.), where the Client's Investment Products are registered in the name of the Company or any other person appointed by the Company (but not otherwise), the Company may but is not obliged to:

(a) notify the Client of information, notices and other communications received by the Company in relation to such Investment Products (but shall be under no obligation to forward the same to the Client in sufficient time for Instructions to be given to the Company with regard to any matters referred to therein nor to investigate or participate or take any affirmative action except in accordance with specific Instructions from the Client (and such Instructions being accepted by the Company) and upon such conditions, indemnity and provision for reasonable expenses as the Company may require) and, in the absence of or delay in receiving specific Instructions from the Client, to refrain from acting and any default option in respect of the relevant matter shall apply; and

(b) exercise, subscribe, take up or otherwise dispose of such rights or new issues in relation to the Client's Investment Products as the Company may think fit which shall be binding on the Client unless the Company has actually received prior Instructions to the contrary from the Client (and such Instructions being accepted by the Company), except that the Company will not exercise any action which may give

rise to any obligation to disclose interest on the part of the Company or its nominee in compliance with the Applicable Regulations.

10.11 Further Action: The Client authorizes the Company and its nominee to take all such actions as may be required to comply with any Applicable Regulations in providing custody services, including withholding and/or making payment of tax or duties payable in respect of cash or Investment Products in the Account. The Client acknowledges that neither the Company nor its nominee shall be liable in respect of any call, instalment or other payment in relation to the Investment Products held by the Company or its nominee.

10.12 Return of Investment Products: The Company is entitled, upon termination of any safe custody services for whatever reasons, to return to the Client at the sole risk and expense of the Client all the assets held in custody, including returning to the Client the Investment Products which may not have the same serial number or identification as those originally deposited with or received by the Company.

10.13 No Trusteeship: The provision of the safe custody services does not constitute the Company a trustee of the Client or any of the Client's assets except where any such asset is registered in the name of the Company or a nominee of the Company in which case the Company acts in the capacity of a bare trustee only. The Company shall have no other obligations in respect of the Client's assets except those specified in the Agreement.

10.14 Client's Responsibilities: In the case of the transfer of any Investment Products, the Client will be responsible for arranging the relevant third party to deliver the Investment Products to the Client or to receive the Client's Investment Products, and that any handling, transfer or custodian fees and charges shall be solely for the account of the Client.

10.15 Same Class and Denomination: Any obligations of the Company to deliver, to hold in safe custody or otherwise or to register in the name of the Client, Investment Products purchased or acquired by it on behalf of the Client shall be satisfied by the delivery, the holding or registration in the name of the Client or its nominee of the Investment Products of the same class, denomination and nominal amounts with those originally deposited with, transferred to or acquired by the Company on behalf of the Client.

10.16 Client's Risk: Investment Products deposited with or held by the Company and/or its nominee(s) pursuant to the Agreement shall be at the Client's sole risk and the Company shall be under no obligation to insure any of them against any kind of risk, which obligation shall be the Client's sole responsibility.

10.17 Disposal: The Company is authorized, pursuant to Section 6(3) of the Securities and Futures (Client Securities) Rules (Cap. 571H of the Laws of Hong

Kong), to dispose any of the Client's Securities or the Charged Assets (and the Company shall have absolute discretion to determine which Securities or Charged Assets are to be disposed of) for the purpose of settling any liability owed by or on behalf of the Client to the Company or a third person.

11. Commissions, Charges and Expenses

11.1 Commission and Charges: The Client shall pay commissions, fees, charges, brokerage, markups or other remuneration for the Company's services (including the provision of the Electronic Services) as specified by the Company in the fee schedules provided by the Company or otherwise notified to the Client from time to time. The Client agrees that fees expressed to be payable by the Client to a third party in a fee schedule or otherwise ("Third Party Fees") may be inclusive of administrative costs and other fees for the account of the Company, members of the Futu Group and/or other parties. The Client further agrees that the Company shall be entitled to retain such proportion of the Third Party Fees as the Company considers in its absolute discretion to be appropriate. For certain products the Company may charge fees calculated based on various component factors and could be a blended rate and such fee model is not intended to be a direct pass-through of third-party fees and rebates. Such costs passed on to clients in the fee schedule may be greater than the costs paid by the Company. If such fee model / blended rate results in a discrepancy, the Company (and members of the Futu Group) may retain any excess fees, but will not charge clients for any deficiency. The Company reserves the right to revise its fee schedules and such other notices from time to time.

11.2 Maintenance Fee: The Company may charge a monthly maintenance fee to be notified by the Company to the Client on any Account with no trading activity for any length of time as specified by the Company from time to time.

11.3 Fees and Expenses: The Client shall be liable on a full indemnity basis for all fees and expenses incurred by the Company in connection with the Transactions, the Accounts and/or provision of its services including fees payable to any brokers, custodians, agents and nominees, stamp duties, transfer fees, registration fees, taxes, stock settlement fees, levies imposed by relevant Exchange, Clearing House or Market, interest and other handling costs or expenses.

11.4 Handling charge for fund transfer: The Client agrees that any administrative fee, remittance fee and correspondent bank charges that are payable regarding any fund transfer made by the client shall be borne by the Client. The Client further agrees that any payment made to Futu or any fund transfer made by the Client to the Account must be net of all fees and charges. The Client authorises the Company to pay any such charges on behalf of the Client (if required).

11.5 Deduction from the Account: The Company is authorised by the Client, at any time without prior notice to the Client, to charge to or debit from any Account any commissions, fees, charges, brokerage, remuneration, taxes, withholdings, levies, duties and other costs and expenses payable by the Client.

11.6 Payment in Full: Payments by the Client shall be made to the Company in the manner specified by the Company in immediately available funds (or other funds determined by and acceptable to the Company at its absolute discretion) on the due date, without any deduction, set-off, counterclaim, withholding or condition of any kind, and in such currency as the Company may in its absolute discretion require, except that, if the Client is compelled by law to make such withholding, the sum payable by the Client shall be increased so that the net amount actually received by the Company is the amount it would have received had there had been no withholding.

12. Taxes

12.1 Client's Responsibility: The Client is solely responsible for handling and fulfilling all tax issues, liabilities and obligations under all Applicable Regulations. The Client should seek independent professional tax advice from its own tax adviser and to determine its own tax position, liabilities and obligations. The Company is not responsible for advising on or handling any of the Client's tax issues, liabilities or obligations.

12.2 Request for Information: Upon the Company's reasonable request or where the Company is required by the tax authority and/or any other authority of any relevant jurisdiction, the Client shall sign and file any form, certificate or document and provide such necessary information and assistance (including that which is related to the Common Reporting Standard) as the Company may require.

12.3 FATCA: Without prejudice to Clause 12.2 (Request for Information), the Client undertakes to provide the Company with information, documents and certificates as required by the Company in order to meet obligations imposed by applicable inter-jurisdictional tax compliance rules. This includes, without limitation:

(a) "**FATCA**", which means:

(i) sections 1471 through 1474 of the United States Internal Revenue Code of 1986 (as amended) or any amended or successor version thereof;

(ii) any intergovernmental agreement, memorandum of understanding, undertaking and other arrangement between governments and regulators in connection with paragraph (i), including as entered into with the government of Hong Kong;

(iii) agreements between the Company and the Internal Revenue Service of the United States or other regulator or government agency pursuant to or in connection with paragraph (i);

(iv) any laws, rules, regulations, interpretations or practices adopted in the United States, Hong Kong or elsewhere pursuant to any of the foregoing; and

(b) Tax information sharing arrangements, which means any local or foreign laws, regulations and rules including, without limitation, the obligations under FATCA and associated rules and regulations and other international exchange arrangements affecting the Company.

12.4 Indemnity: Without limiting any other indemnity provided by the Client, the Client shall indemnify the Company, the Futu Group and their respective agents on demand against any liability, reasonable loss or expense (including taxes and levies) arising from the Client's Instructions, the Accounts or the Company's provision of services to the Client, including as a result of any failure by the Client to comply with this Clause 12.

13. Monetary and Non-monetary Benefits

13.1 Monetary Benefits: The Client acknowledges that the Company or any person connected with it (which includes members of the Futu Group) may receive and retain Monetary Benefits from brokers, product issuers or other third parties.

13.2 Not Quantifiable: The Company or persons connected with it (which include members of the Futu Group) may receive and retain Monetary Benefits, in amounts that are not quantifiable prior to or at the point which a Transaction is entered into.

13.3 Non-monetary Benefits: The Client acknowledges and consents that the Company or any person connected with it (which includes members of the Futu Group) may receive and retain from brokers, product issuers or other third parties non-monetary benefits, including but not limited to, services, sponsorships, advertising, research and analysis, travel, accommodation and entertainment as the Company or the connected person deems appropriate.

13.4 Independence: Unless otherwise stated in the Agreement or by the Company, the Company is an independent intermediary because:

(a) it does not receive fees, commissions, or other Monetary Benefits, provided by any party in relation to its distribution of any Investment Products to the Client; and

(b) it does not have any close links or other legal or economic relationships with product issuers, or receive any non-monetary benefits from any party, which are likely to impair its independence to favour any particular Investment Product, any class of Investment Products or any product issuer.

14. Electronic Services

14.1 Electronic Services: The Company may, from time to time and at its sole discretion, provide to the Client certain Electronic Services. This Clause 14 shall apply.

14.2 Correct Entry and Reliance: The Client agrees that the Company is entitled to rely on the correct entry of the Login Identifiers and Passwords in order to ascertain whether any Instruction given to the Company is that of the Client's and to act on that assumption. The Client shall be fully responsible and liable for the entry of all information through the Electronic Services and all Instructions given to the Company through the use of the Electronic Services notwithstanding that such information or Instruction may have been given by a third party with or without authority to give such Instruction on behalf of the Client. The Client undertakes to notify the Company immediately if it has any difficulties logging in using the Login Identifiers and Passwords.

14.3 Personal: The Client shall be the only authorized user of its Login Identifiers and Passwords.

14.4 Safe-keeping: The Client has the sole responsibility and shall be liable for the confidentiality, security and safe-keeping its Login Identifiers and Passwords. The Client undertakes to notify the Company immediately if the Client suspects there have been disclosure, loss, theft or unauthorised use of the Login Identifiers or Passwords.

14.5 Prohibitions: In using the Electronic Services, the Client shall not:

(a) reproduce, retransmit, disseminate, sell, distribute, publish, broadcast, circulate, exploit (whether for commercial benefit or otherwise) the information and/or reports obtained from or through the Electronic Services in any manner whatsoever without the express written consent of the Company and shall not use the information for any wrongful or illegal purpose or in contravention of Applicable Regulations;

(b) make any additions, modifications, adjustments or alterations to, tamper any part or corrupt any information or services available on or through the Electronic Services;

(c) permit any equipment or software to be linked to or communicate in any manner or be used in connection with any other service or system whereby any information and/or reports obtained from the Company may be accessed, used, stored or redistributed by or through such other equipment or software; and/or

(d) use the facilities available under the Electronic Services otherwise than as stipulated under the Agreement or such other directions which may be issued by the Company from time to time.

14.6 Suspension and Termination: The Company may in its sole and absolute discretion, from time to time and without notice to the Client:

(a) amend, modify, suspend or terminate the operation of the Electronic Services and/or the terms of use for such Electronic Services;

(b) suspend or terminate the access of the Client to or use of the Electronic Services; and/or

(c) deactivate the Login Identifiers and Passwords, and shall not be liable to the Client for any loss, damage, costs, charges or expenses which may be suffered by the Client consequent upon any of the above actions.

14.7 Inherent Vulnerabilities: The Client accepts and acknowledges that electronic systems and technologies, including the Electronic Services and such other systems and technologies used by the Company, are inherently vulnerable to hacking, disruption, delay or failure. The Company does not in any way warrant that the Electronic Services will be free of errors, interceptions or interruptions. The Client must maintain alternative arrangements for the giving of Instructions in the event that the Electronic Services are unavailable.

14.8 Limitation of Liability: The Company shall not be liable to the Client for any loss, damage, costs, charges or expenses whatsoever and howsoever caused or arising from the use by the Client of the Electronic Services, including but not limited to:

(a) the loss or unauthorised use of the Login Identifiers or Passwords;

(b) the unauthorised use of or access to the Electronic Services; or

(c) any delay, fault, failure or loss of access to, or unavailability of the Electronic Services for whatever reason.

14.9 Intellectual Property

(a) Unless otherwise stated, the Company or certain other third parties

(including without limitation brokers, partners or sponsors) (collectively the "**Rights Holders**") are the owner or the licensee of all intellectual property rights available through the Electronic Services, and in the material published on it. Those works are protected by copyright laws and treaties around the world. All such rights are reserved.

(b) In utilising the Electronic Services, the Client agrees not to do anything that will violate, infringe, prejudice or in any way affect the Rights Holders' intellectual property rights, including without limitation all parts of the websites and software of the Company ("**IP Rights**"), and shall take all necessary measures to preserve and protect these IP Rights. All IP Rights (whether by way of copyright or otherwise) in the information or reports available from or generated by the Electronic Services vest solely in and will remain the exclusive property of the relevant Rights Holders.

(c) The Client shall not upload, post, reproduce, retransmit, disseminate, sell, publish, broadcast, circulate, exploit or distribute any information, software or other material available through the Electronic Services protected by copyright or other intellectual property right (as well as rights of publicity and privacy) without first obtaining the permission of the relevant Rights Holder, nor use the same or any part thereof other than for its own use or in the ordinary course of its own business.

15. Lien

15.1 General Lien: Without prejudice to any other powers, authorities, rights and remedies granted to the Company under the Agreement, and until all amounts owed to the Company, its nominees and the Futu Group have been paid or satisfied or discharged in full, the Company has the right to retain and withhold by way of lien all money, Investment Products (including but not limited to any and all Investment Products acquired for or on behalf of the Client or in which the Client has an interest which are held for the Account) and other property of the Client held from time to time by the Company, its nominees or any member of the Futu Group, whether held for safe-keeping or otherwise, and whether pursuant to the Agreement or otherwise, and the Company shall have the power to collect, sell or realise all or any part of such money, Investment Products and property at such price as the Company may think fit and to apply the proceeds, after deduction of expenses, to satisfy any amount owed by the Client to the Company, its nominees or any member of the Futu Group. The Client shall upon the request of the Company and at the Client's cost and expense execute all transfers and do all things necessary for vesting the legal title in such money, Investment Products and property to the Company or any other person as the Company may specify.

15.2 No Encumbrance: The Client shall not, without the Company's prior written consent, assign, transfer, mortgage, pledge, charge, or create or permit

to arise or exist any lien or other Encumbrances of any nature, or grant or purport to grant an option, on or over its right, title, interest and claim in or to any money, Investment Products and/or other property held by the Company for the account of the Client.

16. Charge

16.1 Charge: In consideration of the Company's provision of services to the Client, the Client, as beneficial owner, hereby charges, in favour of the Company, by way of first fixed charge all its rights, title, benefits, claims and interests, both present and future, in and to all of the Charged Assets, as a continuing security for the due and punctual payment and satisfaction of all the Liabilities and performance of all other obligations of the Client from time to time. If and insofar as the security created shall be ineffective as a first fixed charge for any reason, such security shall take effect as a first floating charge. Any floating charge created by this Clause 16.1 shall (in addition to and without prejudice to the circumstances in which the same shall occur under general law) automatically be converted into a specific fixed charge upon the occurrence of any Event of Default. Without prejudice to the aforesaid, the Company may at any time and from time to time by notice in writing to the Client, convert any floating charge into a specific fixed charge as regards the whole or any part of the Charged Assets specified in such notice.

16.2 No Liability: The Company and the Company's nominee shall not be in any way responsible for any loss occasioned by any action taken for the purposes of enforcing the Collateral, howsoever such loss may have been caused or arisen, or whether or not a better price could or might have been obtained on such action, or whether such loss may be reduced or avoided by either deferring or advancing the date of taking such action.

16.3 Loss and Accountability: If the Company appropriates, sells or disposes of the Charged Assets or any part thereof at the then current market price, whether to any member of the Futu Group or other party, it shall not:

(a) in any way responsible for any loss occasioned thereby howsoever arising; nor

(b) be accountable for any profit made by the Company or any of its nominees or member of the Futu Group, and the same shall not be treated as an absolute appropriation of or foreclosure on the Charged Assets to the exclusion of the Client and in extinguishment of its interests therein, unless the Company shall otherwise notify the Client (whether before or after the relevant appropriation or foreclosure has been effected), in which event any such appropriation or foreclosure shall be treated as a sale of the Charged Assets at a fair market value and the Liabilities shall be reduced by an amount equivalent to the proceeds of such sale.

16.4 Continuing Security: The Collateral shall be a continuing security notwithstanding any intermediate payment or settlement of account or satisfaction of the whole or any part of the Liabilities and notwithstanding the closing of any of the Accounts and which are subsequently reopened or the subsequent opening of any Account by the Client either alone or jointly with others. Without prejudice to the foregoing, the Collateral shall subsist and continue to have full force and effect notwithstanding the termination of the Agreement until the Client has fully discharged all the Liabilities.

16.5 Rights Additional: The charge created in Clause 16.1 (Charge) shall be in addition to and shall not affect or be affected by any other security, guarantee or indemnity which the Company may now or in the future hold or take in respect of the Liabilities and may be enforced by the Company without prior recourse to any such other security, guarantee or indemnity.

16.6 Suspense Account: Any monies realised pursuant to the Collateral may be placed and kept to the credit of a suspense account opened by the Company for so long as the Company or its nominee may in its absolute discretion determine without any obligation in the meantime to apply the same or any part thereof in or towards discharge of the Liabilities.

16.7 Dissolution to have no Effect: The Collateral shall not be discharged by any amendment or variation to the Agreement or by the dissolution or insolvency of the Client. Where the Client is a firm and there is a dissolution, the Collateral shall apply to all indebtedness incurred in the firm's name to the Company until receipt of actual notice of dissolution and, if the dissolution is by reason only of the introduction of one or more partners, the Collateral shall continue and, in addition to the debts and liabilities of the firm then dissolved, shall apply to the firm constituted with new partners as if there had been no change in the firm.

16.8 Client's Covenants: The Client covenants with the Company that:

(a) it will not create or permit to subsist any Encumbrance (other than any Encumbrance arising by operation of law) over or dispose of any Charged Assets or any Account, other than as provided for in the Agreement;

(b) the Client shall deposit with the Company, or to its order, all certificates, instruments and evidence of title to the Charged Assets, together, where appropriate, with all such necessary forms of transfer as the Company may from time to time require;

(c) the Client shall execute and deliver such further assignments, charges, authorities and other documents as the Company may from time to time require for perfecting its title to or for vesting or enabling

the Company to vest the full benefit of the Charged Assets in its favour;

(d) the Client shall not withdraw or attempt to withdraw all or any part of the Charged Assets without the prior consent of the Company; and

(e) the Client shall not take or omit to take any action which might prejudice the effectiveness of the Collateral.

16.9 No Restrictions: No restrictions imposed by any Applicable Regulations on any immediate or other power of sale, application of proceeds or on any other right or on the consolidation of mortgages or other Encumbrances shall apply to the Collateral, the Company or to any other security given by the Client to the Company.

16.10 Power of Attorney: The Client, by way of security, irrevocably appoints the Company and any of its delegates or sub-delegates severally to be the Client's true and lawful attorney (with full power to appoint substitutes and to sub-delegate including power to authorise the person so appointed to make further appointments with regard to the Collateral) on behalf and in the name of the Client or otherwise, to execute, seal, deliver, exercise and otherwise perfect and do all such agreements, acts and things which:

(a) the Client could itself do in relation to the Collateral;

(b) the Client is or may become obliged to do under the Collateral; and/or

(c) otherwise may in the Company's opinion be required or deemed proper or desirable for or in connection with the full exercise of all or any of the rights conferred by the Collateral and its rights to give full force and effect to the terms of the Collateral.

This power of attorney is coupled with an interest and is irrevocable and shall remain irrevocable as long as any of the Liabilities remains outstanding. The Client ratifies and confirms and agrees to ratify and confirm any agreement, act or thing which any attorney (or any substitute or sub-delegate) appointed under this Clause 16.10 may lawfully execute, seal, deliver, exercise or do.

16.11 No Avoidance: Any release, discharge or settlement of the Collateral shall be conditional upon no security, disposition, payment or discharge in respect of the Liabilities by the Client or any other person being avoided, reduced, ordered to be refunded or repaid for any reason and, if such conditions are not fulfilled, the Company shall be entitled to enforce the Collateral as if such release, discharge or settlement had not occurred.

16.12 Reinstatement: If the Company considers that an amount paid by the Client or any other person is capable of being avoided or otherwise set aside

(on the liquidation of the Client or otherwise), then that amount shall not be considered to have been paid. Furthermore, the Company may at its sole discretion concede or compromise any claim that any payment, security or other disposition is liable to be avoided, reduced or repaid.

16.13 Good Title: The Client represents and warrants that the Charged Assets are beneficially owned by the Client, that the Client has good right and title to deposit the Investment Products with the Company, its nominees or members of the Futu Group, that the same are and will remain free from any lien, charge or Encumbrance of any kind and are not nor shall they be subject to any option and any stocks, shares and other Investment Products comprised in the Collateral are and will be fully paid up.

16.14 Exercise of Rights: Until the Company enforces any of its rights under any Collateral, (i) the Company shall have the right, subject only to giving the Client notice, to exercise voting rights and other rights relating to the Charged Assets to protect the value of the Charged Assets; and (ii) except as otherwise provided in these Terms, the Client may direct the exercise of other rights attaching to, or connected with, the Charged Assets, but not in any manner which is inconsistent with the Client's obligations under the Agreement, or which in any way may prejudice the Company's rights in relation to the Collateral.

16.15 Protection of Collateral: In the event that any action or proceeding is commenced or any claim or demand is made by any person against the Client in connection with any matter contained in the Agreement or all or any part of the Collateral or against the Company in connection with any matter contained in the Agreement or all or any part of the Collateral, the Company shall be entitled to take such reasonable steps as it may deem necessary or advisable including the withholding of payment or delivery to the Client of all or any part of any monies forming part of the Collateral and the cancellation or non-compliance with any orders or Instructions which the Client may have given or may give regarding all or any part of the Collateral. Nothing in this Clause 16.15 shall be construed as an obligation on the part of the Company to take any steps in connection with any action, proceedings, claim or demand associated with the Agreement or Collateral.

16.16 Dividends: Any dividends, distributions, interests, monies, entitlements forming all or part of the Collateral which may be received by the Client shall be held by the Client in trust for the Company and shall be paid over to the Company on demand.

16.17 No Waiver and Invalidity: The Collateral shall not be affected by any failure by the Company to take any security or by the invalidity, illegality or unenforceability of any security taken by the Company or by any existing or future agreement by the Company as to the application of any advances made or to be made to the Client.

16.18 Extension: Should any purported obligation or liability of the Client under the Agreement or any other agreement which, if valid or enforceable, would be secured by the charge created in Clause 16.1 (Charge), be or become wholly or in part invalid or unenforceable against the Client on any ground whatsoever, including any defect in or insufficiency or want of powers of the Client, or irregular or improper purported exercise of power, or breach or want of authority by any person purporting to act on behalf of the Client, or any legal limitation (whether under the Limitation Ordinance (Cap. 347 of the Laws of Hong Kong) or otherwise) or other incapacity, or any other fact or circumstances, whether or not known to the Company, or if for any other reason whatsoever the Client is not or ceases to be legally liable to discharge any obligation or liability undertaken or purported to be undertaken in the Agreement or any other agreement, the charge created in Clause 16.1 (Charge) shall nevertheless extend to secure that obligation or liability or purported obligation or liability as if the same were wholly valid and enforceable.

16.19 Restructuring of Client: No change in the constitution of the Client nor of the persons or other entities for whose liabilities the Collateral may at any time stand as security shall affect the validity of or discharge the Collateral. If the Client is a partnership, and in the event of the dissolution of the firm, the Collateral shall apply to secure all the indebtedness and liabilities to the Company incurred by the firm or in the firm's name until receipt by the Company of actual notice of dissolution. If, however, the dissolution is by reason only of the introduction of a partner or a further partner or partners into the firm, the Collateral shall continue and, in addition to the debts and liabilities of the old firm, the definition of "Liabilities" shall apply to all monies and liabilities due or incurred from or by the new firm or firms thereby constituted as though there had been no change in the firm as previously constituted.

16.20 Collateral Not Effected: Without prejudice to the generality of the foregoing, neither the Collateral nor the amounts thereby secured will be affected in any way by:

- (a) any other security, guarantee or indemnity now or hereafter held by the Company, its nominees or any member of the Futu Group under or in respect of the Agreement or any other liabilities;
- (b) any other variation or amendment to or waiver or release of any security, guarantee or indemnity or other document;
- (c) the enforcement or absence of enforcement or release by the Company, its nominees or any member of the Futu Group of any security, guarantee or indemnity or other document (including the charge created in Clause 16.1 (Charge));

(d) any time, indulgence, waiver or consent given to the Client or any other person whether by the Company, its nominees or any member of the Futu Group;

(e) the making or absence of any demand for payment of any sum payable under the Agreement made on the Client whether by the Company or any other person;

(f) the insolvency, bankruptcy, death or insanity of the Client;

(g) any amalgamation, merger or reconstruction that may be effected by the Company with any other person or any sale or transfer of the whole or any part of the undertaking, property or assets of the Company to any other person;

(h) the existence of any claim, set-off or other right which the Client may have at any time against the Company or any other person;

(i) any arrangement or compromise entered into by the Company with the Client or any other person;

(j) the illegality, invalidity or unenforceability of, or any defect in, any provision of the Agreement or any security, guarantee or indemnity (including the charge created in Clause 16.1 (Charge)) or any of the rights or obligations of any of the parties under or in connection with the Agreement or any security, guarantee or indemnity (including the charge created in Clause 16.1 (Charge)), whether on the ground of ultra vires, not being in the interests of the relevant person or not having been duly authorized, executed or delivered by any person or for any other reason whatsoever;

(k) any agreement, security, guarantee, indemnity, payment or other transaction which is capable of being avoided under or affected by any law relating to bankruptcy, insolvency or winding-up or any release, settlement or discharge given or made by the Client on the good faith of any such agreement, security, guarantee, indemnity, payment or other transaction, and any such release, settlement or discharge shall be deemed to be limited accordingly; or

(l) any other thing done or omitted or neglected to be done by the Company or any other person or any other dealing, fact, matter or thing which, but for this provision, might operate to prejudice or affect the Client's liabilities under the Agreement.

17. Client's Representations, Warranties and Undertakings

The Client makes the representations and warranties and gives the

undertakings set out in this Clause for so long as the Client maintains any Account with the Company and on the giving of each Instruction to the Company.

17.1 Corporate Client: If the Client is a body corporate (whether incorporated or unincorporated), the Client represents and warrants that it is duly incorporated or constituted (as the case may be), and validly existing under the laws of its place of incorporation and has full power and legal capacity to enter into the Agreement and perform its obligations under the Agreement according to the terms of the constitutional document(s) by which the Client is established or constituted; and that the certified copy of resolutions provided by the Client to the Company approving the execution of the Agreement were duly passed at a meeting of its directors or other officers (as the case may be) duly convened and held on or prior to the date of the Agreement in accordance with its constitutional documents and are in full force and effect.

17.2 Personal Benefit: Unless the Company expressly permits otherwise, the Client is the person ultimately responsible for originating the Instruction in relation to each Transaction and stands to gain the commercial or economic benefit of each Transaction and/or bear its commercial or economic risk, and deals on its own account as principal and beneficial owner of the relevant Investment Products and Account and that no one other than the Client has any right or interest in the relevant Investment Products or Account.

17.3 Capacity: The Client has and will have full power and capacity to enter into, and perform its obligations pursuant to, the Agreement, any other agreement entered into with the Company or any member of the Futu Group, to open and operate each Account, to give Instructions, and effect each Transaction.

17.4 True information: The information provided by or on behalf of the Client in the Account Opening Form or otherwise in relation to the Agreement from time to time is true, complete and correct in all respects. The Client undertakes to inform the Company immediately if there is any change to such information.

17.5 Good Title: The Client has unencumbered title as beneficial owner to all Investment Products and other assets which the Client delivers to the Company (for any purposes whatsoever), instructs the Company to sell or otherwise dispose of pursuant to the Agreement. The Company has no obligation to examine or verify the title of any such Investment Products and assets, and the Company will not be responsible for any defect with such title.

17.6 Consents: All necessary consents or authorisations which may be required by the Client for the signing of the Agreement, carrying out of any Transaction on any Market and performance of its obligations under the Agreement have been obtained and are in full force and effect.

17.7 Valid and binding obligations: The Agreement constitutes valid and legally binding obligations of the Client enforceable in accordance with its terms.

17.8 Application Regulations: The Agreement and its performance and the obligations contained in the Agreement do not and will not contravene any Applicable Regulations, any provisions of the Client's memorandum and articles of association or by-laws (where applicable), or constitute a breach or default under any agreement or arrangement by which the Client is bound.

17.9 Risk disclosure statements: The Client confirms it has been provided with a copy of the Agreement in a language of its choice (English or Chinese) and was invited to read the terms of the Agreement. The Client declares that it understands the contents of the Agreement in its entirety, has read and understood the relevant risk disclosure statements set out in Schedule I (Risk Disclosure Statements) or otherwise provided by the Company to the Client, has been invited to ask questions and take independent advice if the Client wished, and accepts in full the risks relating to the relevant Investment Products and Transactions.

17.10 Client's Information: The Client shall, upon the Company's request, provide the Company with such information and documents relating to the identity of the Client and each Authorized Person, the Client's financial condition and source of funds or other related matters as the Company may require from time to time for the purposes of opening, maintaining, operating and/or closing any Account. The Client agrees that the Company may rely on information provided in the Account Opening Form until the Company has received notice from the Client regarding any changes therein. The Client agrees to undertake to notify the Company immediately of any change in the particulars of the Client, or any information provided to the Company from time to time, or to update any Client's information in a timely manner if it is reasonably practicable. The Client shall promptly notify the Company in writing of any material changes in the information provided by or on behalf of the Client pursuant to the Agreement or any agreement entered into pursuant to the Agreement or relating to any Account.

17.11 Further assurance: The Client undertakes to the Company to do or execute any act, deed, document or thing which the Company requires the Client to do being in the reasonable opinion of the Company necessary or desirable in connection with the implementation and enforcement of the Agreement including the execution by the Client of an irrevocable power of attorney appointing the Company as the lawful attorney of the Client to do and execute all such acts, deeds, documents or things on behalf of the Client.

17.12 Ratification: The Client agrees to do such acts and things and to execute such documents as are necessary or are in the reasonable opinion of the Company desirable to ratify or confirm anything done by the Company, its nominees or any member of the Futu Group, or any other entity instructed by

any of them in the proper exercise of any right or power conferred on any of them by the Agreement or any agreement entered into pursuant to the Agreement or relating to the Account.

17.13 Insolvency: If the Client is an individual, it has not been made bankrupt nor has a petition been presented to make it bankrupt nor has an individual voluntary arrangement or any interim order under the Bankruptcy Ordinance (Cap. 6 of the Laws of Hong Kong) been proposed or approved in respect of the Client. Where the Client is a corporate or partnership, no order has been made, petition presented, resolution passed or meeting convened for the winding up, insolvency, dissolution, administration or other similar event of the Client.

18. Client's Information, Personal Data and Disclosure

18.1 Provision of Information: The Client shall complete such procedures and provide such information in such manner and form(s) as required by the Company at the time of opening an Account, and from time to time at the request of the Company.

18.2 Further information: The Client agrees promptly upon reasonable request by the Company (i) to furnish financial statements of the Client to the Company; (ii) to disclose to the Company any material change in the financial position of the Client; (iii) to furnish such other information (including personal information) concerning the Client as the Company may reasonably request; (iv) to notify the Company in writing if any of the representations or warranties given by the Client to the Company in connection with the Agreement ceases to be true, complete, up-to-date or accurate in any respect; and (v) to notify the Company in writing of an Event of Default upon its occurrence.

18.3 Disclosure in Compliance with Law: The Client acknowledges that the Applicable Regulations, regulatory authorities and/or the Exchanges of any relevant jurisdictions may require or request disclosure of personal and other information relating to the Client, its Authorized Persons and/or the Accounts. The Client irrevocably authorizes the Company and members of the Futu Group, without notice or consent from the Client, to disclose and provide to the relevant authorities or persons (including the Hong Kong Regulators) all such information and documents relating to the Client, its Authorized Persons and/or the Accounts as may be required or requested by them pursuant to Applicable Regulations. Without prejudice to the generality of the aforesaid, the Client agrees that where the Company has received an enquiry from any relevant regulatory authority, the Client shall, upon request by the Company (which request shall include the contact details of the relevant regulatory authority), provide to the Company or such regulatory authority directly any information relating to the Client and/or any ultimate beneficiary in compliance with such regulatory authority's request or demand and within such period specified by such regulatory authority or the Company. The Client shall not hold the Company or any member of the Futu Group liable for

any consequences arising from such disclosure, and the Client shall reimburse the Company and the Futu Group on demand for all costs and expenses (including legal costs on a full indemnity basis) incurred by the Company or any member of the Futu Group in complying with requests for such disclosure.

18.4 Disclosure generally: Subject to Clause 18.3 (Disclosure in Compliance with Law), the Company will keep information relating to the Client and the Accounts confidential, but is authorized by the Client to disclose any such information (i) to any person as the Company considers appropriate for conducting credit enquiries on the Client and/or to verify the information provided, (ii) to the Company's auditors, legal advisers or other professional advisers, or any brokers, dealers or other service providers appointed by the Company, (iii) to any member of the Futu Group, or the Company's nominees and delegates, (iv) to any actual or potential assignee of all or any of the Company's rights or obligations (whether under the Agreement or otherwise), (v) to any relevant market data service providers or Exchange to enable the Company to comply with the licence agreement between it and relevant market data service providers or the Exchange relating to market data feeds, and (vi) in accordance with the Company's privacy policy statement as amended by the Company from time to time. The Company shall not be liable to the Client for any consequences arising from any disclosure made pursuant to this Clause 18.4.

18.5 PDPO: The Client acknowledges that it has read and accepts in full the provisions in the Company's privacy policy and personal information collection statement (including the use of its personal data in the manner specified in such statement), a copy of which is available on: <https://www.futuhk.com/en/about/privacy-policy?lang=en-us>. 5.4 Third Party Lien: If the Margin is lent to or deposited with third

parties, those third parties will have a lien or charge on the Margin. Although the Company is responsible to the Client for such Margin lent or deposited under the Client's authority, a default by the third party could result in the loss of such Margin.

(ii) it shall indemnify the Company and its nominee against all losses, damages, costs, charges, expenses (including legal fees on a full indemnity basis), claims or demands which may be sustained or incurred by or made against the Company or its nominee if such bulk application is rejected as a result of the Client's failure to comply with any of its obligations under the Agreement or otherwise in connection with the Application (including any representations and warranties given by the Client being or becoming untrue) or any other factors relating to the Client. The Client acknowledges that the Client may also be liable in damages to other persons affected by such failure or factors; and

(iii) in the event that the bulk application is only partially accepted, the Client agrees that the Company or its nominee is entitled to distribute the Allotted Securities in the Company or its nominee's absolute discretion, including distributing the Allotted Securities equally among the Company and its nominee's clients under the bulk application and the Client shall not have any claim to the Allotted Securities or claim of priority to another client of the Company or its nominee in relation to the bulk application.

2.7 No Withdrawal: The Client acknowledges and agrees that any Application, once submitted by the Company or its nominee, as agent on behalf of the Client, or otherwise processed by the Company or its nominee, might not be capable of being withdrawn, cancelled or modified.

2.8 Fees: The Client shall ensure that there are sufficient cleared funds in the Account to cover the Application Amount at the time the Application is made, and at all times thereafter until the same is debited from the Account or otherwise paid for the purposes of settling the

3.3 No Representations: The Company and its nominee makes no undertakings, warranties or representations as to the result of the allotment of the Offer Securities in any Offer and in any event the Company and its nominee shall not be responsible for the result of the allotment or any rejection in full or in part of any Application for any reason.

The specific arrangements with regard to the announcement of results may differ from one Offer to another and the Client shall be responsible for ascertaining details of such arrangements by reviewing the relevant prospectus. The Company or its nominee will notify the Client of the results of its Application in such manner as the Company may consider appropriate. Neither the Company nor the Issuer is obliged to inform you of any reason of why an Application is unsuccessful or only partially accepted, but the following factors may be relevant: (i) there are insufficient funds in the Client's Account at the relevant time for settling the Application Amount and Handling Fee or pre-arranged facilities for such purpose; (ii) the Client fails to provide all necessary information for the relevant Application to be processed; (iii) any information provided by the Client in relation to the Application is not true, correct, accurate and complete; or (iv) the Client has made more than one application for subscription of Offer Securities.

4.2 Disposal of Allotted Securities: Unless the Company or its nominee receives notice from the Client to the contrary and payment of all

amounts owing by the Client to the Company or its nominee in connection with any Application is made (within such time as the Company or its nominee may specify in their notification of allotment to the Client (without prejudice to their right of repayment on demand or any other rights or remedies)), the Company and its nominee is authorized but not obliged, without notice to or consent from the Client, to sell or otherwise dispose of any and all Allotted Securities in such manner and for such price or prices, free from any restrictions and claims and without being responsible for any loss, as they may think fit and apply the proceeds of such sale or disposal towards discharging any Liabilities in such order of priority as they may consider appropriate, including the costs incurred in connection with the sale or disposal of the Allotted Securities and all other costs incurred by the Company and its nominee in connection with the Application, the Handling Fee, interest payable by the Client on the Application Loan, outstanding principal amount of the Application Loan, and the Application Amount, and the remaining amount (if any) shall be paid to the Client or to the Client's order. In the event of any Deficit after applying the proceeds of sale or disposal of the Allotted Securities, the Client shall make good and pay on demand to the Company or its nominee such Deficit.

4.3 Payment and Release: If the Client gives any notice to the Company or its nominee pursuant to Clause 4.2 (Disposal of Allotted Securities) of this Appendix, the Client shall pay to the Company or its nominee at the time of giving such notice or otherwise on demand all amounts owing by the Client to the Company or its nominee in connection with the relevant Application (including all fees, charges and expenses specified by any Relevant Person). The Company is not obliged to release or procure its nominee to release to the Client the certificates relating to the Allotted Securities, or to procure the Allotted Securities to be credited to the Client's specified account, unless and until all amounts owing by the Client to the Company and its nominee have been received in full by them to their satisfaction.

5. Refunds

5.1 Unsuccessful Application: If an Application is submitted but is wholly or partly unsuccessful, the Company or its nominee will arrange for refund of the Application Amount (or the applicable balance as the case may be) on the refund date as announced by the Issuer in the same manner described in this Clause subject to Clauses 5.4 (Financing Fees) and 7 (Application Financing) of this Appendix II.

5.2 Lower Offer Price: In the event that the offer price of the Offer Securities (as finally determined by the Issuer) is less than the Application Amount initially paid by the Client, the Company or its nominee will arrange to refund the surplus of the Application Amount

to the Client in accordance with the terms and conditions of the relevant Offer subject to Clauses 5.4 (Financing Fees) and 7 (Application Financing) of this Appendix II.

5.3 Fees: Notwithstanding anything to the contrary, all Handling Fees and all other fees in connection with an Application are not refundable, even where the listing of the relevant Issuer is delayed or cancelled.

6. Client's Undertakings and Responsibilities

6.1 Not Prohibited: The Client warrants to and for the benefit of the Company and its nominees that the Client is not a person prohibited by any Relevant Person or any Applicable Regulations from making the Application(s) or from owning the Offer Securities and that the Client makes each Application as principal and not on behalf of any person subject to such prohibition or any other person.

6.2 Offering Documents: With respect to each Application, the Client understands, and shall accept and comply with all the terms and conditions governing the relevant Offer as set out in the relevant application form, prospectus and/or offering document and any other relevant document in respect of such Offer. The Client agrees to be bound by such terms and conditions (and to give all representations, warranties, confirmations and undertakings as may be required) in respect of each Offer for which the Company or its nominees makes an Application. The Client shall make the investment decision based on the prospectus and other offering documents in respect of the relevant Offer. The Company has no obligation to provide such prospectus and other offering documents to the Client.

6.3 Multiple Applications: The Client represents and warrants to the Company and its nominee that in respect of any Application (a) (where multiple Applications for subscription of Offer Securities are not permitted) the Client has not made and will not make, and has not procured and will not procure, more than one Application for subscription of Offer Securities whether for its own account or for the account of any other person, and (b) the Client has not been placed (whether for its own benefit or for the benefit of any other person) with any shares or warrants or interests which are of the same class or type

as those applied for in the Application. The Client acknowledges that any breach by the Client of or any inaccuracy of the representation and warranty set out in this Clause may result in, in addition to the rejection of the Application, the rejection of other applications submitted by the Company or its nominee on their own behalf or on behalf of their other clients. The Client shall indemnify the Company and its nominee on demand for all losses resulting from such breach or inaccuracy. The Client acknowledges and accepts that the representation and warranty set out in this Clause will be relied upon by the Company, its nominee and the Relevant Persons in respect of the relevant Application.

6.4 General Representations: With respect to each Application, the Client represents and warrants to the Company and its nominee that:

(i) all information provided by or on behalf of the Client in respect of an Application is true, complete, accurate and correct in all respects. The Client undertakes to inform the Company immediately if there is any change to such information;

(ii) the Client is an independent third party and is not connected with or acting in concert with any directors, chief executive, substantial shareholders of the Issuer and/or any of their respective subsidiaries or an Associate of any of them, as such terms are defined in the Rules Governing the Listing of Securities on the SEHK. Further, the Client's subscription is not directly or indirectly financed or backed by any such persons;

(iii) the Client does not hold any interests in the Issuer prior to the subscription of the Offer Securities; and

(iv) the Client is not a U.S. Person and the Client's subscription would not require the Issuer and/or the Company or its nominee to comply with any requirements under any law or regulation of any territory outside Hong Kong.

6.5 Additional Representations: In addition to the other representations, warranties and undertakings given or to be given by the Client to the Company or its nominee in connection with each Application, the Client gives the Company and its nominee all the representations, warranties and undertakings which an applicant for Offer Securities in respect of an Offer is required to give (whether to any or all of the Relevant Persons).

6.6 Further Assurance: The Client recognizes and understands that the legal and regulatory requirements and market practice in respect of each Offer or Application may vary from time to time. The Client undertakes to provide to the Company and its nominee such

information, make such disclosure, take such steps and give such representations, warranties and undertakings as may be required of the Client in accordance with such legal and regulatory requirements and market practice as the Company or its nominee may determine from time to time. The Client shall also comply with such requirements and practice.

6.7 Company's Representations: Where the Company or its nominee, as the case may be, is required, in respect of any Offer or Application, to give any undertakings, representations and warranties to any one or more of the Relevant Persons with respect to the Client or any other matters, the Company and its nominee is authorized by the Client to give such undertakings, representations and warranties in reliance solely upon any corresponding undertakings, representations and warranties given by the Client to the Company or its nominee. The Client shall be bound by all applicable announcements made by any Relevant Person and all Applicable Regulations governing each Offer and Application and the issue of the Allotted Securities.

6.8 Company to Act on Behalf of Client: Without prejudice to Clause 2.8 (Power of Attorney) of the Terms, the Client authorizes the Company and its nominee to execute all documents and to do all things necessary on behalf of the Client for the purposes of making any Application. The Client accepts all things done by the Company and/or its nominee, as agent on behalf of the Client in connection with each Application. The Client shall accept the Offer Securities applied for in each Application or any lesser quantity allocated to the Company or its nominee, as agent on behalf of the Client, pursuant to each Application. The Client indemnifies the Company and its nominee against any loss or claim suffered or incurred by any of them in connection with each Application.

6.9 Disclosure: The Client authorizes the Company and its nominee to disclose to any Relevant Person all information relating to the Client and the relevant Application if disclosure is required by Applicable Regulations or is requested or required in connection with the relevant Offer or Application.

7. Application Financing

7.1 Application Financing: The Client may apply to and request that the Company make available to the Client Application Loan(s) for Application(s) from time to time subject to this Appendix II and subject to agreement on the terms (including the following items) by the Client and the Company in respect of the relevant Application:

- (a) the principal amount of the Application Loan;

(b) the interest rate and default interest rate;

(c) stamp duty and all other fees and charges; and

(d) the Handling Fee.

7.2 Company's Absolute Discretion: The provision and drawdown of any Application Loan is at the Company's sole discretion and subject to the Agreement. The Company may at any time refuse to make available the Application Loan without giving any reason.

7.3 Margin: In the event that the Client pays any amount to the Company by way of margin for the Application, the Company may pay such amount into the relevant Account of the Client and may apply such amount towards satisfaction of the Application Amount as and when payable. The Client agrees that any such margin actually received by the Company shall be applied towards satisfaction of the Application Amount before any amount of the Application Loan is so applied.

7.4 Fees and Expenses: The Client will pay to the Company on demand the Application Loan, interest thereon, the Handling Fee, all fees, charges and costs in connection with the Application Loan.

7.5 Purpose of the Application Loan: The Application Loan shall be used by the Client exclusively for the purpose of making the relevant Application. Notwithstanding that the Application is made by the Company or its nominee, as agent on behalf of the Client, the Client shall have no right, title, interest or claim of whatever nature in or to any amount of the Application Loan or to use the Application Loan for any purpose other than making the relevant Application.

7.6 Drawdown: If the Company makes available an Application Loan to the Client, the Company will credit the Application Loan amount to the relevant Account. Where any Application is to be made by the Company's nominee, the Company's nominee shall hold the amount of the relevant Application Loan on trust for the Company at all times pending payment to or to the order of the Issuer.

7.7 Interest: The Client is required to pay interest on the Application Loan at the agreed interest rate from the date it is drawn down up to the repayment date as specified by the Company. If the Issuer does not proceed with listing according to its predetermined schedule, interest will instead accrue up to the day on which the Company or its nominee(s) receive the refunded amount from the Issuer, or the day on which the Application Loan is repaid in full, whichever is later.

7.8 Repayment: The Application Loan shall be repaid, together with all interest accrued thereon and any other amounts outstanding in full on the date as specified by the Company.

7.9: Default Interest: Any amount payable by the Client under this Appendix, including interest accrued on such amounts, which are due and not repaid, shall bear default interest.

7.10 Early Repayment: Unless otherwise agreed by the Company, the Client shall have no right to repay the Application Loan and any other related liabilities, in part or in full, prior to the refund date as specified in the relevant placing and public offer documents.

7.11 Overriding Right: notwithstanding any other provisions in this Appendix II, the Company has the overriding right at any time to demand immediate repayment of any outstanding amount of any Application Loan and to cancel any Application Loan.

7.12 Charge: In consideration of the Company making available an Application Loan to the Client and upon the allotment and issuance to the Company its nominee, as agent on behalf of the Client, of the Allotted Securities pursuant to the relevant Application, the Client as beneficial owner hereby charges (by way of first fixed charge), assigns, mortgages and/or pledges and agrees to charge, assign, mortgage and/or pledge to the Company all the Client's rights, title and interest in and to the Allotted Securities as a continuing security for the payment of all amounts payable by the Client to the Company or its nominee in connection with the Application Loan and the Application and the performance of any other obligation of the Client to the Company or its nominee. The security created by this charge shall extend to and cover any and all dividends, warrants, shares, stocks, rights, benefits, interest, distributions, accretions and other money and property accruing or offered at any time by way of substitution, redemption, bonus, preference, option or otherwise in respect of the Allotted Securities.

7.13 Further Charge to Third Parties: The Company is authorized by the Client to charge, pledge or otherwise grant a security interest of any nature over any and all Allotted Securities, subject to the security constituted by Clause 7.12 (Charge) of this Appendix II, in favour of any third party as security for any credit facilities made by it to the Company to finance the Company's funding of all or part of the Application Loan.

7.14 Further Security: In consideration of the Company making available an Application Loan to the Client, the Client as beneficial owner charges, assigns, mortgages and pledges and agrees to charge, assign, mortgage and pledge to the Company by way of first fixed

charge and release to the Company all the Client's rights, title and interest in and to all sums from time to time standing to the credit of each Account maintained by the Client with the Company (including any renewal or re-designation thereof) as a continuing security for the payment of all amounts payable by the Client to the Company and its nominee in connection with the Application Loan and the Application.

7.15 Nature of Security: Each security constituted by Clauses 7.12 (Charge) and 7.14 (Further Security) of this Appendix II is a continuing security and secures the ultimate balance of all indebtedness from time to time owing by the Client to the Company notwithstanding any intermediate repayment or satisfaction of all or any of such indebtedness. Each security is in addition to, shall not be affected by and may be enforced despite the existence of any other security held by the Company. Any restriction on the right of consolidating security interests shall not apply to any security constituted by Clause 7.12 (Charge) or 7.14 (Further Security) of this Appendix II.

7.16 Further Assurance: The Client shall at its own cost and expense execute and sign all transfer documents, power of attorney, proxies and/or other documents and do all acts and things which the Company or its nominee may require for perfecting the Company or its nominee's title to the Allotted Securities or any of them and/or for vesting or enabling the Company or its nominee to vest such Allotted Securities in the Company's name or in the name of the Company's nominee and/or any purchaser, or otherwise for the purpose of obtaining, presenting and enforcing the full benefit of the Collateral and/or rights and remedies conferred on the Company by this Appendix II. The Company and its nominee shall be entitled to exercise all rights and powers that are conferred upon the Company or its nominee by this Appendix II including the right to sell the Allotted Securities.

7.17 Application of Payments: Any monies paid to the Company or its nominee in respect of any Application Loan or Application may be applied in or towards satisfaction of the same or placed to the credit of such account as the Company or its nominee may determine with a view to preserving its rights to prove for the full amount of indebtedness of the Client.

2.1 Subject to Laws etc.: All option trading shall be subject to the laws, rules, regulations, customs and usage of the Exchange, Market and Clearing House (if any) where the option is traded. The Client shall not, whether alone or in concert with others, violate the position or exercise limits of which such Exchange, Market and Clearing House may establish from time to time. All actions taken by the Company or such Exchange, Market or Clearing House shall be binding on the Client.

2.2 Compliance with Law: The Client shall abide by all Applicable Regulations of the relevant Exchange, Market and Clearing House regarding all option trading.

2.3 Trading Restrictions: An Exchange or any other relevant regulatory authority, government agency or professional body may in its discretion and from time to time restrict trading/transactions in particular options or exercise of options in the interests of helping maintain a fair and orderly market in option contracts and/or in the underlying Securities for the protection of investors.

2.4 Restrictions on Abandonment/Exercise: Notwithstanding anything to the contrary, the Company may, at its sole discretion, restrict the Client's right to abandon/give-up or exercise an option. In particular:

(a) in respect of any SEHK Options Contract, the Client cannot exercise the option before its Expiry Date or abandon such option unless an Instruction to such effect is given by the Client in writing and accepted by the Company; and

(b) in respect of any option contract other than an SEHK Options Contract, the Client cannot abandon the option unless an Instruction to such effect is given by the Client in writing and accepted by the Company.

2.5 Cut-off Times: The relevant Exchanges, Markets and Clearing Houses have established cut-off times for delivering exercise Instructions which shall be binding on the Client.

2.6 Confidentiality: The Company will keep information relating to the Account confidential, but may provide any such information to the parties concerned according to the Company's privacy policy statement and/or other applicable clauses of the Agreement and/or to the SFC, the SEHK, the HKEx and any Exchange or any other relevant regulatory authority to comply with their requirements or requests for information.

2.7 Limits: The Company may place limits on the open positions or delivery obligations that the Client may have at any time.

3. Options Trading

3.1 Client's Benefit: The Client confirms that (i) the Account is operated solely for the Client's account and benefit, and not for the benefit of any other person; or (ii) the Client has disclosed to the Company in writing the name of the person(s) for whose benefit the Account is being operated; or (iii) in respect of SEHK Traded Options Business, the Client has requested the Company to operate the Account as an SEHK Omnibus Account, and will immediately notify the Company, on request, of the identity of any person(s) ultimately beneficially

interested in the SEHK Options Contracts.

3.2 Execution: Subject to the cut-off times prescribed by the Company and Clause 2.4 (Restrictions on Abandonment/Exercise) of this Appendix III: exercise instructions may be accepted for same day execution on Business Days within the trading hours set by the Exchange where the option trading is executed; and on the Business Day preceding the Expiry Date for any particular option contract, the Company will accept exercise instructions in accordance with the trading hours set by the Exchange where the option trading is executed.

3.3 No Notice of Expiration: The Company is not obliged to give the Client prior notice of an option's Expiry Date, and the Client has the sole responsibility of taking action to exercise an option. The Client shall be aware of the trading hours and any non-trading day in place where the option is executed, so to ensure the option can be exercised in a timely manner. Where the Client does not provide the Company with any exercise instructions by the prescribed time set by the relevant institutions and Exchanges (which the Company is not obliged to notify), the Client shall waive and release the Company, its officers, employees and agents from any and all claims of damage and loss suffered by the Client as a result of any option not being exercised.

3.4 Underlying Securities: The Company is under no obligation to convey to the Client any information relating to the underlying Securities covered by the option or any Securities related thereto, or any information relating to the options, whether such information is then or thereafter known or available. It is the sole responsibility of the Client to exercise, in a proper and timely manner, any right, privilege or obligation of any put option or call option of the Client.

3.5 Options in the Margin Account: In the case of an option sold or written by the Client in the Margin Account:

(a) with respect to a call option which if exercised against the Client will require delivery of Securities sold, the Client shall keep such Securities in the Margin Account until the expiration of the option period, and shall not sell or withdraw such Securities. If the option is exercised, the Company may deliver such Securities to the purchaser without prior notice to the Client; and

(b) with respect to any put option which if exercised against the Client will require payment for Securities purchased, the Client shall keep in the Margin Account sufficient funds for such payment until the expiration of the option period, and shall not withdraw such funds or utilize them for any other purpose. If

the option is exercised, the Company may use such funds for the purchase of such Securities without prior notice to the Client.

3.6 Company's Own Account: The Company and members of the Futu Group may trade in options and the Securities underlying such options for their own account. Such trading may be conducted continuously on a daily basis, and may occur prior to, contemporaneously with, or subsequent to any option transaction effected for the Client's Account. In such trading, the Company and members of the Futu Group may take option positions or their underlying Securities which may be similar to or differ from (a) the positions which the Client may have in the Account or (b) Transactions which the Company and members of the Futu Group may recommend to the Client or (c) Transactions which the Company and members of the Futu Group may effect for the Client. The Client understands that such trading may adversely affect the Client's interests.

3.7 Long Options and Expiration: If the Client exercises a long option contract, the Client agrees to pay the full aggregate exercise price provided for by the option contract. Long options of the Client may expire and become worthless if the Client does not deliver the relevant Instructions by their corresponding exercise cut-off time, provided that each in-the-money long option will be automatically exercised at the expiry time on its Expiry Date. Therefore, if the Client does not wish for any such in-the-money open long option to be exercised, the Client must close its open position in respect of such option contract before the expiry time.

3.8 Exercise Assignment Notices: The Company shall allocate exercise assignment notices for option contracts on a fair basis.

3.9 Obligations under the Options Contract: The client shall make each payment and delivery in accordance with each option contract to which it is a party, and perform all its obligations thereunder. 4.2 Stock Borrowing and Lending Agreement (SEHK): The Company may effect an Instruction for a Short Selling Order at or through SEHK if the Company is, in its sole discretion, satisfied that:

(a) the Client has a presently exercisable and unconditional right to vest the relevant Securities in the purchaser of them by virtue of having under a securities borrowing and lending agreement;

(i) borrowed the relevant Securities; or

(ii) obtained a confirmation from the counterparty to the securities borrowing and lending agreement that the counterparty has the relevant Securities available to lend to the Client; and

(b) The Client has delivered to the Company such assurance and documents relating to the securities borrowing and lending agreement as the Company may in its sole discretion consider necessary or desirable.

1. Application and Definitions

This Appendix governs the Company's provision of Fund Subscription Services. It supplements, and should be read together with, the Terms and any other terms and conditions governing the services provided by the Company, as they may be amended from time to time. It forms an integral part of the Agreement.

In this Appendix, unless the context requires otherwise, the terms defined in the Agreement shall have the same meaning when used herein.

In this Appendix:

“ **Dealing Procedures**” means any procedures agreed between the Company and the Fund or the fund manager of the relevant Fund from time to time to govern the subscription, switching and redemption of Units therein and other incidental matters.

“**Fund Subscription Services**” means services provided by the Company in connection with the purchase, subscription, switching, transfer, redemption or sale of any Unit in any Fund, and the dealing with any relating proceeds or moneys in accordance with the Client's instructions.

“**Portfolio**” means a portfolio of Funds selected by Futu and made available through the Company to the Client from time to time.

“**Units**” means any shares or units in a Fund (including where such Fund is distributed or made available on a standalone basis or as part of a Portfolio).

For the avoidance of doubt, this Appendix shall apply to any transaction in any fractional holding in any Fund and references to “**shares**” and “**units**” shall be construed so as to include references to “**fractional shares**” and “**fractional units**”, respectively.

“**eDDA**” means the Electronic Direct Debit Authorisation service established by the Hong Kong Monetary Authority. By authorising others and/or institutions electronically, funds can be transferred directly from your bank account.

2. Scope of Fund Subscription Services

2.1 The Company may (but is not obliged to) provide to the Client the Fund Subscription Services. Additional functions and services in connection with the Fund Subscription Services may be provided by the Company to the Client from time to time, in which case additional terms and conditions may apply which the Client should read and agree to before using those functions or services, please refer to: <https://www.futuhk.com/static-page?id=38>. The Fund Subscription Services and any additional services in connection with the Fund Subscription Services shall be provided through the Fund Account and/or the Securities Account.

2.2 Where the Client enters into a Transaction:

(a) the Company may have solicited the sale of or recommended to the Client the relevant Fund or Portfolio, in which case clause 24.2(a) (Transactions entered into with the Company with solicitation of the sale or recommendation of Investment Products by the Company) of the Terms shall apply; and/or

(b) the Client may have entered into such Transaction with the Company, without or in circumstances where it is inconsistent with any solicitation, recommendation or advice from the Company, in which case clause 24.3 (Transactions (excluding transactions in Complex Products) entered into with the Company without any solicitation or recommendation or which is inconsistent with any advice from the Company) or clause 24.4 (Transactions entered into with the Company in Complex Products, without any solicitation, advice or recommendation from the Company or which is inconsistent with any advice from the Company) of the Terms shall apply.

2.3 The Company shall make available to the Client via electronic means (including via the Electronic Services), the offering documents, notices, communications or any other documents in connection with the relevant Funds or Portfolios. The Client consents to the use of such electronic means (including the Electronic Services) as a mode of delivery of the abovementioned documents.

2.4 If the Client chooses to set up eDDA on the subscription page to make a deposit for subscription to the selected Fund and pays a one-time subscription amount ("One-Time eDDA Subscription Amount"), the Company will freeze the One-Time eDDA Subscription Amount immediately after the Client completes the subscription process. The Company will not release the One-Time eDDA Subscription Amount, issue a subscription Instruction to the Fund house, and arrange settlement until the Fund house is open for subscription. For the avoidance of doubt, the One-Time eDDA Subscription Amount so frozen

will not be included in the Client's Purchasing Power, nor will it be used by the Company to offset the Client's debts.

2.5 If the Client chooses to set up eDDA on the subscription page to make repeated deposits of a designated amount for regular subscription to the selected Fund and authorises the Company to make repeated payments of an established subscription amount ("Recurring eDDA Subscription Amount") to the Fund house within a specified period, the Company will freeze the Recurring eDDA Subscription Amount immediately after the Client completes the subscription process. The Company will not release the Recurring eDDA Subscription Amount, issue a subscription Instruction to the Fund house, and arrange settlement until the Fund house is open for subscription. Upon the subscription time instructed by the Client in advance, the Company will automatically issue an Instruction to the bank, which the Client selected when setting up the eDDA, to deposit the Recurring eDDA Subscription Amount ("Automatic Initiation of eDDA Transfer Instruction"). Once the Recurring eDDA Subscription Amount has been successfully credited, the Company will freeze it immediately. The Company will not release the Recurring eDDA Subscription Amount, issue a subscription Instruction to the Fund house, and arrange settlement until the Fund house is open for subscription. The Company will execute Automatic Initiation of eDDA Transfer Instruction on a Standing Authority basis until the Client's regular subscription is completed or the Client instructs the Company in writing to stop the subscription. For the avoidance of doubt, the Recurring eDDA Subscription Amount so frozen will not be included in the Client's Purchasing Power, nor will it be used by the Company to offset the Client's debts. This provision also applies to the services set out in the Periodic Investment Agreement.

3.2 All Instructions and the resulting transactions and payment in relation to the subscription, switching or redemption of Units shall be subject to the Dealing Procedures and/or any other requirements as prescribed by the Company from time to time. The Company is entitled,

without reference to the Client and without giving any reason, either ignore any Instruction that fails to comply with the Dealing Procedures or such other requirements of the Company, or to execute such Instruction with such modifications to it as may be necessary to comply with the Dealing Procedures or such other requirements of the Company from time to time. 15.1 Inconsistency: If any term in the Agreement is inconsistent with any present or future law, rule or regulation of the HKFE, the Clearing House or any authority having jurisdiction over the subject matter of the Agreement, such provision shall be deemed to be rescinded or modified in accordance with any such law, rule or regulation. In all other respects, the Agreement shall continue and remain in full force and effect.

15.2 Risk Disclosure Statements: The Client confirms that (a) the risk disclosure statements set out in Schedule I (Risk Disclosure Statements) were provided in a language of its choice (English or Chinese), (b) it was invited to read the risk disclosure statements, ask questions and take independent advice from professional advisors if the Client considers necessary and (c) it has understood the risk disclosure statements. The Client acknowledges that these risk disclosure statement may be varied from time to time.

15.3 Large open futures or futures options position reporting Client understands and agrees that, in accordance with Applicable Regulations, unless otherwise authorized, a Client who holds contracts in excess of the large open position reporting level or holds positions in Hong Kong index futures and options exceeding a certain percentage of the position limit needs to file a report with the relevant exchange or regulatory authority.

Appendix XI: Authorisation to enter into U.S. Securities Lending Transactions

This Appendix (the “Authorisation”) governs each Loan (as defined below) to be entered into between you as lender and the Company as borrower. This Authorisation supplements, and should be read together with, the Terms and any other terms and conditions governing the services provided by the Company, as they may be amended from time to time. It forms an integral part of the Agreement.

1. Definitions and Interpretation

1.1 Terms used in this Authorisation shall, unless otherwise defined herein, have the meanings set out in the Terms. In addition:

(a) "Corporate Action" means, without limitation, any conversion, subscription rights, subdivision, consolidation, redemption, merger, rights relating to takeovers or other offers or capital re-organisation, capitalization, issue, rights issue, redenomination, renominalisation or other event similar to the foregoing.

(b) "CRS Requirements" means one or more of the following, as the context requires:

(i) the Foreign Account Tax Compliance provisions of the Hiring Incentives to Restore Employment Act, the Common Reporting Standard issued by the Organisation for Economic Cooperation and Development, or similar legislation, regulations or guidance enacted in any other jurisdiction which seeks to implement equivalent tax reporting and/or withholding tax regimes;

(ii) any intergovernmental agreement, treaty or any other arrangement between Hong Kong and the U.S. or any other jurisdiction (including between any government bodies in each relevant jurisdiction), entered into to facilitate, implement, comply with or supplement the legislation, regulations or guidance described in sub-clause (i); and

(iii) any legislation, regulations or guidance implemented in Hong Kong to give effect to the matters outlined in the preceding clauses.

(c) "Equivalent" or “equivalent” means, in relation to any Relevant Securities, securities that are of the same issuer, part of the same issue and of an identical type, nominal value, description and amount and have the same rights as those of

the Relevant Securities, provided that, where any Relevant Securities are subject to any Corporate Action, the securities or other assets (which may consist of or include money or other property) into which the Relevant Securities are transformed by such Corporate Action are to be treated as or included in the determination of "equivalent" for this purpose.

(d) "Futu Security" means any Encumbrance granted by you in favour of the Company under the Agreement.

(e) "Relevant Securities" means the securities and securities collateral, each listed or traded on an Exchange located in the U.S., from time to time received or held by the Company on your behalf.

1.2 All headings appear for convenience only and shall not affect the interpretation of this Authorisation.

1.3 Where at any time there is in existence any other agreement between you and the Company, and the terms of which provide for the lending of securities by you to Company, the terms of this Authorisation shall apply to the lending of such securities to the exclusion of any other such agreement.

2. General

2.1 The Company offers a securities lending program to enable clients to lend to the Company (on a principal-to-principal basis) certain of their securities and securities collateral (as applicable) from time to time received or held by the Company on behalf of such clients. The Company may use such securities for its own purposes or "on-lend" these securities to other third parties (including other market participants) who wish to use these securities for short selling or other purposes. These securities will be listed or traded on Exchanges located in the U.S.

2.2 You agree to participate in such securities lending program, under which you shall grant discretion to the Company to initiate, borrow and terminate Loans of Relevant Securities between you and the Company.

2.3 You represent and acknowledge that the securities lending program offered by the Company is incidental to the various services provided to you pursuant to the Agreement, and the program is not, and shall not constitute, an asset management service. The Company shall have no discretion to buy or sell Relevant Securities or make other investment decisions for the Account. The Company is not obligated to and will not provide any trading or investment or tax advice or

recommendations to you for purposes of this securities lending program. The decision regarding whether to buy or hold or sell Relevant Securities remains solely your responsibility. The Company's initiation or termination of a Loan is not a recommendation as to the value of the Relevant Securities which may rise or fall in value.

3. Client Authorisation to enter into one or more Loan of securities

3.1 You acknowledge that the authorization under this clause 3 covers the Relevant Securities. You hereby consent and grant a standing authority to the Company to, at any time, apply any of your securities or securities collateral pursuant to a securities borrowing and lending agreement (the "Standing Authority"), including to enter into with you one or more securities borrowing and lending transactions pursuant to which you will lend to the Company, and the Company will borrow from you, any number of Relevant Securities of any description, that may from time to time be held in any Account (each such securities lending transaction shall be referred to as a "Loan"). Without prejudice to the foregoing, you hereby authorize the Company as your attorney-in-fact to use the Company's discretion to examine the Relevant Securities in the Account and to take all necessary steps to initiate, borrow and terminate Loans of Relevant Securities between you as lender and the Company as borrower pursuant to the terms of this Authorisation.

3.2 You acknowledge and agree that:

(a) The Company shall have the discretion to evaluate factors that the Company considers relevant in determining whether any of the Relevant Securities in the Account can be loaned to the Company on terms that are in the interest to you and the Company, taking into account various factors affecting the market and the potential transaction, such as potential size and duration of the Loan, the nature of the security and of various market factors affecting the security, prevailing market rates, positions and lending interests of other clients of the Company, identity and the availability of potential secondary borrowers of the shares from the Company in the securities lending markets, and other conditions relevant to the potential Loan.

(b) The Company shall have discretion to determine the fees payable to you provided under clause 8.1 under which the Company will borrow Relevant Securities from you, taking into account factors such as prevailing rates in the market for loans of various sizes, rates that the Company may be paid by other members of the Futu Group or third parties for the Company lending the securities on to the securities lending markets, payments that the Company may make to third parties (such as

introducing brokers who introduce accounts to the Company), the demand of the other members of the Futu Group or third parties for the securities, and other relevant factors. You authorize the Company to change the rate that it will pay to you at its discretion based on the changes in the above factors. Rates may change frequently (as often as daily) due to the nature of the securities lending markets and may involve substantial downward (or upward) changes.

(c) The Company may borrow the Relevant Securities from you on a principal-to-principal basis and then use such securities for the Company's own purposes (including short selling) or lend those securities to other members of the Futu Group or other third parties for their own purposes (including short selling). The Company may lend the Relevant Securities to other members of the Futu Group or third parties, which could then lend such securities out to other parties in the securities lending market.

(d) The Company's securities lending program does not guarantee that you will receive the best possible income for the Relevant Securities under the Loan. The securities lending market is not a standardized or a fully transparent market, and there are no rules or mechanisms that guarantee or require that any given participant in the marketplace will receive the best rate for lending those securities.

(e) The Company is not obligated to borrow specific Relevant Securities. There is no guarantee that all or part of the Relevant Securities that could be lent will be lent. There may not be a market to lend the Relevant Securities at a rate that is advantageous, or the Company may not have access to a market with willing borrowers. The Company, the Company's other clients or members of the Futu Group might have securities that may be lent that will satisfy available borrowing interest and therefore the Company may not borrow the Relevant Securities from you. Nothing in this Authorisation requires the Company to place your interest in lending securities ahead of the interest of other clients of the Company. The Company has the discretion to allocate borrowing and lending opportunities among its clients participating in the securities lending program provided that the Company will seek to allocate such opportunities fairly taking into account relevant factors as determined by the Company (including without limitation the pro-rata holdings of a client in specific securities among all relevant clients of the Company).

(f) You will not have: (i) the ability or right to approve specific Loans before or after they are initiated, (ii) the ability to approve or reject fees (or any changes) and (iii) the right to terminate specific Loans (except if you sell the Relevant Securities that are being lent or if you terminate this Authorisation).

(g) You will execute and furnish (as applicable including by way of updates) to the Company or to any government or taxing authority as the Company directs (including by way of electronic certification) with any information, representations, forms, documents, opinions, instruments and certificates, and such other cooperation or assistance as may (in either case) reasonably be required in order to allow the Company comply with the Applicable Regulations, including the CRS Requirements (the "Information"). You hereby grant the Company the authority to execute any such documents, opinions, instruments or certificates on your behalf, if you fail to do so. The Company is authorized to furnish the Information to any relevant taxing or government authorities in connection with the compliance with the Applicable Regulations (including the CRS Requirements). The Company may take such actions as it considers necessary in accordance with the Applicable Regulations in relation to the Account or Relevant Securities to ensure that any withholding tax payable by the Company, and any related costs, interest, penalties and other losses and liabilities suffered or incurred by the Company or any agent, delegate, employee, director, officer or affiliate of any of the foregoing persons, arising from your failure to provide any requested documentation or other information to the Company, is borne by you.

(h) The loaned Relevant Securities will not be subject to the client securities requirements under the SFO and the Securities and Futures (Client Securities) Rules (Cap. 571H of the Laws of Hong Kong).

3.3 A Loan by you to the Company shall constitute a transfer by you to the Company of all rights (including any voting rights and rights to receive any interest, dividend or other distribution), titles and interests in and to the Relevant Securities that are the subject of the Loan, free and clear of any Encumbrances, or any other interest of any person. In particular, the Company shall have all of the incidents of ownership of the loaned Relevant Securities, including the right to transfer the loaned securities to others or to grant security over the loan securities as collateral for financial accommodation provided to the Company. The Company will act as borrower and as principal with respect to a Loan. The Company will not act as an intermediary in securities lending

either as your direct agent or indirect agent in its own name but for the account and at your risk.

3.4 A Loan shall be effected by the Company by debiting the relevant number of Relevant Securities that are held in an Account and transferring such number of securities to the Company's proprietary account or any other securities account as it may direct.

3.5 Upon the entry into of a Loan in accordance with this Authorisation, the Company will use reasonable efforts to notify you as soon as reasonably practicable, in your account statement, of the number and description of the Relevant Securities that you have lent to the Company under to the Loan, although, for the avoidance of doubt, any delay by the Company to provide such notice shall not in any way invalidate the Loan or any transfer of right, title and interest in the loaned Relevant Securities . Such notice shall set out other terms of each Loan, including the issuer of the loaned Relevant Securities, the quantity of the Relevant Securities lent, basis of compensation, amount of collateral and any additional terms. Such notice, together with this Authorisation shall constitute conclusive evidence of the terms agreed between you and the Company with respect to the Loan to which the notice relates, unless with respect to manifest error in the notice or the notice specific objection is made within 2 Business Days after issuance by the Company.

3.6 You may sell the Relevant Securities that have been lent to the Company at any time, and the Company will be responsible for terminating the Loan, and pursuant to the terms of the Agreement, settling the sale of such securities, and providing the proceeds of the securities to you by the normal settlement date for such sale.

3.7 The Company agrees that upon the entry into of a Loan in accordance with this Authorisation, the loaned Relevant Securities shall be released from, and shall cease to be subject to, the Futu Security, although, for the avoidance of doubt, where Equivalent securities are delivered in accordance with clause 4 below, such securities will immediately, upon such delivery, become subject to the Futu Security.

3.8 Notwithstanding the use of expressions such as "borrow" or "lend" which are used to reflect terminology used in the market for transactions of the kind provided for in this Authorisation, title to securities "borrowed" or "lent" provided in accordance with this Authorisation shall pass from you to the Company as provided for in this Authorisation.

3.9 Collateral

(a) Unless otherwise agreed, the Company shall, prior to or on the same date of the transfer of the loaned Relevant Securities to the Company, transfer to you collateral in accordance with the terms and conditions as set out in the collateral policy made available by the Company to you from time to time. Such collateral policy will cover, without limitation, applicable requirements relating to acceptable collaterals, collateral thresholds, income or distributions with respect to the collateral, transfer and replacement of collateral. The collateral policy may be subject to change in accordance with the Company's discretion from time to time.

(b) The collateral transferred by the Company to you (as may be adjusted from time to time) shall be security for the Company's obligations in respect of such relevant Loan.

(c) Unless otherwise provided herein, upon termination of a Loan, you shall be obligated to transfer, and hereby authorize the Company to effect the transfer of, the collateral (as may be adjusted from time to time) to the Company on such day or otherwise as soon as practicable as determined by the Company.

3.10 Standing Authority

(a) You acknowledge and agree that the Company may do any of the things set out in clauses 3 and 4 without giving further notice to you.

You also acknowledge that the standing authority:

(i) is given without prejudice to other authorities or rights which the Company or the Futu Group may have in relation to dealing in monies or any of the securities in any of the Account(s); and

(ii) shall not affect the Company's right to dispose or initiate a disposal by itself or the Company's associated entity of your securities or securities collateral in settlement of any liability owed by or on behalf of you to the Company or a third person.

(b) Where you are:

(i) a Professional Investor, the standing authority shall be valid until revoked by you in accordance with clause 3.4 (Revocation) of the Terms;

(ii) not a Professional Investor, the standing authority shall be valid for the period specified in clause 3.3 (Validity Period) of the Terms, subject to renewal by you in accordance with clause 3.5 (Renewal) of the Terms.

4. Obligation to deliver Equivalent securities

4.1 Subject to clause 4.5 below, the Company may at any time terminate the entirety or any part of any one or more outstanding Loans, whereupon the Company shall become subject to an obligation to deliver securities which are Equivalent to the Relevant Securities that are the subject of the Loan (or the part of the Loan which is to be terminated) and use commercially reasonable efforts to ensure that such Equivalent securities are returned by no later than the standard settlement time on the relevant Exchange or in the Clearance System through which such Equivalent securities are traded or cleared.

4.2 In addition, if you give Instructions to the Company to sell or withdraw any securities, and there are insufficient securities of that type in the Account as a result of your having lent the Relevant Securities to the Company pursuant to an outstanding Loan, the Company shall terminate the whole or such part of that Loan as the Company determines to be necessary to ensure that there will be sufficient number of such securities in the Account. In the event that the securities are not returned on time to settle your sale of the securities, the Company will be responsible for settling the sale (whether by way of entering into one or more securities borrowing and lending transaction with other clients of the Company or otherwise), in the event the Company is unable to do so, the delivery of such Equivalent securities may be delayed, and you may be unable to comply with your settlement obligation in full.

4.3 Upon the termination of the whole or any part of the Loan, the Company will use reasonable efforts to notify you as soon as reasonably practicable, in the account statement, of the number and description of the Equivalent securities that the Company will be obliged to deliver to you, although, for the avoidance of doubt, any delay by the Company to provide such notice shall not in any way invalidate the termination of the Loan or any transfer of right, title and interest in the relevant Equivalent securities pursuant to the Loan.

4.4 The Company may satisfy its obligation to you to deliver the Equivalent securities by crediting such securities to an Account. Equivalent securities will upon such credit become subject to all the provisions of the Agreement, including without limitation, this Authorisation and the provisions relating to the Futu Security.

4.5 Notwithstanding the provisions of clause 4.1 above, the Company may, at any time, following the occurrence of an Event of Default under the Agreement, at its election: (a) replace any outstanding obligation of the Company to deliver Equivalent securities to you pursuant to this Authorisation by an obligation to pay to you the value of such Equivalent securities; and (b) set-off such value against any amount payable by you to the Company (irrespective of the currency, place of payment or booking office of the obligation) under the Agreement or any other agreement, instrument or undertaking between you and the Company. This clause shall be without prejudice and in addition to any right of set-off, combination of accounts, lien or other right to which any party is at any time otherwise entitled (whether by operation of law, contract or otherwise).

4.6 The value of any securities or Equivalent securities for the purposes of this clause 4 shall be determined by the Company, and for the purposes of determining such value, the Company shall rely on the value given by any pricing source that it considers reputable or, in the absence of any such value (or if the Company determines that such value is, in its reasonable opinion, inaccurate), such value as the Company reasonably determines. You agree that the method for valuation set out in this clause constitutes valuation in a commercially reasonable manner.

5. Voting rights

Where any voting rights fall to be exercised in relation to any Relevant Securities under a Loan that is outstanding, the Company shall not have any obligation to arrange for voting rights of that kind to be exercised in accordance with your Instructions. You hereby waive any right to vote, or to provide any consent or to take any similar action with respect to, the loaned Relevant Securities in the event that the record date or deadline for such vote, consent or other action falls during the term of the Loan.

6. Income

6.1 If any interest, dividend or other distribution in the form of cash ("Cash Income") arises in respect of any Relevant Securities pursuant to a Loan that is outstanding, the Company shall as soon as possible after such Cash Income is paid by the issuer of the Relevant Securities, use reasonable efforts to credit to the Account an amount equal to the amount of such Income (net of any deductions or withholdings for or on account of any taxes) ("manufactured dividends").

6.2 If any interest, dividend or other distribution in the form of securities ("Securities Income") arises in respect of any Relevant

Securities pursuant to a Loan that is outstanding, such Securities Income shall be added to such loaned securities, and will not be delivered to you until the end of the relevant Loan.

6.3 Notwithstanding any other provision in this Authorisation, the Company shall have the sole and absolute discretion to retain any Cash Income that may be due or payable to the Client as a result of any investment or positions held in the Client's account. The Company reserves the right to withhold payment of any such Cash Income if it determines, in its sole and absolute discretion, that such payment is not practicable or if the Company is unable to make such payment due to financial constraints, legal restrictions, or any other reasons deemed relevant by the Company. By signing this Authorisation, you acknowledge and agree that under certain circumstances, Cash Income may not be paid out and shall remain the property of the Company, without any obligation to compensate or account for such retained earnings to you.

7. Stamp or Transfer Taxes

Unless the Company provides you with prior notice otherwise, the Company undertakes promptly to pay and account for any stamp or transfer tax chargeable in connection with any Loan and any transfer of securities or Equivalent securities pursuant to or contemplated by this Authorisation. However the Company may be required to withhold tax on payments to you in connection with the Loans unless an exception applies. Subject to 5 Business Days' prior written notice from the Company to you, for Loans effected after such notice period, the Company may in its discretion request you to, and you shall, reimburse the Company for any stamp or transfer tax paid by the Company in connection with any such Loan or the related transfer of securities or Equivalent securities pursuant to or contemplated by this Authorisation. You are responsible for evaluating your own tax consequences of participating in the Company's securities lending program and the Loans, and seeking the advice of a tax professional if needed.

8. Fees

8.1 The Company will pay a fee to you for each Loan at a rate determined by reference to an approximate of specified percentage of the net income earned by the Company for "on-lending" the loaned Relevant Securities. The net income received by the Company and used to calculate such fee to you may be less than the gross income received by the Company for on-lending such securities because of certain deductions and charges, including payments to affiliates and third parties, and operating income or fee of the Company.

8.2 The rate and payment of fees under clause 8.1 shall be in accordance with the terms and conditions as set out in the fee schedule made available by the Company to you from time to time. Such fee schedule will cover, without limitation, applicable fees, accruals and

payment terms. The fee schedule may be subject to change in the discretion of the Company from time to time.

8.3 You acknowledge and agree that the Company may pay part of the income earned from on-lending the loaned Relevant Securities to third parties such as introducing brokers who may introduce accounts to the Company. These payments may reduce the fee which the Company will pay to you for the entire duration of the Loan.

8.4 However, unless otherwise agreed and subject to clauses 6.1 and

6.2 above, the Company is entitled to retain for its own account all fees, profits and other benefits received by the Company in connection with any Loan; and save as referred to in clause 8.1 above, no remuneration or fee will be payable by the Company to you in respect of any Loan.

9. Power of Attorney

You hereby appoint the Company to be your attorney-in-fact (with full power of substitution and delegation) and in your name and on your behalf and as your act and deed to sign, seal, execute, deliver, perfect and do all deeds, instruments, acts and things which are necessary to give effect to or for the purposes of carrying out the provisions of this Authorisation, including to enter on your behalf any Loan, withdraw on your behalf any Relevant Securities from the Account pursuant to any Loan, or to accept on your behalf the deposit of any Equivalent securities following the termination of any Loan.

10. Representations and Acknowledgements

You represent to the Company on each date a Loan is entered into and on each date a Loan is outstanding, that:

(a) you are entitled to pass full legal and beneficial ownership of all loaned Relevant Securities (and, in the case of any such securities held within the relevant Clearance System, full beneficial ownership of such securities) credited to the Account to the Company free from all Encumbrances;

(b) all securities credited to the Account are fully paid, validly issued and not subject to any option to purchase or similar rights;

(c) you are acting as principal in relation to this Authorisation;

(d) you are capable of assessing (on your own behalf or as a result of having received independent tax, financial, legal and other professional advice), and understand and accept, the terms, conditions, merits and risks of this Authorisation and any Loan, and the tax and accounting treatment of any Loan and any manufactured dividend payable under this Authorisation;

(e) no securities credited to an Account are subject to any condition to or restriction on the ability of the owner thereof to sell, assign, create security over or otherwise transfer such securities or of any document related thereto including, without limitation, any requirement that any sale, assignment, creation of security or other transfer or enforcement of such securities

be consented to or approved by any person and any registration or qualification requirement or prospectus delivery requirement for such securities pursuant to any Applicable Regulations (including any such requirement arising under Section 5 of the U.S. Securities Act of 1933, as amended); and

(f) you and your affiliates are not, and have not been, an "affiliate" of the issuer of such securities, and such securities are not, in your hand, "restricted securities" or "control securities" (each within the meaning of Rule 144 under the U.S. Securities Act of 1933, as amended).

11. Termination

11.1 Either party may terminate this Authorisation in the manner specified in clause 27 (Termination) of the Terms. Without prejudice to clause 27 (Termination) of the Terms, the termination date shall be the date confirmed by the Company in writing which shall be a date as soon as reasonably practicable which, unless otherwise agreed between you and the Company in writing, shall be a date no earlier than the standard settlement date that would apply to a purchase or sale of the loaned Relevant Securities. Upon termination, all outstanding Loans shall be terminated by the Company in accordance with clause 4.1 above.

11.2 Without prejudice to clause 27 (Termination) of the Terms, the execution by you of an order to sell the loaned Relevant Securities under a Loan shall constitute notice of termination by you to the Company. The termination date established by such a sale of the loaned Relevant Securities shall be the settlement date of such sale of the loaned Relevant Securities or any earlier date subject to the agreement of the Company.

Appendix XII: Leveraged foreign exchange trading Agreement

This Agreement governs the Company's provision of services in relation to leveraged foreign exchange trading. It supplements, and should be read together with, the Terms and any other terms and conditions governing the services provided by the Company, as they may be amended from time to time. The terms and conditions stated in this document form an integral part of the Agreement.

1. Definitions and Interpretation

1.1 In this Agreement, the following expressions, unless the context requires otherwise, shall have the following meanings:

"FX Contract" means any contract entered into by the Company for or with the Client in relation to an FX Transaction;

"FX Transaction" means any transaction involving "leveraged foreign exchange trading" as defined in Part 2 of Schedule 5 of the SFO;

"LFX Account" means an Account with the Company for effecting and recording FX Transactions effected by the Company on the Instructions of the Client;

"Liquidity Provider" means the entity(s) selected by the Company from time to time as its liquidity provider(s) in relation to FX Transactions;

"Margin", for the purpose of this Agreement, means any initial margin and any additional margin; and

"Open FX Contract" means all or any part of an FX Contract which is not settled, offset or closed out.

1.2 For the avoidance of doubt, **"Investment Product"** as defined in the Terms includes FX Contracts.

2. FX Services and Contracts

2.1 **FX Services:** The Company may, at its discretion, provide services in relation to FX Transactions, which include the executing and clearing, or arranging for execution and clearing of, any FX Contract, provided that the Company may at its discretion specify the currency pairs and contract size and any trading limit for any FX Contract. FX Transactions can only be conducted through the LFX Account.

2.2 **Company acts as principal by default:** Unless the Company specifies otherwise, it enters into an FX Transaction with the Client as principal

using the 'straight through processing' model. Where the Company acts as principal, the Company acts as the counterparty to the Client's FX Transaction and the Client may be subject to the Company's credit risk. Where the Company acts as agent, the FX Contract is entered into by the Company on the Client's behalf with a third party.

2.3 FX Contracts: The agreed quantity of foreign exchange underlying each FX Contract is not deliverable, and each Open FX Contract will, unless otherwise notified by the Company to the Client (for details, please visit the Company's website), be rolled over daily at prevailing market closing rates until the Client or the Company closes it out.

2.4 Conflict of interest: The Client acknowledges and agrees that:

(a) the Company may knowingly or unknowingly take the opposite position to any order or transaction of the Client, and this includes hedging each FX Transaction with a Liquidity Provider by entering into an equal but opposite transaction with the Liquidity Provider on a back-to-back basis;

(b) the Liquidity Provider may be an affiliate of the Company, and if so, a conflict of interest can arise given that the commercial interests of the Company and the Liquidity Provider would be linked; and

(c) pursuant to the Company's staff dealing policies, the Company's directors, employees and representatives may be allowed to trade FX Contracts on their own accounts

2.5 Interest: In respect of any Open FX Contract, the Company shall from time to time credit or debit the LFX Account with any interest incurred at a rate determined by the Company in its absolute discretion, but in doing so shall take into account the rates quoted by the Liquidity Provider, which in turn takes into account prevailing market rates and the short/long swap points for similar FX Contracts, plus a markup. For details of the interest calculation method, please visit the Company's website.

2.6 Client's responsibility: The Client shall be solely responsible for assessing each FX Contract. All FX Contracts effected by the Client are done so based on his own judgment and at his sole risk.

2.7 OTC: All FX Transactions are traded over-the-counter rather than on an Exchange. There is no centralised pricing source for over-the-counter trading and the price of an FX Transaction is determined by the Company in its sole discretion, but the Company shall make reference to the incoming price(s) provided by the Liquidity Provider. For details

of the pricing calculation method, please visit the Company's website. Over-the-counter transactions may involve greater risk than investing in exchange traded products because there is no Exchange on which to close out an open position.

2.8 Pricing: All rates and prices quoted by the Company are for reference only and are not binding on the Company unless otherwise specified by the Company. Furthermore, the Client acknowledges that:

(a) there is a risk that the price quoted may be different from the price at which the FX Transaction is executed – this is commonly referred to as "**slippage**";

(b) rates for foreign exchange may fluctuate in a very short period of time;

(c) there may, on occasion, be a delay in making prices or in dealing by the Company due to the physical restraints or the rapid changes in the prices of FX Transactions and the Company may not, after using reasonable endeavours, be able to trade at the prices quoted at any specific time; and

(d) in respect of any FX Contract entered into at a rate or price quoted incorrectly by the Company, if (i) the rate or price was manifestly incorrect at the time when the FX Contract was entered into or (ii) the Client knew, or ought reasonably to have known that the rate or price was incorrect at the time when the FX Contract was entered into, the FX Contract shall be void and the parties to the FX Contract shall not be bound to perform their respective obligations thereunder.

2.9 Specifications: Specification of all services and FX Contracts which the Company may provide to, transaction with, or undertake on behalf of the Client, and all the terms and conditions attached to those services and to the trading of those contracts, can be found on the Company's website or mobile application.

2.10 Performance: Where an FX Contract is closed out (by the Client or otherwise), the Company shall either debit or credit (as the case may be) the LFX Account a sum equal to the gain or loss, expressed in the base currency of the LFX Account.

2.11 Rounding: Because the Company's trading systems only support calculations down to a certain decimal point, any gains or losses realised by the Client in an FX Transaction may be rounded down or up.

2.12 Authorized Person(s): The Authorized Person(s) are not allowed to

act on the Client's behalf in relation to FX Transactions, unless and until the Authorized Person has provided the Company with a written declaration (as described in paragraph 4 of Schedule 6 of the Code), such declaration being in form and substance satisfactory to the Company in all respects.

3. Margin

3.1 Initial margin: Before the Company effects any Instruction for FX Contracts, the Client is required to place an initial margin with the Company with respect to the position to be opened on the LFX Account. The Margin requirements for an FX Contract will be made available to you before you give an Instruction, and may differ from one FX Contract to another. At present, the Margin requirement for most FX Contracts is 5% of the gross amount payable under the FX Transaction. This percentage will fluctuate subject to the FX Contract in question, market conditions, and other factors.

3.2 Discretion: The Company has absolute discretion to determine and vary from time to time the amount of Margin for existing and/or new FX Contracts, any call level and close-out level taking account of any Applicable Regulations and market conditions.

3.3 Margin call: The Client shall maintain the Margin required by the Company from time to time. If at any time the value of the Margin reaches or falls below any call level prescribed by the Company, the Company has the right to call upon the Client to pay additional margin to the satisfaction of the Company which shall be paid by the Client forthwith after the call for Margin has been made.

3.4 Communication: The Client agrees that a Margin call shall be deemed properly made after the Company has given notice to the Client of such Margin call in accordance with Clause 30 (Communications and Notices) of the Terms.

3.5 Event of Default: Failure to meet a Margin call or maintain sufficient Margin at any time shall constitute an Event of Default. In addition, if the value of the Margin reaches or falls below any close-out level prescribed by the Company, the Company is entitled without notice to or consent from the Client to exercise its rights to close out all or any Open FX Contract.

3.6 Deficit: The Client's liability in respect of Margin calls is not limited to the amount of the Margin deposited with the Company. The Client is responsible to pay any deficit owing to the Company after closing out any Open FX Contracts and if the Client defaults in payment of such deficit, the Company may exercise any of its rights under the

Agreement (in particular, those rights under Clause 21.2 (Remedies) of the Terms) to settle such deficit.

4. Representations and Acknowledgments

4.1 Capacity and benefit: The Client represents, warrants and undertakes to the Company that, both at the date of this Agreement and each time the Company executes an FX Contract with or for the Client:

(a) the Client has full capacity, power and authority, and has adequate resources and financial expertise, and has taken all necessary action to authorise itself to enter into and perform the Agreement and the FX Contract;

(b) the Client is either:

(i) trading on his own behalf; or

(ii) if the Client is not trading on his own behalf, he has informed the Company in writing of the name of the ultimate beneficiary on whose behalf the Client is trading; and

(c) the client is either:

(i) operating the LFX Account by giving Instructions for FX Contracts himself; or

(ii) if the Client is not operating the LFX Account by giving Instructions for FX Contracts himself, he has appointed another person to give Instructions on his behalf, and has informed the Company in writing of the name and address of the person so appointed, accompanied by an appointment in writing.

4.2 Further representations and acknowledgments: The Client acknowledges and agrees that:

(a) none of the Company's employees or representatives shall accept appointment by the Client as an Authorized Person unless a separate discretionary account agreement is entered into between the Company and the Client in accordance with paragraph 6 of Schedule 6 of the Code;

(b) the Client may be affected by any curtailment of, or restriction on, the capacity of the Company to trade in respect

of open positions as a result of action taken by the SFC under Applicable Regulations or for any other reason, and in such circumstances, the Client may be required to reduce or close out his open positions with the Company;

(c) all telephone conversations between the Company and the Client in the course of the Company's provision of leveraged foreign exchange trading services will be recorded on a centralized tape recording system operated by the Company. Recordings may be made without any automatic tone or other warning. The Client agrees that such recordings may be used for any purpose which the Company considers appropriate and shall be conclusive evidence as between the Client and the Company as to the contents and nature of the relevant conversations

4.3 Complex products: The FX Contract in question may be a Complex Product. Where that is the case, the Client acknowledges the following:

(a) the Client should exercise caution in relation to the Complex Product;

(b) the Client may lose more than the amount invested;

(c) where offering documents or information provided by the issuer of the Complex Product have been provided to the Client, the relevant offering documents have not been reviewed by the SFC and the Client is advised to exercise caution in relation to the offer;

(d) where the Complex Product is described as having been authorized by the SFC, such authorization does not imply official recommendation, nor is it a recommendation or endorsement of the product, nor does it guarantee the commercial merits of the product or its performance;

(e) any past performance information that is provided is not indicative of future performance; and

(f) if the Complex Product should be made available to only Professional Investors, you are a Professional Investor.

5. Default and close out

5.1 **Remedies:** If an Event of Default has occurred, the Company shall (without prejudice to any other rights it may have) have the right (but not any obligation) at its discretion to take all or any of the following

action at any time upon or after occurrence of such event without notice to or consent from the Client and without demand for additional margin:

- (a) close out all or any Open FX Contracts of the Client in full or to any extent;
- (b) cancel any outstanding orders and refuse to accept or act on any further instructions from the Client; or
- (c) enforce or realise any Margin held by the Company and apply the proceeds (after deducting reasonable costs and expenses) towards settlement of any Liabilities.

5.2 Loss or gain following close out: Upon the Company exercising its right in this Clause 5, the Company shall as soon as reasonably practicable determine its total cost, loss or gain (as the case may be), expressed in the base currency of the LFX Account (and, if appropriate, including any loss of bargain, cost of funding or, without duplication, cost, loss or gain (as the case may be) as a result of any hedge or related trading position) as a result of closing out each Open FX Contract.

5.3 Net position: The Company shall calculate its net position (the "Net Position") after taking into account such total cost, loss or gain and shall notify the Client of the Net Position. If the Net Position is a cost or loss, the Client shall pay an amount equivalent to the Net Position to the Company. If the Net Position is a gain, the Company shall pay an amount equivalent to the Net Position to the Client. Neither party shall be obliged to perform any Open FX Contract and such obligations shall be satisfied by settlement of the Net Position. Any amount payable by the Client to the Company in respect of the Net Position shall be paid within such time prescribed by the Company.

5.4 Close out: Without prejudice to the Company's rights upon occurrence of any Event of Default, the Company reserves the right without notice to or consent from the Client to close out one or more Open FX Contracts and/or apply the Margin (or any part of it) in the Company's sole discretion at any time to protect the interest or reduce any loss of the Company and/or the Client in light of market conditions or, if in the Company's opinion, the Client may be unable or unwilling to perform any of its obligations under the Agreement. The Company shall not be liable for any loss arising from such closing out of Open FX Contracts or application of Margin.

5.5 Deficit: The Client shall be liable for payment of any deficit owing by the Client to the Company in the event that the Margin is insufficient to pay all Liabilities. The Client shall pay such deficit on demand.

Risk of trading in leveraged foreign exchange contracts

The risk of loss in leveraged foreign exchange trading can be substantial. You may sustain losses in excess of your initial margin funds. Placing contingent orders, such as "stop-loss" or "stop-limit" orders, will not necessarily limit losses to the intended amounts. Market conditions may make it impossible to execute such orders. You may be called upon at short notice to deposit additional margin funds. If the required funds are not provided within the prescribed time, your position may be liquidated. You will remain liable for any resulting deficit in your account. You should therefore carefully consider whether such trading is suitable in light of your own financial position and investment objectives.

3. Scope of Overnight U.S. Stock Trading Services

3.1 Scope: The Company may (but is not obliged to) provide Overnight U.S. Stock Trading Services to the Client. Additional functions and services in connection with the Overnight U.S. Stock Trading Services may be provided by the Company to the Client from time to time, in which case additional terms and conditions may apply, which the Client shall read and agree to before using those functions or services. connection thereto shall be provided through the Securities Account.

3.2 NMS Products: The Company may, at its sole and absolute discretion from time to time, decide which NMS Products may be traded.

3.5 Unmatched Orders: Unless otherwise stated by the Company, all Instructions for Overnight U.S. Stock Trading Services which remain wholly or partly unmatched by the end of the Overnight Session will be automatically cancelled and of no further effect.

3.6 Prices: The actual bid and offer prices of NMS Products shall be determined at the time when the Transaction for the NMS Products is effected. Any figures which may be quoted or provided to the Client by the Company or its representatives at any other time are for reference only and are not binding on the Company.

3.7 Binding: All Instructions for Overnight U.S. Stock Trading Services are conclusive and binding on the Client upon placement of any such Instruction, but are subject to final execution and acceptance by the Company.

4. Limitation of liabilities

4.1 Exclusion of Liability: The Client agrees that none of the Company,

any member of the Futu Group, the ATS Service Provider, the Upstream US Broker or any of their respective nominees, directors, employees or agents, shall be liable for any claims, suits, actions, proceedings, losses, damages, obligations, liabilities, costs, fees and expenses which the Client may incur arising out of or in connection with the Overnight U.S. Stock Trading Services or any of the following, unless due to the gross negligence, fraud or wilful default of such persons:

(a) any interruption, interception, suspension, delay, loss, unavailability, breakdown, disruption or other failure of the ATS (for any reason whatsoever) including, without limitation, failure of any communication network or computer downtime, act or omission of any third party information or service providers, computer virus, unauthorized access by any person (including hacker), upgrade or preventive or remedial maintenance activities, mechanical failure, power failure, malfunction, or inadequacy of equipment, installation or facilities, or any law, rules, regulations, codes, directions, regulatory guidelines or government order (whether or not having the force of law);

(b) any errors or failures relating to transmission, posting and/or storage of any information and/or data relating to the Client, NMS Products and/or the Overnight U.S. Stock Trading Services conducted by the Client through or in any system, equipment or instrument of any communication network provider;

(c) any failure to settle the Matched Orders;

(d) the Company not accepting, carrying out, executing or effecting the Client's Instructions for Overnight U.S. Stock Trading Services (or omitting to give notice therefor); and

(e) any action taken by the Company pursuant to this Appendix XIII, in particular Clause 3.3 (Absolute Discretion) of this Appendix XIII.

4.2 Unavailability of Upstream US Broker: In the event of any unavailability of the Upstream US Broker, the Company:

(a) will as soon as practicable notify the Client; and

(b) shall have the sole and absolute discretion to (i) cancel any Instructions for Overnight U.S. Stock Trading Services (including the Matched Orders); and/or (ii) limit, vary, suspend or terminate the Overnight U.S. Stock Trading Services provided to the Client.

5. Settlement and Currency Conversion

As all Transactions for Overnight U.S. Stock Trading Services are effected and settled in USD, if we do not receive sufficient USD before settlement of a buy order to settle such purchase of NMS Products, settlement may be delayed and/or fail, and you may not acquire any title to, or become entitled to, sell or transfer the relevant NMS Stock. Where we hold any funds on your behalf, if there are insufficient USD funds to settle any NMS Stock buy order or other payment obligation in connection with an Instruction, then, without prejudice to clause 9.1 (Currency Conversion) of the Terms, you authorise us to convert any funds in any other currency which we hold on your behalf into USD for the purposes of settlement thereof.

6. Sale, Transfer and Disgorgement

6.1 Forced-sale: Where we receive a notice (a "Forced-sale Notice") from the Upstream US Broker and/or the ATS Service Provider, requiring us to sell and liquidate a specified number of NMS Products, we shall be entitled to issue a corresponding notice (a "Client Forced-sale Notice") to you requesting you to sell and liquidate any number of such NMS Products that you hold in your Account with us (as determined by us in our sole discretion) within the period specified by us, and you undertake to comply with any such Client Forced-sale Notice.

6.2 Discretion pursuant to Forced-sale Notice: In relation to any Forced-sale Notice, you authorise us to sell or arrange for the sale of such NMS Products on your behalf at such price and on such terms as we may determine in our absolute discretion if you fail to comply in a timely manner with a Client Forced-sale Notice.

6.3 Recipient Agent: Where NMS Products owned by you that are the subject of a Client Forced-sale Notice have been transferred from the holding of the cleaning participant that settled the relevant NMS Products buy order (the "Original CP") to another cleaning participant or custodian (the "Recipient Agent"), you authorize us to provide instructions to the Recipient Agent on your behalf to return the relevant NMS Products to the Original CP for sale and liquidation in accordance with all the requirement from the ATS Service Provider and/or the Upstream US Broker. You also undertake to inform the Recipient Agent of such authorization and, where required, you undertake to instruct the Recipient Agent to act accordingly.

6.4 Further Action: In addition to the above, you authorize us to sell, transfer or carry out any other action in relation to NMS Products owned by you if we are instructed to do so by the ATS Service Provider and/or the Upstream US Broker or if we otherwise determine in our

absolute discretion that it is necessary or desirable to do so in order to comply with any Applicable Regulations.

6.5 No Liability: Neither we, the ATS Service Provider nor the Upstream US Broker shall have any liability for any losses or risks which may result directly or indirectly from any actions taken by any party in respect of this Clause 6.

7. Taxation and Information

7.1 Taxes: You shall be responsible for paying all Taxes and complying with all filing or registration obligations relating to any NMS Products and any dividends or entitlements in respect of such NMS Products, in each case as may be required under by any Applicable Regulation, the ATS Service Provider and/or the Upstream US Broker.

7.2 Further Information: In the event we are required by the ATS Service Provider and/or the Upstream US Broker to pay any Taxes, we may notify you whenever necessary and request that you provide us with relevant information as we deem necessary to fulfil our obligations. You must provide to us, promptly on such request, such information and documents, including but not limited to costs of your purchase of the NMS Products, and your and/or any underlying beneficial owner's tax status or residence. We may withhold or deduct relevant Taxes from any amount due to you and you will remain liable for any shortfall.

7.3 Non-Receipt of Information: In the event we do not receive any requested information from you within a reasonable period of time to fulfil our obligations, we shall be forthwith entitled in our absolute discretion, without further notice or demand to you, to satisfy any obligation of us or you to pay or account for any amounts in respect of any Taxes by selling, realizing or otherwise dealing with, in such manner as we in our absolute discretion may determine, all or part of any property held by us for any purpose in any of your accounts held with us, and to apply the proceeds in reduction of all or part of your liability to any tax authority or us.

7.4 Accuracy: We shall have no responsibility to verify the accuracy of the information provided by you and are entitled to rely on such information to fulfil our obligations.

7.5 Tax Relief: We shall have no liability whatsoever for the lack of any tax relief, or any failure to obtain the benefit of any tax credit.

8. Termination

Without prejudice to any other terms of the Agreement, the Overnight U.S.

Stock Trading Services may be terminated by either party upon not less than 7 days' written notice to the other. Notwithstanding the termination of the Overnight U.S. Stock Trading Services for any reason, Clauses 4 (Limitation of liabilities) and 6 (Sale, Transfer and Disgorgement) shall survive termination, and we shall in any event be entitled to retain such NMS Products and/or cash as we may in our sole discretion determine, in order to complete any Matched Orders required to be settled on your behalf.

9. Risk Disclosures and Acknowledgement

You shall be deemed to acknowledge the following by instructing us in respect of any transaction relating to Overnight U.S. Stock Trading Services.

9.1 Risk Disclosure Statements: You acknowledge that you have read and understood the risk disclosures, the obligations and other information set out in Schedule I (Risk Disclosure Statements) of the Client Agreement;

9.2 Risk of Lower Liquidity: Liquidity refers to the ability of market participants to buy and sell securities. Generally, the more orders that are available in a market, the greater the liquidity. There may be lower liquidity in Overnight Session as compared to U.S. regular trading hours. As a result, the Client's order may only be partially executed, or not at all;

9.3 Risk of Higher Volatility: Volatility refers to the changes in price that securities undergo when trading. There may be greater volatility in Overnight Session than in U.S. regular trading hours. As a result, the Client's order may only be partially executed, or not at all, or the Client may receive an inferior price when engaging in Overnight Session than the Client would during regular U.S. securities trading hours;

9.4 Risk of Changing Prices: The prices of securities traded in Overnight Session may not reflect the prices either at the end of U.S. regular trading hours, or upon the opening the next morning. As a result, the Client may receive an inferior price when engaging in Overnight Session than the Client would during U.S. regular trading hours;

9.5 Risk of Dividends: If the Client purchase a U.S. Stock during the Overnight Session, they will not be entitled to the dividend due to the trading period in the Overnight Session being on the Ex-dividend Date.

9.6 Risk of Unlinked Markets: Depending on the ATS system or the time of day, the prices displayed on an ATS system may not reflect the prices in other concurrently ATS systems dealing in the same securities. Accordingly, the Client may receive an inferior price in one ATS system than the Client would in another ATS system;

9.7 Risk of News Announcements: Normally, issuers make news announcements that may affect the price of their securities after U.S. regular trading hours. Similarly, important financial information is frequently announced outside of U.S. regular trading hours. In Overnight Session, these announcements may occur during trading, and if combined with lower liquidity and higher volatility, may cause an exaggerated and unsustainable effect on the price of a security.

9.8 Risk of Wider Spreads: The spread refers to the difference in price between what the Client can buy a security for and what the Client can sell it for. Lower liquidity and higher volatility in Overnight Session may result in wider than normal spreads for a particular security.

9.9 Prohibition: You acknowledge that there is a risk of prohibition from trading NMS Products via ATS and that your instructions to trade in Overnight Session may not be accepted.

9.10 Investigations: You acknowledge that we may (for the purpose of assisting the Upstream US Broker in its regulatory surveillance of the relevant trading Market and enforcement of the relevant rules), at the request of the Upstream US Broker, require you to provide information (including, without limitation, in relation to your identity, personal data and trading activity) in relation to you and any other persons with respect to any Matched Orders placed or the transactions made or entered into by us on your or their behalf.

9.11 Rejection and Cancellation: You acknowledge and accept that the Upstream US Broker may, upon the ATS Service Provider's request, require us to reject and/or cancel any order made on your behalf.

9.12 By trading NMS Products related to ETF and/or other fund products, you confirm and have given full consideration about your investment goal, trading risks, inflation risks, relevant costs and expenses, and have carefully read through the material information and prospectus of the product.

9.13 By holding an NMS Product related to voting and/or foreclosure rights, you confirm that the Company does not hold obligation and responsibility to assist you with relevant voting and foreclosing practices. You confirm that the Company reserves the right of final decisions.

9.14 By trading on NMS Products, the Client is exposed to the credit, settlement, and other risks of the counterparty to the relevant OTC transactions. Settlement of the relevant Transactions is not guaranteed and the Client will be responsible for any losses or expenses resulting

from the Client's and/or the counterparty's settlement failures or delays.

9.15 You should understand the US rules applicable to trades in security or security-like instrument in markets governed by US law before undertaking any NMS Product trading. US law could apply to trading in US markets irrespective of the law applicable in your home jurisdiction. You may bear additional costs and expenditure to comply with constantly updated US laws and regulations.

10. Miscellaneous Provisions

In the event of any inconsistency between the English version and the Chinese version, the English version shall prevail.

Appendix XIV U.S. Fractional Shares Trading Services

This Appendix XIV governs the Company's provision of U.S. Fractional Shares Trading Services. It supplements, and should be read together with, the Terms and any other terms and conditions governing the services provided by the Company, as they may be amended from time to time. It forms an integral part of the Agreement.

1. Definitions and Interpretations

1.1 In this Appendix XIV, the following expressions, unless the context requires otherwise, shall have the following meanings:

"**SEC**" means the U.S. Securities and Exchange Commission;

"**U.S. Fractional Shares**" means the fractional portions (rather than the whole) of shares which are traded or listed on stock exchanges or markets in the U.S.; and

"**U.S. Fractional Shares Trading Services**" means the services provided by the Company in relation to transactions for U.S. Fractional Shares.

2. Applicable Regulations

2.1 **Applicable Rules and Regulations:** All Instructions given for U.S. Fractional Shares Trading Services made or entered into by the Company on behalf of the Client, shall be subject to, and the Client shall be bound by:

- (a) the Agreement;
- (b) applicable Company's rules, regulations, procedures and policies constantly updated;
- (c) the Rules of the SEC, the clearing rules and the customs, usages, rulings and procedures of the SEC; and
- (d) all other Applicable Regulations.

2.2 **Conflict:** If there is any conflict or inconsistency between any provisions of the Agreement on one hand, and anything contained in paragraphs (b), (c) and (d) of Clause 2.1 of this Appendix XIV on the other hand, the Company may, in its absolute discretion, take or refuse to take any action, or demand the Client to take or refrain from taking any action, to ensure compliance with the same..

3. Capacity

3.1 Instructions regarding shares which are traded or listed on stock exchanges or markets in the U.S. will continue to be handled by the Company in an agency capacity, save that, in respect of the fractional portion, the Company's execution broker will generally act as a counterparty and will execute that portion of a trade as principal or riskless principal.

3.2 The Client will be the beneficial owner of the U.S. Fractional Shares in their Account, and all U.S. Fractional Shares owned by the client will be segregated in the Company's books and records in the same manner and to the same extent as whole shares.

4. Eligible Fractional Securities and available order types

4.1 The Company will only provide the U.S. Fractional Shares Trading Services in respect of a limited number of securities ("**Eligible Fractional Shares**").

4.2 The Company may from time to time at its sole discretion adjust the list of Eligible Fractional Shares without notice to the Client. When a particular stock is removed from the list of Eligible Fractional Shares, the Client will be able to sell such stock but will no longer be able to buy such stock.

4.3 In the event the Client gives an Instruction for a share which is not an Eligible Fractional Share, the fractional portion may not be executed.

4.4 The Company will only accept certain types of trading orders for U.S. Fractional Shares (e.g., market orders, limit orders, etc.).

5. Non-withdrawable and non-transferable

5.1 U.S. Fractional Shares are non-withdrawable and non-transferable from or to another broker or custodian. However, the Client would be able to combine any U.S. Fractional Shares of the same securities into a whole share, provided that the security in question is an Eligible Fractional Security.

5.2 If the Client wants to transfer its holdings of U.S. shares in an Account to another broker or custodian, the corresponding U.S. Fractional Shares will need to be liquidated before transfer, which may have tax consequences and will result in fees and charges, following which the Client may transfer the remaining whole shares.

6. Shareholder rights for U.S. Fractional Shares

6.1 Voting rights at general meetings:

6.1.1 Shareholders of a company are generally entitled to a voting right, being the right to cast a vote on matters which are transacted at a meeting of the shareholders of the company ("**Voting Rights**"). However, holding U.S. Fractional Shares of a listed company ("**Listed Company**") creates risks in respect of the Client's enjoyment of the Voting Rights. It may not always be permissible to fractionalize the Voting Rights, due to the laws of the Listed Company's jurisdiction of incorporation and/or its constitutional documents (e.g. Articles of Association) or other operational limitations. In this scenario, the Voting Rights may lie with the Company or a third party appointed by the Company (such as the Company's US custodian broker). As a neutral party, the Company or such other appointed third party will not be taking instructions from the Client or the other owners of the U.S. Fractional Shares in respect of the Voting Rights. Instead, the Company will be taking, or will procure the relevant third party to take, one of the following courses of action:

(a) where the relevant Listed Company or our custodian broker has advised on a default option for the matter to be voted on at a meeting of the shareholders, the Company will abstain from voting, such that the Voting Rights will be exercised in favour of the default option as prescribed by the relevant Listed Company; or

(b) where no default option has been advised, the Voting Rights will not be exercised and the Company or the appointed third party will abstain from voting.

Such abstaining may have adverse implications for the Client (e.g.

the loss of the ability to vote in favour or against a proposed share allotment, tender offers or rights offerings).

6.1.2 By trading U.S. Fractional Shares, the Client accepts and acknowledges that the Client may not have any Voting Rights in respect of the U.S. Fractional Shares. The Client also consents to the manner in which the Voting Rights will be exercised by the Company or the appointed third party, as outlined above.

6.2 Matters decided outside of general meetings:

6.2.1 Shareholders may also be asked to decide on matters outside of general meetings, which may take the form of correspondence sent by a company asking the shareholders to select a certain course of action, or to indicate consent to a certain matter (such bundle of rights, "**Election Rights**"). As with the Voting Rights, it may not always be permissible for Election Rights of a Listed Company to be fractionalized due to the laws of the Listed Company's jurisdiction of incorporation and/or its constitutional documents or other operational limitations. In this scenario, such rights may lie with the Company or a third party appointed by the Company (such as the Company's US custodian broker). Where such correspondence is sent to the Company or the appointed third party, the Company will implement, or procure the appointed third party to implement, the same selecting mechanism applicable to Voting Rights, to the Election Rights. This may similarly have adverse implications for the Client (e.g. not being able to make any elections which are suitable for the Client).

6.3 Right to receive dividend payments:

6.3.1 Once a Listed Company issues a dividend payment (whether in the form of cash or shares), the Company will, in respect of the Client's U.S. Fractional Shares, arrange for a pro-rated share of the dividend payment to be paid to the Client.

6.3.2 The Company is solely responsible for determining the amount of the pro-rated dividend payment payable to the Client and the Client will not have any redress against the Company or the Listed Company issuing the dividend in the event of any disputes. The Client agrees that the Company's determination of the pro-rated dividend payable to the Client, which shall be based on the Company's records as at the ex-dividend date of the Listed Company, shall be conclusive in the absence of manifest error.

6.3.3 Dividend payment is subject to a minimum amount as prescribed by the Company in its sole discretion. Where the pro-rated dividend to be paid to the Client is below the aforementioned standard, the client may not be able to receive such dividend.

7. **Rounding**

7.1 All fractional holdings will be rounded to four decimal places while the Client's cash balance is rounded to two decimal places. Rounding may affect the Client's ability to be credited for sale proceeds, cash dividends, share dividends and share splits.

7.2 For buy orders, the minimum amount of U.S. Fractional Shares asked and the minimum value of asked shares shall be subject to conditions and restrictions published on the Company's website and platform.

7.3 The trading hours of U.S. Fractional Shares shall be the time as announced by the Company from time to time on its website and

platform.

7.4 Orders of U.S. Fractional Shares are only valid for the day on which it is made.

7.5 U.S. Fractional Shares shall not be lent for the purpose of short-selling, and any other arrangement or scheme of the Company in relation to short-selling shall not apply to U.S. Fractional Shares.

7.6 The Client shall not be able to amend order amount of U.S. Fractional Shares, and orders for whole shares may not be able to be converted to orders for U.S. Fractional Shares.

7.7 The Company may in its sole discretion apply or remove any kind of condition or restriction in relation to U.S. Fractional Shares. The conditions and restrictions published on the website or platform of the Company shall prevail in case of any inconsistency.

7.8 The Company may in its sole discretion reject any instruction or order by the Client in relation to U.S. Fractional Shares and shall not be liable to Client for any loss incurred by such rejection.

8. Risk Disclosures and Acknowledgement

The U.S Fractional Shares Trading Services present unique risks and has certain limitations that the Client should understand before using the same.

8.1 Orders to sell may be entered using a fractional share quantity (e.g., 2.525 shares). Orders to buy may use either a fractional quantity or a dollar value (e.g., \$250.00). Share quantities can be specified to four decimal places (e.g. .0001). Dollar value orders will be converted into share quantities for execution, likewise, to four decimal places. In all cases, when converting dollar-value orders into share quantities, the share quantities will be rounded down.

8.2 For a variety of reasons, including but not limited to this conversion convention, the actual amount of an executed dollar-value order may be different from the requested amount. The actual amount of an executed order to buy a dollar value of a security may also be lower or higher than the amount requested due to the price movement of the shares in the market and/or fees and commissions charged by the Company.

8.3 The Company's U.S Fractional Shares Trading Services functionality only supports certain type of orders and securities. Because of this, fractional trading functionality order types are more restricted than if the Client was to buy or sell traditional whole share quantities.

8.4 The Company's execution broker will seek best execution for all orders routed to it for handling and execution consistent with its obligations under applicable law, rules, and regulations, by executing the order at the prevailing "national best bid and offer" price, price limit specified by the Client in limit orders or the latest transaction price for whole shares (as the case may be). As such, there may be instances where the final execution prices of U.S Fractional Shares may be different from the prices quoted for whole shares.

8.5 Sales of less than a whole share may not be eligible for "price improvement." Additionally, because in certain situations price improvement on the U.S. Fractional Share component of an order will affect the execution price rather than the share quantity of an order, the effect of the improvement on a dollar-value order in those situations will be to increase or decrease the value of the order outside of what was requested.

8.6 During periods of heavy trading and/or wide price fluctuations, there may be delays in executing the Client's order and the U.S Fractional Shares Trading Services may not be available. In the event of a trading halt of a security, all trading of that security (including the fractional portions thereof) may be halted until trading resumes

9. Miscellaneous Provisions

In the event of any inconsistency between the English version and the Chinese version, the English version shall prevail.

Schedule I: Risk Disclosure Statements

The Client should read these risk disclosure statements carefully. These statements form an integral part of the Agreement and the Account Opening Form. By executing the Account Opening Form, the Client acknowledges that it has received and read these statements in a language of its choice (English or Chinese) and confirms its understanding of the risks which may arise in connection with the investments and transactions relating to the Accounts. These risk disclosure statements do not disclose or purport to disclose all the risks and relevant considerations in connection with all the investments and transactions relating to the Accounts. The client should refrain from making any investment or transaction unless the Client fully understands the risks involved and has obtained independent legal, tax, financial and other advice from its own advisers as it considers appropriate. The Company is not, and shall not be deemed to be, the Client's financial advisor.

Risks in Securities Trading

1. The prices of securities (including but not limited to bonds or benefits of unit trust funds, mutual funds, or other collective investment schemes) fluctuate, sometimes dramatically. The price of a security may move up or down, and may become valueless. It is as likely that losses will be incurred rather than profit made as a result of buying and selling securities.
2. Any representation of past performance is not necessarily a guide to future performance.
3. Where investments involve exposure to foreign currencies, changes in rates of exchange may cause the value of the investments to fluctuate up or down.
4. Investments in emerging markets need careful and independent assessment by you of each investment and the risks (including without limitation sovereign risk, issuer risk, price risk, liquidity risk, legal and tax risks). Further, you should be aware that, while such investments can yield high gains, they can also be highly risky as the markets are unpredictable and there may be inadequate regulations and safeguards available to investors.
5. The Company is entitled to act upon your instructions and you cannot assume that the Company will warn you if your instructions are ill-timed or inadvisable for any reason or if the instructions are likely to cause you loss. 6. Before you make any investment, you should obtain a clear explanation of all commission, fees and other charges for which you will be liable. These charges will affect your net profit (if any) or increase your loss.

Risks of Trading RMB Securities or Investing in Renminbi Investment

1. Exchange risks and Daily Conversion Limit, etc. RMB is currently not freely convertible and there may at any given time be limited availability of RMB outside

Mainland China. There is conversion risk in RMB denominated securities, and daily or other limits may apply to conversion amounts. If converting to or from RMB in Hong Kong, you may have to allow sufficient time to avoid exceeding such limits. In addition, there is a liquidity risk associated with RMB denominated securities, especially if such securities do not have an active secondary market and their prices have large bid/offer spreads. Investment in RMB denominated securities is subject to exchange rate risks. The value of the RMB against any other foreign currencies fluctuates and is affected by changes in Mainland China and international political and economic conditions and by many other factors. The value of RMB settlement amounts compared to other currencies will vary with the prevailing exchange rates in the market. For RMB products which are not denominated in RMB or with underlying investments which are not RMB denominated, such products will be subject to multiple currency conversion costs involved in making investments and liquidating investments, as well as the RMB exchange rate fluctuations and bid/offer spreads when assets are sold to meet redemption requests and other capital requirements (e.g. settling operating expenses).

2. Limited availability of underlying investments denominated in RMB For RMB products that do not have access to invest directly in Mainland China, their available choice of underlying investments denominated in RMB outside Mainland China may be limited. Such limitation may adversely affect the return and performance of the RMB products.

3. Projected returns which are not guaranteed If the RMB investment product is attached with a statement of illustrative return which is (partly) not guaranteed, you should pay particular attention to any disclosure relating to the return (or the part of the return, as the case may be) which is not guaranteed and the assumptions on which the illustrations are based, including, e.g., any future bonus or dividend declaration.

4. Long term commitment to investment products For RMB products which involve a long period of investment, you should pay particular attention to the fact that if you redeem the investment before the maturity date or during the lock-up period (if applicable), you may incur a significant loss of principal where the proceeds may be substantially lower than the invested amount. You should beware of the early surrender/withdrawal fees and charges, if any, as well as the loss of bonuses (where applicable) as a result of redemption before the maturity date or during the lock-up period.

5. Credit risk of counterparties You should pay particular attention to the credit risk of counterparties involved in the RMB products. To the extent that the RMB products may invest in RMB debt instruments not supported by any collateral, such products are fully exposed to the credit risk of the relevant counterparties. Where a RMB product may invest in derivative instruments, counterparty risk may also arise as the default by the derivative issuers may adversely affect the performance of the RMB product and result in substantial loss.

6. Interest Rate Risks For RMB products which are, or may invest in, RMB debt instruments, you should pay attention to the fact that such instruments may be

susceptible to interest rate fluctuations, which may adversely affect the return and performance of the RMB products.

7. Liquidity Risk You should pay attention to the liquidity risk associated with the RMB products, and where applicable, the possibility that the RMB products may suffer significant losses in liquidating the underlying investments, especially if such investments do not have an active secondary market and their prices have large bid/offer spreads.

8. Possibility of not receiving RMB upon redemption For RMB products with a significant portion of non-RMB denominated underlying investments, you should pay attention to the possibility of not receiving the full amount in RMB upon redemption. This may be the case if the issuer is not able to obtain sufficient amount of RMB in a timely manner due to the exchange controls and restrictions applicable to the currency.

9. Additional risks associated with leveraged trading Prior to conducting leveraged trading of RMB products, you should make sure that you understand and accept the risks and the terms and conditions of the borrowing arrangement. Leveraging heightens the investment risk by magnifying prospective losses. You should pay attention to the circumstances under which you will be required to place additional margin deposits at short notice and that my/our collateral may be liquidated without my/our consent. You should beware of the risk that market conditions may make it impossible to execute contingent orders, such as “stop-loss” orders. In addition, you should be mindful of the exposure to interest rate risk, and in particular, the cost of borrowing may increase due to interest rate movements.”

Risks of Growth Enterprise Market (GEM) Stocks Business

Growth Enterprise Market (“GEM”) stocks involve a high investment risk. In particular, companies may list on GEM with neither a track record of profitability nor any obligation to forecast future profitability. GEM stocks may be very volatile and illiquid. You should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Current information on GEM stocks may only be found on the internet website operated by the Stock Exchange of Hong Kong Limited. GEM Companies are usually not required to issue paid announcements in gazetted newspapers.

You should seek independent professional advice if you are uncertain of or have not understood any aspect of this risk disclosure statement or the nature and risks involved in trading of GEM stocks.

Risks of Buy-and-Sell of NASDAQ Securities in SEHK

The securities traded under the Nasdaq-Amex Pilot Program (the “PP”) are aimed at sophisticated investors. You should consult the Company and become familiarised with

the PP before trading in the PP securities. You should be aware that the PP securities are not regulated as a primary or secondary listing on the Main Board or the Growth Enterprise market of The Stock Exchange of Hong Kong Limited.

Risks of Over-the-counter (OTC)/Grey Market Trading

The Client should only undertake trading on Futu OTC if the Client understands the nature of such trading and such trading facilities and the extent of the Client's exposure to the risks.. If in doubt, you should seek independent professional advice.

By trading on Futu OTC, the Client is exposed to the credit, settlement, and other risks of the counterparty to the relevant OTC transactions, including (but not limited to Transactions of Securities before their listing on the Exchange). Settlement of the relevant Transactions is not guaranteed and the Client will be responsible for any losses or expenses resulting from the Client's and/or the counterparty's settlement failures. Trades executed on Futu OTC may be cancelled and void if that particular Securities subsequently fails to list on the Exchange.

The Client's order may only be partially executed, or not at all, as a result of the lower liquidity in trading on Futu OTC as compared to regular market hours of the Exchange. There may also be greater volatility in trading on Futu OTC than in regular market hours of the Exchange. The lower liquidity and higher volatility in trading on Futu OTC may then result in wider than normal spreads for a particular type of Securities.

The prices of Securities traded on Futu OTC may differ significantly from their opening or traded prices transacted during the regular market hours upon the listing of the Securities on the Exchange.

The prices displayed on Futu OTC may not reflect the prices in other concurrently operating automated trading systems dealing in the same Securities.

News announcements made by the issuers may affect the price of their Securities after regular market hours. Similarly, important financial information is often announced outside regular market hours. In trading on Futu OTC, these announcements may occur during trading and may cause an exaggerated and unsustainable effect on the price of a particular type of Securities.

The OTC market will not be covered by the Investor Compensation Fund until the relevant transaction is properly recorded on the trading system of the SEHK upon the listing of the Securities on the SEHK.

Risks of Buy-and-Sell Derivatives and Structured Products

Derivative transactions ("Derivative Transactions") can involve a range of products (including some more generally known as structured notes and also including products known as structured deposits). Such products can either be apparently simple (such as forwards or options) or highly (and perhaps individually) structured. These products

can have substantial benefits for users but they carry with them substantial risks which must be clearly understood by their users. Considering the possible risks, you should ensure that you have all necessary information you require to assess a Derivative Transaction before deciding on its appropriateness for you. You should consider what you intend to achieve from the Derivative Transaction, including your financial and operational resources, and any tax and accounting considerations. You should be aware of any general framework for Derivative Transactions established by any governing body. There may also be significant regulatory or other legal considerations to be taken into account.

For the sake of simplicity, Derivative Transactions can be divided into four basic forms, although the forms can be overlapping and one deal can be a combination of those four forms. The basic forms are swaps, options, forwards and hybrid instruments (which are asset, liability, equity or debt obligations with an embedded transaction from one of the other three categories). Derivative Transactions can be settled in cash, by delivery of property against other property or cash, or by normal hold to maturity with no cash settlements. No matter what form is involved, a common feature of all derivatives is that the obligations of one or both of the parties are based on price movements in an underlying financial asset from which the transaction is derived. This financial asset may be, for example, securities (including shares and bonds), interest rates, indices, currencies or the creditworthiness of a reference entity.

You should not enter into a Derivative Transaction unless you fully understand:

- The nature and fundamentals of a derivative and the financial asset underlying such derivative;
- The legal terms and conditions of the documentation for such derivative;
- The extent of the economic risk to which you are exposed as a result of entering into such Derivative Transaction (and you have determined that such risk is suitable for you in light of your specific experience in relation to such Derivative Transaction and/or the relevant derivative and your financial objectives, circumstances and resources);
- The tax treatment of such derivative (which can be complex and/or uncertain); and
- The regulatory treatment of such derivative.

General Risks in Relation to Over-the-Counter (OTC) Derivative Transactions

OTC derivative transactions, like other financial transactions, involve a variety of significant risks. The specific risks presented by a particular OTC derivative transaction necessarily depend upon the terms of the transaction and your circumstances. In general, however, all OTC derivative transactions involve some combination of market risk, credit risk, funding risk and operational risk.

1. Market risk is the risk that the value of a transaction will be adversely affected by

fluctuations in the level or volatility of or correlation or relationship between one or more market prices, rates or indices or other market factors or by illiquidity in the market for the relevant transaction or in a related market.

2. Credit risk is the risk that a counterparty will fail to perform its obligations to you when due.

3. Funding risk is the risk that, as a result of mismatches or delays in the timing of cash flows due from or to your counterparties in OTC derivative transactions or related hedging, trading, collateral or other transactions, you or your counterparty will not have adequate cash available to fund current obligations.

4. Operational risk is the risk of loss to you arising from inadequacies in or failures of your internal systems and controls for monitoring and quantifying the risks and contractual obligations associated with OTC derivative transactions, for recording and valuing OTC derivative and related transactions, or for detecting human error, systems failure or management failure.

There may be other significant risks that you should consider based on the terms of a specific transaction. Highly customised OTC derivative transactions in particular may increase liquidity risk and introduce other significant risk factors of a complex character. Highly leveraged transactions may experience substantial gains or losses in value as a result of relatively small changes in the value or level of an underlying or related market factor.

Because the price and other terms on which you may enter into or terminate an OTC derivative transaction are individually negotiated, these may not represent the best price or terms available to you from other sources.

In evaluating the risks and contractual obligations associated with a particular OTC derivative transaction, you should also consider that an OTC derivative transaction may be modified or terminated only by mutual consent of the original parties and subject to agreement on individually negotiated terms. Accordingly, it may not be possible for you to modify, terminate or offset your obligations or your exposure to the risks associated with a transaction prior to its scheduled termination date.

Similarly, while market makers and dealers generally quote prices or terms for entering into or terminating OTC derivative transactions and provide indicative or mid-market quotations with respect to outstanding OTC derivative transactions, they are generally not contractually obligated to do so. In addition, it may not be possible to obtain indicative or mid-market quotations for an OTC derivative transaction from a market maker or dealer that is not counterparty to the transaction. Consequently, it may also be difficult for you to establish an independent value for an outstanding OTC derivative transaction. You should not regard your counterparty's provision of a valuation or indicative price at your request as an offer to enter into or terminate the relevant transaction at that value or price, unless the value or price is identified by the counterparty as firm or binding.

The above does not purport to disclose all of the risks and other material considerations associated with OTC derivative transactions. You should not construe this generic disclosure statement as business, legal, tax or accounting advice or as modifying applicable law. You should consult your own business, legal, tax and accounting advisers with respect to proposed OTC derivative transactions and you should refrain from entering into any OTC derivative transaction unless you have fully understood the terms and risks of the transaction, including the extent of your potential risk of loss.

Risks of Trading Exchange-Traded Structured Products ("Structured Products") (e.g. derivative warrants ("Warrants") or callable bull/bear contracts ("CBBCs"))

1. Risk of Issuer Default

In the event that a Structured Product issuer becomes insolvent and defaults on their listed securities, investors will be considered as unsecured creditors and will have no preferential claims to any assets held by the issuer. Investors should therefore pay close attention to the financial strength and credit worthiness of structured product issuers. Note: "Issuers Credit Rating" showing the credit ratings of individual issuers is now available under the Issuer and Liquidity Provider Information sub-section under Derivative Warrants and under CBBCs section on the HKEx corporate website.

2. Risk of Uncollateralized Product

Uncollateralized Structured Products are not asset backed. In the event of issuer bankruptcy, investors can lose their entire investment. Investors should read the listing documents to determine if a product is uncollateralized.

3. Gearing Risk

Structured Products such as Warrants and CBBCs are leveraged and can change in value rapidly according to the gearing ratio relative to the underlying assets. Investors should be aware that the value of a Structured Product may fall to zero resulting in a total loss of the initial investment.

4. Expiry Considerations

Structured Products have an expiry date after which the issue may become worthless. Investors should be aware of the expiry time horizon and choose a product with an appropriate lifespan for their trading strategy.

5. Extraordinary Price Movements

The price of a Structured Product may not match its theoretical price due to outside influences such as market supply and demand factors. As a result, actual traded prices can be higher or lower than the theoretical price.

6. Risks of Foreign Exchange

Investors trading Structured Products with underlying assets not denominated in Hong Kong dollars are also exposed to exchange rate risk. Currency rate fluctuations can adversely affect the underlying asset value, also affecting the Structured Product price.

7. Risks of Liquidity

SEHK requires all Structured Product issuers to appoint a liquidity provider for each individual issue. The role of liquidity providers is to provide two way quotes to facilitate trading of their products. In the event that a liquidity provider defaults or ceases to fulfil its role, investors may not be able to buy or sell the product until a new liquidity provider has been assigned. There is no guarantee that investors will be able to buy or sell their Structured products at their target price any time they wish.

Some Additional Risks of Warrants Trading

1. Risks of Time Decay

All things being equal, the value of a Warrant will decay over time as it approaches its expiry date. Warrants should therefore not be viewed as long term investments.

2. Volatility Risks

Prices of Warrants can increase or decrease in line with the implied volatility of underlying asset price. Investors should be aware of the underlying asset volatility.

3. Market Risks and Transaction Turnover

Other than basic factors that determine the theoretical price of a Warrant, Warrant price are also affected by all prevailing market forces including the demand for and supply of the Warrants. The market forces will be greatest when a Warrant issue is almost sold out and when issuers make further issues of an existing Warrant issue. High turnover should not be regarded as an indication the price of a Warrant will go up. The price of a Warrant is affected by a number of factors in addition to market forces, such as the price of the underlying assets and its volatility, the time remaining to expiry, interest rates and the expected dividend on the underlying assets.

Some Additional Risks of the Trading of CBBCs

1. Risks of Compulsory Withdrawal

Investors trading CBBCs should be aware of their intraday “knock-out” or mandatory call feature. A CBBC will cease trading when the underlying asset value equals the mandatory call price/level as stated in the listing documents. Investors will only be entitled to the residual value of the terminated CBBC as calculated by the product

issuer in accordance with the listing documents. Investors should also note that the residual value can be zero.

2. Financing Cost

The issue price of a CBBC includes funding costs. Funding costs are gradually reduced over time as the CBBC moves towards expiry. The longer the duration of the CBBC, the higher the total funding costs. In the event that a CBBC is called, investors will lose the funding costs for the entire lifespan of the CBBC. The formula for calculating the funding costs are stated in the listing documents.

3. Trading Occurring Close to the Withdrawal Prices

When the underlying asset is trading close to the call price, the price of a CBBC may be more volatile with wider spreads and uncertain liquidity. CBBC may be called at any time and trading will terminate as a result. However, the trade inputted by the investor may still be executed and confirmed by the Exchange participants after the Mandatory Call Event ("MCE") since there may be some time lapse between the MCE time and suspension of the CBBC trading. Any trades executed after the MCE will not be recognized and cancelled. Therefore, investors should be aware of the risk and ought to apply special caution when the CBBC is trading close to the call price.

Risks of Synthetic Exchange Traded Funds (ETFs) Trading

Different to the traditional exchange traded funds, synthetic ETFs do not buy the assets in their benchmark. Instead, they typically invest in financial derivative instruments to replicate the benchmark's performance. The investment in synthetic ETFs is highly risky and not suitable to all. Investors must understand clearly and consider the following risks prior to the purchase of synthetic ETFs.

Market Risks

ETFs are typically designed to track the performance of certain indices, market sectors, or group of assets such as stocks, bonds, or commodities. Investors are exposed to the political, economic, currency and other risks related to the ETF's underlying index/assets it is tracking. Investment must be prepared to bear the risk of loss and

volatility associated with the underlying index/asset.

Risks of Counterparties

Where a synthetic ETF invests in derivatives to replicate the index performance, investors are exposed to the credit risk of the counterparties who issued the derivatives, in addition to the risks relating to the index. Further, potential contagion and concentration risks of the derivatives issuers should be taken into account (e.g. since derivative issuers are predominantly international financial institutions, the failure of one derivative counterparty of synthetic ETF may have a “knock-on” effect on other derivative counterparties of the synthetic ETFs). Some Synthetic ETFs have collateral to reduce the counterparty risk, but there may be a risk that the market value of the collateral has fallen substantially when the synthetic ETF seeks to realize the collateral.

Liquidity Risk

There is no assurance that a liquid market exists for an ETF. A higher liquidity risk is involved if a synthetic ETF involves derivatives which do not have an active secondary market. Wider bid-offer spreads in the price of derivatives may result in losses. Therefore, they can be more difficult costly to unwind early, when the instruments provide access to a restricted market where liquidity is limited.

Tracking Error Risk

There may be disparity between the performance of the ETFs and the performance of the underlying index due to, for instance, failure of the tracking strategy, currency differences, fees and expenses.

Trading at Discounts or Premiums

Where the index/market that the ETF tracks is subject to restricted access, the efficiency in unit creation or redemption to keep the price of the ETFs in line with its net asset value (NAV) may be disrupted, causing the ETF to trade at a higher premium or discount to its NAV. Investors who buy an ETF at a premium may not be able to recover the premium in the event of termination.

Risks of Foreign Exchange

Investors trading ETFs with underlying assets not denominated in Hong Kong dollars are also exposed to exchange rate risk. Currency rate fluctuations can adversely affect the underlying asset value, also affecting the ETFs price.

Risks of Trading Futures-based Exchange Traded Funds (ETFs)

Risk of rolling futures contracts

Futures contracts are binding agreements that are made through futures exchanges to buy or sell the underlying assets at a specified time in the future. “Rollover” occurs when an existing futures contract is about to expire and is replaced with another futures contract representing the same underlying but with a later expiration date. When rolling futures contracts forward (ie selling near-term futures contracts and then buying longer-term futures contracts) in a situation where the prices of the longer-term futures contract are higher than that of the expiring current-month futures contract, a loss from rolling (ie a negative roll yield) may occur. Under such circumstances, the proceeds from selling the near-term futures contracts will not be sufficient to purchase the same number of futures contracts with a later expiration date which has a higher price. This may adversely affect the NAV of the futures-based ETF.

Risk of statutory restrictions on number of futures contracts being held

There is a statutory position limit restricting the holding of futures contracts traded on the recognised exchange company to no more than a specific number of such futures contracts. If the holding of such futures contracts of a futures-based ETF grows to the limit, this may prevent the creation of units of the ETF due to the inability to acquire further futures contracts. This may lead to differences between the trading price and the NAV of the ETF units listed on the exchange.

Risks of Trading Exchange Traded Notes (ETNs)

ETN is a type of unsecured, unsubordinated debt security issued by an underwriting bank, designed to provide investors access to the returns of various market benchmarks. The returns of ETNs are usually linked to the performance of a market benchmark or strategy, minus applicable fees. Similar to other debt securities, ETNs have a maturity date and are backed only by the credit of the issuer.

You can buy and sell the ETNs on the exchange or receive a cash payment at the scheduled maturity or may early redeem the ETNs directly with the issuer based on the performance of the underlying index less applicable fees, with redemption restrictions, such as the minimum number of ETNs for early redemption, may apply.

There is no guarantee that investors will receive at maturity, or upon an earlier repurchase, investors’ initial investment back or any return on that investment. Significant adverse monthly performances for investors’ ETNs may not be offset by any beneficial monthly performances. The issuer of ETNs may have the right to redeem the ETNs at the repurchase value at any time. If at any time the repurchase value of the ETNs is zero, investors’ investment will expire worthless. ETNs may not be liquid and there is no guarantee that you will be able to liquidate your position whenever you wish.

Although both ETFs and ETNs are linked to the return of a benchmark index, ETNs as debt securities do not actually own any assets they are tracking, but just a promise from the issuer to pay investors the theoretical allocation of the return reflected in the

benchmark index. It provides limited portfolio diversification with concentrated exposure to a specific index and the index components. In the event that the ETN issuer defaults, the potential maximum loss could be 100% of the investment amount and no return may be received, given ETN is considered as an unsecured debt instrument.

The value of the ETN may drop despite no change in the underlying index, instead due to a downgrade in the issuer's credit rating. Therefore, by buying ETNs, investors get direct exposure to the credit risk of the issuer and would only have an unsecured bankruptcy claim if the issuer declares bankruptcy. The principal amount is subject to the periodic application of investor fees or any applicable fees that can adversely affect returns. Where you trade ETNs with underlying assets not denominated in local currencies investors are also exposed to exchange rate risk. Currency rate fluctuations can adversely affect the underlying asset value, also affecting the ETN price.

Investors may have leveraged exposure to the underlying index, depending on the product feature. The value of ETNs can change rapidly according to the gearing ratio relative to the underlying assets. You should be aware that the value of an ETN may fall to zero resulting in a total loss of the initial investment.

Risks of Trading Leveraged and Inverse Products

Investment risk

Trading L&I Products involves investment risk and are not intended for all investors. There is no guarantee of repaying the principal amount.

Volatility risk

Prices of L&I Products may be more volatile than conventional exchange traded funds (ETFs) because of using leverage and the rebalancing activities.

Unlike conventional ETFs

L&I Products are different from conventional ETFs. They do not share the same characteristics and risks as conventional ETFs.

Long-term holding risk

L&I Products are not intended for holding longer than the rebalancing interval, typically one day. Daily rebalancing and the compounding effect will make the L&I Product's performance over a period longer than one day deviate in amount and possibly direction from the leveraged/inverse performance of the underlying index over the same period. The deviation becomes more pronounced in a volatile market.

As a result of daily rebalancing, the underlying index's volatility and the effects of compounding of each day's return over time, it is possible that the leveraged product

will lose money over time while the underlying index increases or is flat. Likewise, it is possible that the inverse product will lose money over time while the underlying index decreases or is flat.

Risk of rebalancing activities

There is no assurance that L&I Products can rebalance their portfolios on a daily basis to achieve their investment objectives. Market disruption, regulatory restrictions or extreme market volatility may adversely affect the rebalancing activities.

Liquidity risk

Rebalancing typically takes place near the end of a trading day (shortly before the close of the underlying market) to minimize tracking difference. The short interval of rebalancing may expose L&I Products more to market volatility and higher liquidity risk.

Intraday investment risk

Leverage factor of L&I Products may change during a trading day when the market moves but it will not be rebalanced until day end. The L&I Product's return during a trading day may be greater or less than the leveraged/opposite return of the underlying index.

Portfolio turnover risk

Daily rebalancing causes a higher levels of portfolio transaction when compared to conventional ETFs, and thus increases brokerage and other transaction costs.

Correlation risk

Fees, expenses, transactions cost as well as costs of using financial derivatives may reduce the correlation between the performance of the L&I Product and the leveraged/inverse performance of the underlying index on a daily basis.

Termination risk

L&I Products must be terminated when all the market makers resign. Termination of the L&I Product should take place at about the same time when the resignation of the last market maker becomes effective.

Leverage risk (for leveraged products only)

The use of leverage will magnify both gains and losses of leveraged products resulting from changes in the underlying index or, where the underlying index is denominated in a currency other than the leveraged product's base currency, from fluctuations in exchange rates.

Unconventional return pattern (for inverse products only)

Inverse products aim to deliver the opposite of the daily return of the underlying index. If the value of the underlying index increases for extended periods, or where the exchange rate of the underlying index denominated in a currency other than the inverse product's base currency rises for an extended period, inverse products can lose most or all of their value.

Inverse products vs short selling (for inverse products only)

Investing in inverse products is different from taking a short position. Because of rebalancing, the performance of inverse products may deviate from a short position in particular in a volatile market with frequent directional swings.

Risks of Trading Single-Stock ETFs

Single-stock ETFs are complex investment products that pay positive or negative multiples of the market performance of the underlying security. These features are known as leveraged and inverse exposures. A single-stock ETF differs from a more traditional ETF that combines multiple securities into a single fund to give an investor exposure to a market segment or asset class. Single-stock ETFs carry heightened risks because leveraged and inverse exposures can generate amplified or unexpected losses.

Instead of reflecting a basket of stocks, single-stock ETFs only track the performance of a single underlying security and typically are not designed to be held for more than one day. The value of a single-stock ETF resets daily, adding another layer of risk to an already risky and complex product. A single-stock ETF's value can diverge significantly from the underlying stock, especially if it is leveraged or inversely leveraged.

In addition to the Risks of Trading Leveraged and Inverse Products set out above, single-stock ETFs possess other risks, in particular:

(1) Lack of diversification

Single-stock ETFs track the performance of a single stock as opposed to a variety of stocks, which reduces diversification. But holding a single-stock ETF is not the same as holding the underlying stock, a traditional ETF, or a non-single stock leveraged ETF.

(2) New products

Single-stock ETFs are new to the retail investor market, and there is uncertainty as to how well they will perform over time.

(3) Increased volatility

Single-stock ETFs amplify the effect of price movements of the underlying individual stocks, and may generate amplified or unexpected losses. The volatility will be greater

than holding the underlying stock itself.

(4) Not long-term investments

Single-stock ETFs aim to provide returns over extremely short time periods (in some cases even a single day). These short holding periods mean that single-stock ETFs are geared more towards traders, rather than not long-term investors. Returns on these funds over periods longer than one day may diverge significantly from the performance of the underlying stock because of daily rebalancing and the effects of compounding.

(5) Rebalancing and compounding risks

Returns on single-stock ETFs over periods longer than one day may diverge significantly from the performance of the underlying stock because of daily rebalancing and the effects of compounding.

(6) Higher Fees

Fees on single-stock ETFs can be meaningfully higher than the fees on traditional ETFs.

(7) Capital losses

You should understand that there is a risk you may lose your entire investment in a single-stock ETF. It can be risky to invest more than you can afford to loss.

(8) Self-directed

You should carefully read the prospectus for any single-stock ETF before investing to truly understand the risks associated with the product. Gains and losses can be magnified by the compounding inherent in the investment.

(9) Tracking Error

Like any ETF, single-stock ETFs may experience tracking errors, which is a deviation between the ETF's performance and the performance of the underlying stock. This could occur due to fees, rebalancing, or other factors.

(10) Concentration Risk

Unlike traditional ETFs, single-stock ETFs can't make up poor performance of one stock with the better performance of another.

(11) Laws and Regulations

Single-stock ETFs can be subject to the applicable laws and regulations of the relevant overseas jurisdiction. These overseas laws and regulations may differ from the laws

and regulations in Hong Kong.

Risks in Margin Trading

(1) The Client acknowledges that, apart from the risks associated with securities trading in general, additional risks may arise specifically in connection with securities margin trading including: The risk of loss in financing a transaction by deposit of Charged Assets is significant. The Client may sustain losses in excess of its cash and any other assets deposited as Collateral with the Company.

(2) Market conditions may make it impossible to execute contingent orders such as “stop-loss” or “stop-limit” orders. The Client may be called upon at short notice to make additional margin deposits or interest payments. If the required margin deposits or interest payments are not made with the prescribed time, the Client's Charged Assets may be liquidated without its consent.

(3) The Client will remain liable for any resulting deficit in its account and interest charged on its account. The Client should carefully consider whether such financing arrangement is suitable in light of its own financial position and investment objectives.

Risks of the Authorized Third Parties

There are substantial risks in allowing an authorized third party to trade or operate your account, and it is possible that instructions could be given by persons not properly authorized. You accept all of the risks of such an operation and irrevocably releases the Company from all liabilities arising out of or in connection with such instructions, whether taken by the Company or otherwise.

Risk of Providing an Authority to Hold Mail or to Direct Mail to Third Parties

If you provide the Company with an authority to hold mail or to direct mail to third parties, it is important for you to promptly collect in person all contract notes and statements of your account and review them in detail to ensure that any anomalies or mistakes can be detected in a timely fashion.

Risks of Leaving Money or Other Property in the Custody of the Company or its Nominees or Agents

You acknowledge that there are risks in leaving money or other property in the custody of the Company or its nominees or agents. For example, if the Company is holding your money or other property and becomes insolvent, you may experience significant delay in recovering the same. These are risks that you are prepared to accept.

Risks of Receiving or Holding the Client's Assets Outside Hong Kong

Client assets received or held by the Company or its nominee(s) outside Hong Kong are subject to the applicable laws and regulations of the relevant overseas jurisdiction

which may be different from the Securities and Futures Ordinance (Cap.571) and the rules made thereunder. Consequently, such client assets may not enjoy the same protection as that conferred on client assets received or held in Hong Kong.

Risks of providing an authority to repledge your securities collateral etc.

There is risk if you provide the licensed or registered person with an authority that allows it to apply your securities or securities collateral pursuant to a securities borrowing and lending agreement, repledge your securities collateral for financial accommodation or deposit your securities collateral as collateral for the discharge and satisfaction of its settlement obligations and liabilities.

If your securities or securities collateral are received or held by the licensed or registered person in Hong Kong, the above arrangement is allowed only if you consent in writing. Moreover, unless you are a professional investor, your authority must specify the period for which it is current and be limited to not more than 12 months. If you are a professional investor, these restrictions do not apply.

Additionally, your authority may be deemed to be renewed (i.e. without your written consent) if the licensed or registered person issues you a reminder at least 14 days prior to the expiry of the authority, and you do not object to such deemed renewal before the expiry date of your then existing authority. You are not required by any law to sign these authorities. But an authority may be required by licensed or registered persons, for example, to facilitate margin lending to you or to allow your securities or securities collateral to be lent to or deposited as collateral with third parties. The licensed or registered person should explain to you the purposes for which one of these authorities is to be used.

If you sign one of these authorities and your securities or securities collateral are lent to or deposited with third parties, those third parties will have a lien or charge on your securities or securities collateral. Although the licensed or registered person is responsible to you for securities or securities collateral lent or deposited under your authority, a default by it could result in the loss of your securities or securities collateral.

A cash account not involving securities borrowing and lending is available from most licensed or registered persons. If you do not require margin facilities or do not wish your securities or securities collateral to be lent or pledged, do not sign the above authorities and ask to open this type of cash account.

Risks related to Algorithmic Trading

The Company may make available to the Client a suite of various order types on its trading platform that may use computerized algorithms. These order types allow the Client to input various conditions as part of its Instruction for a Transaction to the Company. The Company's computerized routing systems will attempt to place such effect such Instructions into the market in accordance with the conditions set. Algorithmic order types range from standard limit orders to more complex strategies.

The trading platform may require additional systems on the Client's part in order to function properly.

There are special characteristics and risks associated with algorithmic trading. You should understand these risks and determine whether algorithmic trading is appropriate in light of your objectives and experience.

(1) **Technical Errors:** Algorithmic trading can be effected when your systems, the Company's systems or the Exchanges' systems are experiencing technical difficulties. Risks include possible delays or failures in (i) availability of your connection to the Company's services and of the Company's services to the relevant Exchange; (ii) the operation of databases and internal transfers of data; (iii) the provision of data feeds (accuracy of data and stability of data connections); (iv) possible hardware failures; (v) usage loads, bandwidth limitations, and other bottlenecks inherent in computerized and networked architectures; (vi) issues, disputes, or failures of third party vendors and other dependencies; and (vii) other general risks inherent in computer-based operations. Any of these could lead to delays or failures in order execution, incorrect order execution and other problems.

(2) **Software and Design Flaws:** All software is subject to inadvertent programming errors and bugs embedded in the code comprising that software. Algorithmic order types may contain logical errors in the code to implement them. Errors may exist in the data used for testing the algorithm or the applicable model of the market. Despite testing and monitoring, inadvertent errors and bugs may still cause algorithmic order types to fail or behave incorrectly.

(3) **Market Impact and Events:** Market conditions will impact the execution of algorithmic orders. Possible adverse market conditions include lack of liquidity, price swings, late market openings, early market closings, market chaos, and mid-day trading pauses, and other such disruptive events. The execution of an algorithm can itself have an impact on the market, including causing lack of liquidity or abrupt and unwarranted price swings.

(4) **Losses:** Losses can happen more quickly with electronic and algorithmic trading compared to other forms of trading. Any or all of the other risk factors could cause more significant trading losses when using algorithmic trading compared to other forms of trading.

Risks Relating to Securities Borrowing and Lending

(1) Securities Borrowing and Short Selling

The risk of loss in stock borrowing and short selling is substantial, also may be involved in lender requiring delivery of securities lent within specific time. In some circumstances, the Client may sustain losses in excess of its initial margin funds. Even if the Client has set an alternate instruction, such as "stop-loss" or "stop-limit" orders, it may still not be able to avoid loss since market conditions may make such directions

cannot be performed. The Client may be called upon at short notice to deposit additional margin funds. If the required funds are not provided within the prescribed time, part of or all securities the Client short sold may have to be bought back without its prior consent. The Client should closely monitor its positions, as in extreme conditions the Company may not be able to contact you or provide you with sufficient time to make the required deposits, and forced bought back may be necessary. The Client will remain liable for any resulting deficit in its account. The Client should therefore carefully consider whether stock borrowing and short selling is suitable for it in the light of its own financial position and investment objectives before it trades.

(2) Risk of failure to return the securities lent

The borrower may default on its obligation and fails to return the securities lent in a timely manner or at all.

(3) Risk of delay in the return of securities lent

Any delay in the return of securities lent may restrict the ability of the lender to meet delivery or payment obligations arising from its counterparty's redemption request and may trigger claims.

(4) Market risk

If the borrower defaults, there is a risk that the collateral held by the lender may be realised at a value lower than the value of the securities lent. This may be due to adverse market movements in the value of the collateral, intra-day increase in the value of the securities lent, a deterioration in the credit rating of the collateral issuer, default or insolvency of the collateral issuer or the illiquidity of the market in which the collateral is traded.

(5) Operational risk

Securities lending activities entail operational risks such as settlement failure or delays in the settlement of instructions.

(6) Risk of not achieving its objective

There can be no assurance that the objective sought to be obtained from use of stock lending (such as to increase return for the lender and/or to reduce its tracking error) will be achieved.

Risks Relating to Repos

The term repo refers to a sale and repurchase transaction in securities. In a repo, the repo seller transfers title in the securities to the repo purchaser. The repo is in effect for a specific period, and at the end of the period the repo purchaser transfers title to equivalent securities (of the same issuer and type) to the repo seller.

The repo purchaser's obligation to transfer equivalent securities is usually secured against collateral. There is, accordingly, credit risk. Selling securities under a repo may also affect your tax position (although you should seek independent advice on the issue).

As a result of selling securities under a repo the seller will cease to be the owner of them, although the seller will have the right to reacquire at a future date equivalent securities (or in certain circumstances their cash value or the proceeds of redemption). However, except to the extent that the seller have received collateral, the seller's right to the repurchase of securities is subject to the risk of insolvency or other non-performance by the repo purchaser. Since the seller not the owner of the securities during the period of the repo, the seller will not have voting rights nor will the seller directly receive dividends or other corporate actions although the seller will normally be entitled to a payment from the repo purchaser equivalent to the dividend the seller would otherwise have received and the repo purchaser will be required to account for the seller for the benefit of corporate actions.

Repos also entail counterparty default risk and operational risks such as the non-settlement or delay in settlement of instructions.

Risk relating to Trading in US Exchange-listed or Over-the-counter ("OTC") Securities or Derivatives

You should understand the US rules applicable to trades in security or security-like instrument in markets governed by US law before undertaking any such trading. US law could apply to trading in US markets irrespective of the law applicable in your home jurisdiction.

Many (but by no means all) stocks, bonds and options are listed and traded on US stock exchanges. NASDAQ, which used to be an OTC market among dealers, has now also become a US exchange. For exchange-listed stocks, bonds and options, each exchange promulgates rules that supplement the rules of the US Securities & Exchange Commission ("SEC") for the protection of individuals and institutions trading in the securities listed on the exchange.

OTC trading among dealers can continue in exchange-listed instruments and in instruments that are not exchange-listed at all. For securities that are not listed on any exchange, trading can continue through the OTC bulletin board or through the inter-dealer "pink sheets" that carry representative (not actual) dealer quotes. These facilities are outside of NASDAQ.

Options on securities are subject to SEC rules and the rules of any securities exchange on which the options are listed. Options on futures contracts on commodities like wheat or gold are governed by rules of the US Commodity Futures Trading Commission ("CFTC"). There are also commercial options, like options on real estate, that are governed neither by SEC nor CFTC rules.

Whether you are intending to trade in US exchange-listed securities, OTC securities or derivatives (such as Options or Futures), you should understand the particular rules that govern the market in which you are intending trade. An investment in any of these instruments tends to increase the risk and the nature of markets in derivatives tends to increase the risk even further.

Market makers of OTC bulletin board are unable to use electronic means to interact with other dealers to execute trades. They must manually interact with the market, i.e. use standard phone lines to communicate with other dealers to execute trades. This may cause delays in the time it takes to interact with the market place. This, if coupled with increase in trade volume, may lead to wide price fluctuation in OTC bulletin board securities as well as lengthy delays in execution time. You should exercise extreme caution when placing market orders and fully understand the risks associated with trading in OTC bulletin board.

Market data such as quotes, volume and market size may or may not be as up-to-date as expected with NASDAQ or listed securities.

As there may be far fewer market makers participating in OTC securities markets, the liquidity in that security may be significantly less than those in listed markets. As such, you may receive a partial execution or the order may not be executed at all. Additionally, the price received on a market order may be significantly different from the price quoted at the time of order entry. When fewer shares of a given security are being traded, larger spreads between bid and ask prices and volatile swings in price may result. In some cases, the liquidation of a position in an OTC security may not be possible within a reasonable period of time.

Issuers of OTC securities have no duty to provide any information to investors, maintain registration with the SEC or provide regular reports to investors.

Risks specific to Initial Public Offerings

If the Offer Securities (as defined in Appendix II (Applications for New Listings)) are denominated in a currency other than Hong Kong Dollars (a "Foreign Currency") or in both Hong Kong Dollar and a Foreign Currency, investors are exposed to exchange rate risk and may suffer loss as a result of the fluctuations in exchange rate.

The risk of loss in financing a transaction by deposit of collateral is significant. There is a risk that the company's share price will drop below its initial IPO/listing price, once the company's shares commence trading on the stock market. Clients may sustain losses in excess of their cash and any other assets deposited as collateral with a licensed or registered person. Market conditions may make it impossible to execute contingent orders, such as "stop-loss" or "stop-limit" orders. You should maintain sufficient margin at all times. Clients may be called upon at short notice to make additional margin deposits or interest payments. If the required margin deposits or interest payments are not made within the prescribed time, clients' collateral may be

liquidated without their consents. Moreover, clients will remain liable for any resulting deficits in their accounts and interests charged on their accounts. Clients should therefore carefully consider whether such a financing arrangement is suitable in light of their own financial positions and investment objectives.

Risks of Trading Futures and Options

The risk of loss in trading futures contracts or options is substantial. In some circumstances, you may sustain losses in excess of your initial margin funds. Placing contingent orders, such as "stop-loss" or "stop-limit" orders, will not necessarily avoid loss. Market conditions may make it impossible to execute such orders. You may be called upon at short notice to deposit additional margin funds. If the required funds are not provided within the prescribed time, your position may be liquidated. You will remain liable for any resulting deficit in your account. You should therefore study and understand futures contracts and options before you trade and carefully consider whether such trading is suitable in the light of your own financial position and investment objectives. If you trade options you should inform yourself of exercise and expiration procedures and your rights and obligations upon exercise or expiry.

This brief statement does not disclose all of the risks and other significant aspects of trading in futures and options. In light of the risks, you should undertake such transactions only if you understand the nature of the contracts (and contractual relationships) into which you are entering and the extent of your exposure to risk. Trading in futures and options is not suitable for many members of the public. You should carefully consider whether trading is appropriate for you in light of your experience, objectives, financial resources and other relevant circumstances.

Futures

1. Effect of "Leverage" or "Gearing"

Transactions in futures carry a high degree of risk. The amount of initial margin is small relative to the value of the futures contract so that transactions are "leveraged" or "geared". A relatively small market movement will have a proportionately larger impact on the funds you have deposited or will have to deposit: this may work against you as well as for you. You may sustain a total loss of initial margin funds and any additional funds deposited with the Company to maintain your position. If the market moves against your position or margin levels are increased, you may be called upon to pay substantial additional funds on short notice to maintain your position. If you fail to comply with a request for additional funds within the time prescribed, your position may be liquidated at a loss and you will be liable for any resulting deficit.

2. Risk-reducing orders or strategies

The placing of certain orders (e.g. "stop-loss" orders, or "stop-limit" orders) which are intended to limit losses to certain amounts may not be effective because market conditions may make it impossible to execute such orders. Strategies using

combinations of positions, such as "spread" and "straddle" positions may be as risky as taking simple "long" or "short" positions.

Options

3. Variable degree of risk

Transactions in options carry a high degree of risk. Purchasers and sellers of options should familiarize themselves with the type of option (i.e. put or call) which they contemplate trading and the associated risks. You should calculate the extent to which the value of the options must increase for your position to become profitable, taking into account the premium and all transaction costs.

Warnings to Options Holders

- Some options may only be exercised on an expiry day (European-Style Exercise) and other options may be exercised at any time before expiration (American-Style Exercise). You shall understand that, upon exercise, some options require delivery and receipt of the underlying securities, and that other options require a cash payment.
- An option is a wasting asset and there is a possibility that as an option holder client may suffer the loss of the total premium paid for the option. You shall confirm that, as an options holder, in order to realise a profit it will be necessary to either exercise the option or close the long option position in the market. Under some circumstances, it may be difficult to trade the option due to lack of liquidity in the market. You shall confirm that, the Company has no obligation either to exercise a valuable option in the absence of your instruction, or to give to you prior notice of the expiration date of the option.

Warnings to Options Writer

- As the seller/sellers of options, you may be required to pay additional margins at any time. You shall confirm that, as an option writer, unlike an option holder, you may be liable for unlimited losses based on the rise or fall of the price of the underlying securities and the gain are limited to the option premium.
- In addition, writers of American-Style Call (Put) Options may be required at any time before expiry to deliver (or pay for) the underlying securities to the full value of the strike price multiplied by the number of underlying securities. You shall recognize that this obligation may be wholly disproportionate to the value of premium received at the time the options were written and may be required at short notice.

The purchaser of options may offset or exercise the options or allow the options to expire. The exercise of an option results either in a cash settlement or in the purchaser acquiring or delivering the underlying interest. If the option is on a futures contract, the purchaser will acquire a futures position with associated liabilities for margin (see the section on Futures above). If the purchased options expire worthless, you will

suffer a total loss of your investment which will consist of the option premium plus transaction costs. If you are contemplating purchasing deep-out-of-the-money options, you should be aware that the chance of such options becoming profitable ordinarily is remote.

Selling ("writing" or "granting") an option generally entails considerably greater risk than purchasing options. Although the premium received by the seller is fixed, the seller may sustain a loss well in excess of that amount. The seller will be liable for additional margin to maintain the position if the market moves unfavourably. The seller will also be exposed to the risk of the purchaser exercising the option and the seller will be obligated to either settle the option in cash or to acquire or deliver the underlying interest. If the option is on a futures contract, the seller will acquire a position in a futures contract with associated liabilities for margin (see the section on Futures above). If the option is "covered" by the seller holding a corresponding position in the underlying interest or a futures contract or another option, the risk may be reduced.

Certain exchanges in some jurisdictions permit deferred payment of the option premium, exposing the purchaser to liability for margin payments not exceeding the amount of the premium. The purchaser is still subject to the risk of losing the premium and transaction costs. When the option is exercised or expires, the purchaser is responsible for any unpaid premium outstanding at that time.

4. Terms and conditions of contracts

You should ask the Company about the terms and conditions of the specific futures or options which you are trading and associated obligations (e.g. the circumstances under which you may become obliged to make or take delivery of the underlying interest of a futures contract and, in respect of options, expiration dates and restrictions on the time for exercise). Under certain circumstances the specifications of outstanding contracts (including the exercise price of an option) may be modified by the exchange or clearing house to reflect changes in the underlying interest.

5. Suspension or restriction of trading and pricing relationships

Market conditions (e.g. illiquidity) and/or the operation of the rules of certain markets (e.g. the suspension of trading in any contract or contract month because of price limits or "circuit breakers") may increase the risk of loss by making it difficult or impossible to effect transactions or liquidate/offset positions. If you have sold options, this may increase the risk of loss.

Further, normal pricing relationships between the underlying interest and the futures, and the underlying interest and the option may not exist. This can occur when, for example, the futures contract underlying the option is subject to price limits 60 while the option is not. The absence of an underlying reference price may make it difficult to judge "fair value".

6. Deposited Cash and Property

You should familiarise yourself with the protections given to money or other property you deposit for domestic and foreign transactions, particularly in the event of a firm insolvency or bankruptcy. The extent to which you may recover your money or property may be governed by specific legislation or local rules. In some jurisdictions, property which had been specifically identifiable as your own will be pro-rated in the same manner as cash for purposes of distribution in the event of a shortfall.

7. Commissions and other Charges

Before you begin to trade, you should obtain a clear explanation of all commission, fees and other charges for which you will be liable. These charges will affect your net profit (if any) or increase your loss. By commencing any trading activities with the Company, you acknowledge that you have been so informed by the Company.

8. Transactions in other jurisdictions

Transactions on markets in other jurisdictions, including markets formally linked to a domestic market, may expose you to additional risk. Such markets may be subject to regulation which may offer different or diminished investor protection. Before you trade you should enquire about any rules relevant to your particular transactions. Your local regulatory authority will be unable to compel the enforcement of the rules of regulatory authorities or markets in other jurisdictions where your transactions have been effected. You should ask the Company for details about the types of redress available in both your home jurisdiction and other relevant jurisdictions before you start to trade.

9. Currency risks

The profit or loss in transactions in foreign currency denominated contracts (whether they are traded in your own or another jurisdiction) will be affected by fluctuations in currency rates where there is a need to convert from the currency denomination of the contract to another currency.

10. Trading Facilities

Electronic trading facilities are supported by computer-based component systems for the order-routing, execution, matching, registration or clearing of trades. As with all facilities and systems, they are vulnerable to temporary disruption or failure. Your ability to recover certain losses may be subject to limits on liability imposed by the system provider, the market, the clearing house and/or participant firms. Such limits may vary: you should ask the Company for details in this respect.

11. Electronic Trading

Trading on an electronic trading system may differ from trading on other electronic

trading systems. If you undertake transactions on an electronic trading system, you will be exposed to risks associated with the system including the failure of hardware and software. The result of any system failure may be that your order is either not executed according to your instructions or is not executed at all.

12. Off-exchange transactions

In some jurisdictions, and only then in restricted circumstances, firms are permitted to effect off-exchange transactions. The Company may be acting as your counterparty to the transaction. It may be difficult or impossible to liquidate an existing position, to assess the value, to determine a fair price or to assess the exposure to risk. For these reasons, these transactions may involve increased risks. Off-exchange transactions may be less regulated or subject to a separate regulatory regime. Before you undertake such transactions, you should familiarize yourself with applicable rules and attendant risks.

13. Risk of trading in leveraged foreign exchange contracts

The risk of loss in leveraged foreign exchange trading can be substantial. You may sustain losses in excess of your initial margin funds. Placing contingent orders, such as "stop-loss" or "stop-limit" orders, will not necessarily limit losses to the intended amounts. Market conditions may make it impossible to execute such orders. You may be called upon at short notice to deposit additional margin funds. If the required funds are not provided within the prescribed time, your position may be liquidated. You will remain liable for any resulting deficit in your account. You should therefore carefully consider whether such trading is suitable in light of your own financial position and investment objectives.

Risks in Relation to Pre-Listing Trading

The definitions in Appendix V (Pre-Listing Trading) apply to this section.

(1) The Client should only undertake trading on Futu OTC if the Client understands the nature of such trading and such trading facilities and the extent of the Client's exposure to the risks.

(2) By trading on Futu OTC, the Client is exposed to the credit, settlement, and other risks of the counterparty to the relevant OTC transactions, including (but not limited to Transactions of Securities before their listing on the Exchange). Settlement of the relevant Transactions is not guaranteed and the Client will be responsible for any losses or expenses resulting from the Client's and/or the counterparty's settlement failures.

(3) Trades executed on Futu OTC may be cancelled and void if that particular Securities subsequently fails to list on the Exchange.

(4) The Client's order may only be partially executed, or not at all, as a result of the lower liquidity in trading on Futu OTC as compared to regular market hours of the Exchange. There may also be greater volatility in trading on Futu OTC than in regular market hours of the Exchange. The lower liquidity and higher volatility in trading on Futu OTC may then result in wider than normal spreads for a particular type of Securities.

(5) The prices of Securities traded on Futu OTC may differ significantly from their opening or traded prices transacted during the regular market hours upon the listing of the Securities on the Exchange.

(6) The prices displayed on Futu OTC may not reflect the prices in other concurrently operating automated trading systems dealing in the same Securities.

(7) News announcements made by the issuers may affect the price of their Securities after regular market hours. Similarly, important financial information is often announced outside regular market hours. In trading on Futu OTC, these announcements may occur during trading and may cause an exaggerated and unsustainable effect on the price of a particular type of Securities.

(8) The OTC market will not be covered by the Investor Compensation Fund until the relevant transaction is properly recorded on the trading system of the SEHK upon the listing of the Securities on the SEHK. Please also refer to Clauses 4.4 (Counterparty Risk) and 4.5 (Settlement Risk) of Appendix V (Pre-Listing Trading).

Risks in Relation to Funds

The Client understands that the following risk disclosure statements explain some general risks, but are not meant to be an exhaustive list of all possible risks, involved in the Client's investment or dealing in Funds. For specific risks associated with a particular Fund, the Client should refer to the relevant offering documents for details.

(1) Funds are investment products and some may involve derivatives. Funds are not equivalent to time deposits.

(2) Whilst derivative instruments may be used in a Fund for hedging purposes, the risks remains that the relevant hedging instrument may not necessarily fully correlate to the investments in a Fund and accordingly, not fully reflect changes in the value of the investment, giving rise to potential net losses.

(3) Some Funds may use financial derivatives instruments for investment purposes, which may involve embedded leverage. The use of financial derivatives instruments may expose the Client to additional risks including but not limited to volatility risk and counterparty risk. Fund manager(s) of a Fund may invest a substantial portion of the Funds' net assets in structured products, derivatives and non-investment grade debt securities. During adverse market conditions, the Client may suffer significant financial losses.

(4) A Fund that is a hedge fund uses alternative investment strategies and the inherent risks are different and are not typically encountered in traditional funds.

(5) The price of the Units of a Fund can and do fluctuate, sometimes dramatically. The value of and income from a Fund is not guaranteed and may move up or down and may even become valueless. There is an inherent risk that losses may be incurred rather than profits made as a result of buying and selling Units of a Fund. The Client may not get back the amount that the Client has initially invested. In the worst case scenario, the value of the Units of a Fund may be worth substantially less than the amount that the Client has invested (and in an extreme case could be worth nothing).

(6) Past performance of a Fund is not an indication of future performance.

(7) A Fund that invests in certain markets and companies (e.g. emerging markets, commodity markets or smaller companies) may also involve a higher degree of risk and is usually more sensitive to price movements.

(8) Deductions of charges and expenses mean that the Client may not get back the amount it invested.

(9) The Client's right to redeem Units in a Fund may be restricted by certain circumstances (depending on the feature and terms of the Fund). In other words, there is a risk that Units in a Fund may be difficult to (purchase or) sell depending on those circumstances.

(10) The Company will effect the Client's orders as soon as practicable; however, the execution of such orders may not coincide with the dealing days stipulated in the relevant offering document of a Fund. Furthermore, before a Client's order is placed by the Company with the relevant Fund manager for execution, the Company may aggregate and consolidate (either daily or from time to time) a Client's order together with orders placed by the Company's other clients. There may be a discrepancy in the price or value of a Unit between when a Client places an order with the Company and when the order is executed by the relevant Fund manager.

(11) A Fund could contain Units that do not permit dealing every day. Investment in such funds will only be realisable on their respective dealing days. The appropriate market price of these investments can only be determined on the relevant Fund's dealing days.

(12) An investment in a Fund that is not denominated in HKD or USD is exposed to exchange risk fluctuations. Exchange rates may cause the value of the investment to fluctuate.

(13) Units of a Fund held by the Company or any other person appointed by the Company as the Client's nominee outside of Hong Kong are subject to the applicable laws and regulations of the relevant overseas jurisdiction. These overseas laws and regulations may differ from the laws and regulations in Hong Kong. As a result, the Client may not enjoy the same protection for those Units in a Fund as the Client would enjoy for the same Units in a Fund that are held in Hong Kong.

(14) There can be no assurance that the investment objective and strategy of a Fund will be successfully achieved.

(15) Investment in Funds involve risks and prior to investing, the Client should read the relevant constitutive documents, offering documents and other relevant documents of a particular Fund to understand its features, terms and risks.

(16) Before investing or dealing in a Fund, the Client should carefully consider whether that Fund is suitable having regard to the Client's investment experience, investment objectives, financial resources and other relevant circumstances. The Client must also consider these risk disclosure statements together with those set out under the section titled "Risks in Securities Trading" above.

The Client understands that the following risk disclosure statements explain some general risks, but are not meant to be an exhaustive list of all possible risks, involved in the Client's investment or dealing in Funds. For specific risks associated with a particular Fund, the Client should refer to the relevant offering documents for details.

Risks in relation to Bond Trading

(1) Bonds are not an alternative to ordinary savings or time deposits.

(2) The price of bonds may fluctuate during its tenor and may even become valueless.

(3) Key Product Risks It is crucial to understand the specific risks mentioned in the relevant offering documents (if applicable) before investing. Key risks include, but are not limited to, the ones we have listed below:

(a) Credit Risk: The Client assumes the credit risk of the issuer and the guarantor (if applicable). Any changes to the credit rating of them will affect the price and value of the bonds. Bonds are subject to the risk of the issuer defaulting on its obligations, i.e. an issuer fails to make principal and interest payments when due. In the worst case scenario of a bankruptcy of the issuer/guarantor, the Client could risk losing the value of the entire investment. Credit ratings assigned by credit rating agencies do not guarantee the creditworthiness of the issuer;

(b) Liquidity Risk: The bond may have limited liquidity and may not be actively traded and/or quoted by brokers in the market. As such: (i) the value of bond and/or indicative bid/offer price will depend on market liquidity and conditions which may not be available at all times; (ii) it may take a longer time or it may be impossible to sell the bond at prevailing market conditions; and (iii) the executable sale price may differ unfavourably by large amounts from the indicative bid price quoted;

(c) Currency Risk: For bonds denominated in a foreign currency, there may be an exchange loss when converting the redemption amount back to the local or base currency;

(d) Interest Rate Risk: Bonds are more susceptible to fluctuations in interest rates and generally prices of bonds will fall when interest rates rise; and

(e) Market Risk: The value of investments may fluctuate due to changing political, legal and, economic conditions and changes in interest rates. This is common to all markets and asset classes. Investor's return may be substantially less than the initial investment.

(4) In addition to the risks listed above, high-yield bonds are subject to additional risks such as:

(a) Higher Credit Risk: Since high-yield bonds are typically rated below investment grade or are unrated, they are often subject to a higher risk of issuer default; and

(b) Vulnerability to Economic Cycles: During economic downturns high-yield bonds typically fall more in value than investment grade bonds as (i) investors become more risk averse and (ii) default risk rises.

(5) It is important to note that certain bonds may contain special features and risks that warrant special attention. These include:

(a) Perpetual Bonds: Perpetual debentures do not have a maturity date, and the

coupon payments pay-out depends on the viability of the issuer in the very long term, it may be deferred or even suspended subject to the terms and conditions of the issue. Furthermore perpetual debentures are often callable and/or subordinated, and bear re-investment risk and/or subordinated bond risk, detailed below.

(b) Re-investment Risk of Callable Bond: If the bond is callable in which the issuer may redeem the bond before maturity, it is subject to re-investment risk. The yield received when re-investing the proceeds may be less favourable.

(c) Subordinated Bonds: Holders of subordinated debentures will bear higher risks than holders of senior debentures of the issuer due to a lower priority of claim in event of the issuer's liquidation. Subordinated debentures are unsecured and have lesser priority than that of an additional debt claim of the same asset. They usually have a lower credit rating than senior bonds. The Client's specific attention is drawn to the credit information of this product, including the respective credit rating of the issuer, the debenture and/or the guarantor, as the case may be.

(d) Bonds with Variable Coupon/Coupon Deferral features: If the bonds contain variable and/or deferral of interest payment terms, then the Client would face uncertainty over the amount and time of the interest payments to be received.

(e) Bonds with Extendable Maturity Date: If the bonds contain extendable maturity date terms, then the Client would not have a definite schedule of principal repayment.

(f) Convertible or Exchangeable Bonds: Convertible or Exchangeable bonds are convertible or exchangeable in nature and the Client is subject to both equity and bond investment risk. They may additionally have a contingent write-down or loss absorption feature, meaning the bond may be written-off fully or partially or converted to common stock on the occurrence of a trigger event. These bonds generally absorb losses while the issuer remains a going concern. Before investing in bonds of this nature, the Client should pay extra attention to its features, the trigger events, the implications and consequences of such trigger events.

(g) Multiple Credit Support Providers: This refers to bonds with more than one guarantor. The Client should take into account matters such as the credibility of the guarantors, whether such guarantors have material operations and the credit support structure(s) involved. Under some credit support structures, the bondholders' rights may be subordinated to those of the issuer, the guarantors and/or other parties where an event of default were triggered. (h) Other / Multiple Credit Support Structures: This refers to bonds with keepwell deed(s) in place as a form of credit enhancement feature. Some of these bonds may also have credit support provider(s) such as guarantor(s). Keepwell deeds need to be individually assessed and could be structurally complex. They are not guarantees and are subject to much greater legal and regulatory uncertainty compared to guarantees. In particular, capital control laws in certain countries could heighten the risk that timely payments will not be made, even if a keepwell deed exists.

(6) Transactions in Other Jurisdictions:

(a) Transactions for bond trading on markets in other jurisdictions, including markets formally linked to a domestic market, may expose the Client to additional risk. Such markets may be subject to regulation which may offer different or diminished investor protection. For example, the Company conducts some or all of the transactions for bond trading through overseas intermediaries. Before the Client trades, the Client should enquire about any rules relevant to its particular transactions. The Client's local regulatory authority will be unable to compel the enforcement of the rules of regulatory authorities or markets in other jurisdictions where the Client's transactions have been effected.

(b) (The Client should only consider trading outside the Hong Kong market if it fully understands the nature of the relevant foreign market and the extent of its exposure to risks. The Client should carefully consider whether such trading is appropriate for it in light of its experience, risk profile, and other relevant circumstances, and seek independent professional advice when it is in doubt.

(c) In the event that the transaction is being executed outside Hong Kong, the Client recognizes that such transactions will be subject to the applicable local laws, rules and regulations of the overseas jurisdiction, which may be different to those in the jurisdiction of Hong Kong. Particularly, the Client should familiarize itself with the rules and regulations in relation to holding restrictions and disclosure obligations, and comply with the same.

(d) The Client also accepts where the Company arranges for the execution of orders on various exchanges and market centers, such transaction will be cleared and settled by the relevant market participant or its nominated clearing agent.

(e) (All transactions executed in pursuance of the Client's instructions on an overseas market will be subject to transaction levies and other costs that the relevant exchange may impose from time to time. The Company is authorized to collect such levies and costs in accordance with the rules prescribed by the relevant exchange.

(f) The Company will determine the amounts required to meet the Client's obligations (if any), and amounts to which the Client may be entitled (if any). The Client should closely monitor its positions, as in some unforeseeable market conditions, the Company may be unable to contact the Client and forced liquidation may be necessary.

(g) The Client accepts that transactions executed on any exchanges outside Hong Kong will not be subject to a right to claim under the Investor Compensation Fund established under the SFO, and may be marked with different levels or types or protection compared to the protection afforded by the laws of Hong Kong.

Risks in relation to the China Connect Terms and Conditions

The definitions in Appendix X (China Connect Terms and Conditions) apply to this

section.

1. Home Market Rules

In respect of China Connect Securities, Mainland China is the home market and thus the general principle is that investors in China Connect Securities should observe Mainland China securities laws and regulations. Nevertheless, certain Hong Kong legal and regulatory requirements will also continue to apply to Northbound trading.

Trading and Settlement Restrictions

2. Pre-Trade Checking

SEHK is required to check that in respect of any Northbound sell orders given by an Exchange Participant, the relevant Exchange Participant holds sufficient and available China Connect Securities to be able to fill such Northbound sell orders. Pre-Trade Checking will be carried out prior to the start of each Trading Day. Accordingly, you may be unable to execute Northbound sell orders due to Pre-Trade Checking related requirements. Your attention is drawn to the provisions set out in Clause 8 (Compliance with Pre-Trade Checking Requirements) of the China Connect Terms. Note in particular that you may be unable to execute a sell order of China Connect Securities if there has been a delay or failure for whatever reason in the transfer of the relevant China Connect Securities to any clearing account of us or if for any other reason we consider that there is or may be non-compliance with any China Connect Laws. Any risk, loss or cost resulting from non-compliance or potential non-compliance with Pre Trade Checking and/or the relevant China Connect Laws or China Connect Rules shall be borne by you.

3. Settlement

Northbound trades will follow the A Share settlement cycle. For settlement of China Connect Securities trades, ChinaClear will debit or credit the securities accounts of its participants (including HKSCC as clearing participant) on T day free of payment. We may have settlement arrangements in place different from the ChinaClear settlement arrangements. Unless we agree to prefund settlement, settlement of funds relating to such trading will be effected on T+1 day. We may, in our absolute discretion, decide to prefund settlement. In the event we agree to prefund the settlement of China Connect Securities trades, (a) we shall retain the funds received from HKSCC on T+1 day; and (b) you shall reimburse us with respect to any 'excess' pre-funding provided by us. You acknowledge that there is no guarantee that we will offer prefunding settlement and that if we decide to offer prefunding settlement, we may decide to terminate such service at any time.

4. Quota Restrictions

Purchases of China Connect Securities through China Connect are subject to certain quota controls as described below. As a result, there is no assurance that a buy order

can be successfully placed through China Connect. There is a daily quota that limits the maximum value of all Northbound buy trades that can be executed by Exchange Participants on each Trading Day ("Daily Quota"). The Daily Quota may change from time to time without prior notice and investors are advised to refer to the HKEx website and other information published by the HKEx for up-to-date information. If the Daily Quota has been reached, we will be unable to carry out any buy orders and any instruction to buy submitted but not yet executed will be restricted or rejected. However, investors may continue to sell their China Connect Securities regardless of whether there is a breach of the Daily Quota.

5. Restriction on Day Trading

Unless SEHK otherwise determines, day (turnaround) trading is not permitted on the Mainland China A Share market. If you buy China Connect Securities on T day, you may be able to sell the shares only on or after T+1 day. Due to Pre-Trade Checking related requirements, we may accept an instruction to sell China Connect Securities that were bought on T day only on or after the applicable cut-off time (as notified to you by us from time to time) on T+1 day.

6. No Off-exchange Trading and Transfers

You, we and any Related Person shall not conduct or provide off-exchange services to facilitate trading of any China Connect Securities otherwise than through the relevant China Connect Market System, except in the circumstances or as otherwise provided by a relevant China Connect Authority:

(a) stock borrowing and lending of China Connect Securities which are eligible for covered short selling and with a tenor of no more than one month;

(b) post-trade allocation of China Connect Securities by a fund manager and

(c) any other situations specified by the China Connect Market Operators and ChinaClear.

7. Placing Orders

Only limit orders with a specified price are allowed pursuant to the China Connect Laws, whereby buy orders must not be lower than at the current best price and sell orders may be executed at or higher than the specified price. Market orders will not be accepted.

8. Price Limits of the China Connect Market

China Connect Securities are subject to a general price limit of a $\pm 10\%$ based on the previous Trading Day's closing price. In addition, China Connect Securities which are on the risk alert board are subject a $\pm 5\%$ price limit based on the previous trading day's closing price. The price limit may be changed from time to time. All orders in respect

of China Connect Securities must be within the price limit. Any orders with a price beyond the price limit will be rejected by the relevant China Connect Market Operator.

9. China Connect Securities Eligible for Northbound Trading

SEHK will include and exclude securities as China Connect Securities based on the prescribed criteria under the China Connect Laws. We shall not be under any obligation to inform you of any changes to the eligibility of shares for Northbound trading. You should refer to the HKEx website and other information published by the HKEx for up-to-date information.

According to the SSE Rules and SZSE Rules, if any SSE-listed or SZSE-listed company is in the delisting process, or its operation is unstable due to financial or other reasons such that there is a risk of being delisted or exposing investors' interest to undue damage, the SSE-listed or SZSE-listed company will be earmarked and traded on the risk alert board. Any change to the risk alert board may occur without prior notice. If a China Connect Security which is eligible for China Connect trading at launch of the programme is subsequently moved to the risk alert board, investors under China Connect will be allowed only to sell the relevant China Connect Security and will be prohibited from further buying.

10. Account Information of Beneficial Owner

The identity of the beneficial owner of China Connect Securities which are the subject of a sell order may need to be disclosed to HKSCC and/or the relevant Mainland China authorities.

11. No Manual Trade or Block Trade

There will be no manual trade facility or block trade facility for Northbound trading under China Connect.

12. Amendment of Orders and Loss of Priority

Consistent with the current practice in Mainland China, if an investor engaged in Northbound trading wishes to amend an order, the investor must first cancel the original order and then input a new one. Accordingly, order priority will be lost and, subject to the Daily Quota restriction, the subsequent order may not be filled on the same Trading Day.

13. Special China Connect Securities

SEHK will accept or designate securities which cease to meet the eligibility criteria for China Connect Securities as Special China Connect Securities (provided that they remain listed on a China Connect Market). In addition, any securities or options (which are not "eligible for China Connect trading") received by you as a result of any distribution of rights or entitlements, conversion, takeover, other corporate actions or

abnormal trading activities will be accepted or designated by SEHK as Special China Connect Securities. You will only be able to sell, but not buy, any Special China Connect Securities.

Mainland China and Hong Kong Legal Issues

14. Disclosure of Interests

Under Mainland China laws, rules and regulations, if you hold or control shares on an aggregate basis, i.e., including both domestically and overseas issued shares of the same Mainland China Listco (as defined below), whether the relevant holdings are through Northbound trading, QFII/RQFII regime or other investment channels) in a Mainland China incorporated company which is listed on a Mainland China stock exchange (a "Mainland China Listco") above a certain threshold as may be specified from time to time by the relevant China Connect Authorities, you must disclose such interest within the period specified by the relevant China Connect Authority, and you must not buy or sell any such shares within the period specified by the relevant China Connect Authority. You must also disclose any substantial change in your holding as required by the relevant China Connect Authority. Where a Mainland China incorporated company has both H Shares listed on the SEHK and A Shares listed on the SSE and/or SZSE, if an investor is interested in more than a certain threshold (as may be specified from time to time) of any class of voting shares (including A Shares purchased through China Connect) in such Mainland China incorporated company, the investor is under a duty of disclosure pursuant to Part XV of the SFO. Part XV of the SFO does not apply where the Mainland China incorporated company has not listed any shares on the SEHK. It shall be your responsibility to comply with any disclosure of interest rules from time to time imposed by the relevant China Connect Authorities and arrange for any relevant filings.

15. Short Swing Profit Rule

Under Mainland China laws, rules and regulations, the "short swing profit rule" requires you to give up/return any profits made from purchases and sales in respect of China Connect Securities of a particular Mainland China Listco if (a) your shareholding in that Mainland China Listco exceeds the threshold prescribed by the relevant China Connect Authority from time to time and (b) the corresponding sale transaction occurs within the six months after a purchase transaction, or vice versa. You (and you alone) must comply with the "short swing profit rule".

16. Foreign Ownership Limits

Under Mainland China laws, rules and regulations, there is a limit to how many shares a single foreign investor is permitted to hold in a single Mainland China Listco, and also a limit to the maximum combined holdings of all foreign investors in a single Mainland China Listco. Such foreign ownership limits may be applied on an aggregate basis (i.e. across both domestically and overseas issued shares of the same issuer, whether the relevant holdings are through Northbound Trading, QFII/RQFII regime or other

investment channels). It shall be your responsibility to comply with all foreign ownership limits from time to time imposed by the China Connect Laws. Such legal and regulatory restrictions or limitations may have an adverse effect on the liquidity and performance of an investment in China Connect Securities due to factors such as limitations on fund repatriation, dealing restrictions, adverse tax treatments, higher commission costs, regulatory reporting requirements and reliance on services of local custodians and service providers. As a result, you may suffer losses through your trading or investment in China Connect Securities.

If we become aware that you have breached (or reasonably believes that you may breach upon execution of further Northbound buy orders) any foreign ownership limits, or if we are so required by any China Connect Authority, including, without limitation, as a result of any Forced-sale Notice issued by a China Connect Market Operator, we will sell any China Connect Securities pursuant to Clause 10 (Sale, Transfer and Disgorgement) of the China Connect Terms if you fail to comply with the corresponding Client Forced-sale Notice in order to ensure compliance with all applicable China Connect Laws. In such case, no Northbound buy orders for the relevant China Connect Securities will be accepted until SSE or SZSE informs the relevant SEHK Subsidiary or SEHK that the relevant aggregate foreign ownership limit has fallen below a certain percentage. SEHK may determine in its absolute discretion which Exchange Participants and what quantity of China Connect Securities should be subject to a Forced-sale Notice (this is likely to be on a "last-in, first-out" basis), and SEHK's (or the relevant SEHK Subsidiary's) own records shall be final and conclusive. Moreover, under Mainland China laws, where the aggregate holdings of foreign investors exceed a specified percentage (the "Cautionary Level") of the issued shares of a single Mainland China Listco, upon notification by the SSE or SZSE to the relevant SEHK Subsidiary, SEHK and the relevant SEHK Subsidiary are required as soon as practicable thereafter to suspend accepting China Connect Securities buy orders in respect of the relevant China Connect Securities. In such circumstances, we may reject your buy orders until the aggregate shareholding of foreign investors has fallen below the specified percentage (the "Permitted Level") as advised by SSE or SZSE. As of the date of these China Connect Terms, the single foreign investor limit is set at 10% of the shares of a Mainland China Listco and the aggregate foreign investor limit is set at 30% of the shares of a Mainland China Listco (while the Cautionary Level and the Permitted Level are set at 28% and 26% respectively of the shares of a Mainland China Listco). Such limits are subject to change from time to time and we shall not be under any obligation to inform you of any such changes to foreign ownership limits.

17. Taxation

Prior to investing in China Connect Securities, you are strongly urged to consult your own tax advisers and counsel with respect to the possible Hong Kong and/or Mainland China tax consequences to you of such investment since such tax consequences may differ in respect of different investors. You will be fully responsible for any Taxes in respect of China Connect Securities including and will indemnify us and any Related Person from and against all Hong Kong and/or Mainland China Taxes which we or any Related Person may incur arising in connection with any China Connect Securities

which you hold, trade or otherwise deal in. We assume no responsibility for advising on or handling any tax issues, liabilities and/or obligations in connection with China Connect, nor will we provide any service or assistance in this regard. Please refer to Clause 14 (Fees and Taxation) of the China Connect Terms for details of the applicable legal terms.

18. Insider Dealing, Market Manipulation and Other Market Conduct Rule

Northbound trading through the China Connect will be subject to Mainland China laws and regulations prohibiting activities that constitute market manipulation, insider dealing and related offences. The scope of these restrictions may not be the same as equivalent requirements under Hong Kong law. In particular, defenses applicable under Hong Kong market misconduct rules may not be applicable under Mainland China laws and regulations. If you are unfamiliar with Mainland China market conduct requirements and restrictions, you should seek specialist advice before engaging in trading through the China Connect. You confirm that you are not in possession of inside information when trading China Connect Securities or procuring others to do so.

19. Client Securities Rules

By way of brief background, the Securities and Futures (Client Securities) Rules (Cap 571H of the Laws of Hong Kong) ("Client Securities Rules") prescribe how client assets are to be dealt with by all intermediaries and their associated entities. However, as the China Connect Securities traded through China Connect are not listed or traded on SEHK, the Client Securities Rules will not apply unless otherwise specified by the SFC or any other relevant China Connect Authority.

20. Ownership of China Connect Securities

Hong Kong law recognizes the proprietary interest of investors in shares held for them by their broker or custodian in CCASS. Such recognition should apply equally to China Connect Securities held for Hong Kong and overseas investors by the Clearing Participant through HKSCC. In addition, in Mainland China (where China Connect Securities are registered in a securities account opened with ChinaClear in the name of HKSCC), it is expressly stipulated in the CSRC China Connect Rules that HKSCC acts as the nominee holder and the Hong Kong and overseas investors are the beneficial owners of the China Connect Securities. Accordingly, the regulatory intention appears to be that Hong Kong and overseas investors should also have proprietary rights over China Connect Securities under Mainland China laws. You should conduct your own review of the materials published by HKEX on China Connect in relation to the ownership of China Connect Securities and the applicable China Connect Rules as they may be amended and supplemented from time to time. You should also consult your own legal advisers to make your own assessment of your rights as a Northbound investor in China Connect Securities. You should also note that as China Connect is a recent initiative there may be some uncertainty surrounding such arrangements. In addition, while Hong Kong and overseas investors may have proprietary rights over China Connect Securities, HKSCC as nominee is not obliged to enforce such rights in

Mainland China on behalf of such investors.

Clearinghouse Risk

21. Risk of ChinaClear Default

ChinaClear has established a risk management framework and measures that are approved and supervised by the CSRC. If ChinaClear (as the host central counterparty) defaults, HKSCC has stated that it may (but shall have no obligation to) take any legal action or court proceeding to seek recovery of the outstanding China Connect Securities and monies from ChinaClear through available legal channels and through ChinaClear's liquidation process, if applicable. HKSCC will in turn distribute the China Connect Securities and/or monies recovered to clearing participants on a pro-rata basis as prescribed by the relevant China Connect Authorities. We in turn will be distributing China Connect Securities and/or monies to the extent recovered directly or indirectly from HKSCC. Although the likelihood of a default by ChinaClear is considered to be remote, investors should be aware of this arrangement and of this potential exposure before engaging in Northbound trading.

22. Risk of HKSCC Default

Our provision of services pursuant to these China Connect Terms also depends upon the performance by HKSCC of its obligations. Any action or inaction of the HKSCC or a failure or delay by the HKSCC in the performance of its obligations may result in a failure of settlement of China Connect Securities and/or monies in connection with them and you may suffer losses as a result. Neither we nor any Related Persons shall have any responsibility or liability for any such losses.

Other Operational Issues

23. Scripless Securities

China Connect Securities are traded in scripless form and accordingly, China Connect Securities may not be physically deposited into and/or withdrawn from CCASS.

24. Company Announcements on Corporate Actions

Any corporate action in respect of China Connect Securities will be announced by the relevant issuer through the SSE or SZSE website (as applicable) and certain appointed newspapers. HKSCC will also record all corporate actions relating to China Connect Securities in CCASS and inform its clearing participants of the details via the CCASS terminals as soon as practicable on the announcement date. Investors engaged in Northbound trading may refer to the SSE or SZSE website and the relevant newspapers for the latest listed company announcements or, alternatively, the HKEx website's China Stock Markets Web (or such other replacement or successor web page from time to time) for corporate actions in respect of China Connect Securities issued on the previous trading day. Investors should note that SSE-listed and SZSE-listed issuers

publish corporate documents in Chinese only, and English translations will not be available. In addition, HKSCC will endeavour to collect and distribute cash dividends relating to China Connect Securities to clearing participants in a timely manner. Upon receipt of the dividend amount, HKSCC will to the extent practicable arrange to distribute to relevant clearing participants on the same day. Following existing market practice in Mainland China, investors engaged in Northbound trading will not be able to attend shareholder meetings by proxy or in person, unlike the current practice in Hong Kong in respect of SEHK-listed shares. We do not and cannot ensure the accuracy, reliability or timeliness of any company announcements of corporate actions and neither we nor any Related Person accept any liability (whether in tort or contract or otherwise) for any loss or damage arising from any errors, inaccuracies, delays or omissions or any actions taken in reliance thereon. We expressly disclaim all warranties, expressed or implied, as to the accuracy of any company announcement or as to the fitness of the information for any purpose.

25. Average Pricing across Funds for Fund Manager

If you act as a fund manager for more than one fund or an asset manager on behalf of more than one client and you pre-allocate China Connect orders across such funds or clients which you manage, we may offer Average Pricing for such orders notwithstanding such orders may be executed at different times during the same Trading Day. Where Average Pricing applies, each fund or client will be allocated China Connect Securities (or their proceeds) at the same averaged price, which may be higher or lower than the price which such fund or client would have paid or received had the orders been processed individually and in the order submitted directly or indirectly to us. Neither we nor any Related Person will be responsible for any such differences in pricing or any loss or risk arising from the application of Average Pricing.

26. Disclosure of Information and Publication of Trade Information

SEHK may require us to provide information on your profile, and the type and value of your orders in relation to Northbound trading of China Connect Securities and the trades which we executed for you at such intervals and in such form as SEHK may specify from time to time for purposes of the publication, dissemination or public distribution of aggregated information in respect of China Connect Securities trades under China Connect, trading volumes, investor profiles and other related data.

27. Client Error

Neither we nor any Related Person shall be liable for any loss, damage or expense or consequential loss, damage or expense suffered by an investor as a result of any trading based on the investor's instructions. We will not be able to unwind any trade, and investors should also take note of the settlement arrangements in respect of China Connect Securities under China Connect, including but not limited to quota restrictions. The China Connect Rules generally prohibit any off-exchange trading or transfers. However transfers may be permitted between you and us to rectify a trade in limited circumstances, although there is a lack of clarity as to the circumstances in which such

transfers may be permitted. We shall have absolute discretion to determine whether to conduct any transfer to rectify any error trade and shall have no obligation to do so. Neither we nor any Related Person shall have any liability for any losses which may result directly or indirectly from such errors or any refusal to conduct a transfer to correct an error trade.

28. Retention of Information

You acknowledge and accept that we will be required under the China Connect Rules to keep records for a period of no less than 20 years of (a) all orders and trades executed on your behalf, (b) any instructions received from you; (c) your account information in relation to Northbound trading; and (d) all relevant information concerning margin trading and stock borrowing and lending of any China Connect Securities (including, without limitation, in respect of any such margin trading, the relevant securities margin trading arrangement and the funds provided).

29. China Connect Market System

SEHK or the SEHK Subsidiary (after consulting with SEHK) may, under certain circumstances as specified in the SEHK rules and/or whenever the SEHK determines that it is appropriate and in the interest of a fair and orderly market to protect investors, temporarily suspend or restrict all or part of the order-routing and related supporting services with regard to all or any Northbound trading of China Connect Securities, and for such duration and frequency as SEHK may consider appropriate. You will not be able to buy or sell China Connect Securities on SEHK through China Connect during any period in which trading of China Connect Securities is suspended. In particular, you should note that while trading of China Connect Securities is suspended by the SEHK, trading of such China Connect Securities may continue on SSE and/or SZSE. You may remain exposed to fluctuations in the price of China Connect Securities caused by trading on SSE and/or SZSE during the period when trading of such China Connect Securities is suspended by SEHK. SEHK has absolute discretion to change the operational hours and arrangements of the China Connect Service at any time and without advance notice, whether on a temporary basis, due to operational needs, inclement weather, under emergency situations or otherwise. Moreover, SEHK or the SEHK Subsidiary (with the agreement of SEHK) may cease the provision of the China Connect Northbound trading service permanently. Such suspension, restriction or cessation will affect our ability to accept and process your orders and you are advised to refer to the HKEx website and other information published by the HKEx for up-to-date information. There can be no assurance that your orders will be accepted or processed, notwithstanding that China Connect Securities may be traded through other channels including, without limitation, by PRC investors on the SSE and/or SZSE. Further, the SEHK rules state that where any H Shares with corresponding A Shares eligible as China Connect Securities are suspended from trading on SEHK, but the corresponding A Shares are not suspended from trading on the SSE, the service for routing the China Connect sell orders and China Connect buy orders for such A Shares to the SSE for execution will normally remain available. However, SEHK may, in its discretion, restrict or suspend such service without prior notice and your ability to

place sell orders and buy orders may be affected.

The China Connect Market Systems are new platforms for trading of China Connect Securities under China Connect. We provide trading services based on the China Connect Market System which is operated by the relevant China Connect Market Operator. We are not responsible for any delay or failure caused by the China Connect Market Systems and investors accept all risks arising from trading China Connect Securities through the China Connect Market Systems. Neither we nor any Related Person shall be responsible or held liable for any loss or damage directly or indirectly suffered by you arising from or in connection with the China Connect Service or the CSC through Northbound trading including, without limitation, the following:

(a) a suspension, restriction or cessation of the China Connect Service or the CSC, or any inability to access or use the CSC or the China Connect Service;

(b) any special arrangement put in place or any action, step or measure taken or not taken to deal with an emergency or contingencies, including but not limited to the cancellation of any or all China Connect orders input by Exchange Participants;

(c) any suspension, delay, interruption or cessation of trading of any China Connect Securities on SSE or SZSE;

(d) any delay, suspension, interruption or order cancellation of any China Connect Securities as a result of the hoisting of a Typhoon Signal No. 8 or above or the issuance of the Black Rainstorm Warning in Hong Kong;

(e) any delay or failure to route any China Connect orders or any delay or failure to send any order cancellation requests or to provide the China Connect Service due to any system, communication or connection failure, power outage, software or hardware malfunction or other events beyond our control or the control of SEHK, us or a Related Person;

(f) any China Connect order which we have requested to be cancelled not being cancelled for any reason whatsoever;

(g) in the event that SEHK or SSE or SZSE requires that we reject any order for China Connect Services;

(h) any delay, failure or error of any China Connect Market System or any system upon which we, the SEHK Subsidiary or a Related Person is reliant in providing the China Connect Service; and

(i) any delay or failure to execute, or any error in matching or executing, any China Connect order due to reasons beyond the control of SEHK, HKEx, the SEHK Subsidiary, us or any Related Person, including but not limited to any action or decision taken or made, or not taken or made, by any China Connect Authority or any other relevant governmental or regulatory body. If there is any delay or failure to send any order

cancellation requests in any circumstance described in paragraph (e) above, you shall, in the event such order is matched and executed, remain responsible for fulfilling any settlement obligations in respect of such transaction. You acknowledge that HKEx, SEHK, SEHK Subsidiary, SSE, the subsidiary of SSE and their respective directors, employees and agents are not responsible or held liable for any such losses.

30. Operational Hours

SEHK has absolute discretion to determine from time to time the operational hours of the China Connect service, and will have absolute discretion to change the operational hours and arrangements of the China Connect service at any time and without advance notice whether on a temporary basis or otherwise. We shall not be under any obligation to inform you of any such determinations by the SEHK as to the operational hours of the China Connect Service. Moreover, SEHK or an SEHK Subsidiary (with the agreement of SEHK) may cease the provision of China Connect Northbound trading service permanently. Such suspension, restriction or cessation will affect our ability to accept and process your orders and you are advised to refer to the HKEx website and other information published by the HKEx for up-to-date information.

31. Margin Trading

Subject to certain conditions prescribed by the China Connect Authorities, Hong Kong and overseas investors may conduct margin trading in China Connect Securities determined by the relevant China Connect Authorities to be eligible for margin trading ("Eligible Margin Trading Securities"). The HKEx will from time to time publish a list of Eligible Margin Trading Securities. Each of the China Connect Market Operators may suspend margin trading activities in any specific A Share if the volume of margin trading activities in such A Share exceeds a threshold determined by such China Connect Market Operator and resume margin trading activities when the volume of margin trading activities drops below a prescribed threshold. Where SEHK is notified by a China Connect Market Operator that a suspension or resumption involves a security on the list of Eligible Margin Trading Securities, the HKEx will disclose such information on its website. In such circumstances, any margin trading (except for margin trading in respect of China Connect Securities buy orders) in the relevant China Connect Security shall be suspended and/or resumed accordingly. Each of the China Connect Market Operators reserves the right to require, at some future date, for margin trading orders to be flagged when routed to China Connect. Neither we nor any Related person shall have any obligation to update you in respect of the list of Eligible Margin Trading Securities or any restrictions or suspensions in respect of margin trading from time to time.

32. Rights Issuances

Where you receive any form of entitlement security from the issuer of a China Connect Security, if such entitlement security:

(a) is a China Connect Security, you will be permitted to buy and sell the entitlement

security through China Connect;

(b) is not a China Connect Security but is a RMB denominated security listed on the SSE or SZSE, you may be allowed to sell the entitlement security through China Connect but will not be permitted to buy such entitlement security;

(c) is an SSE-listed security or SZSE-listed security but is not traded in RMB, you will not be allowed to buy or sell the entitlement security through China Connect; and

(d) is not listed on the SSE or SZSE, you will not be allowed to buy or sell the entitlement security on China Connect unless and until appropriate arrangements (if any) have been provided by HKSCC. It is possible that no such alternative arrangements will be provided.

33. Odd Lot Trading

Odd lot trading in China Connect Securities is available only for sell orders and all odd lots must be sold in one single order. A board lot order may be matched with different odd lot sell orders, resulting in odd lot trades. Board lot and odd lot orders are matched on the same platform on China Connect and subject to the same share price. The maximum order size is 1 million shares and the tick size is uniformly set at RMB0.01.

34. Short Selling

Covered short selling of China Connect Securities may become available in due course provided such covered short selling satisfies the requirements specified by the relevant China Connect Authorities, including that short selling orders are only in respect of China Connect Securities designated as eligible for short selling, are appropriately flagged as such and that they are subject to an uptick rule. Naked short selling of China Connect Securities is prohibited. The China Connect Authorities may also suspend the ability to engage in short selling of any China Connect Security if the volume of short selling activity exceeds thresholds prescribed by SSE or SZSE. You will be fully responsible for understanding and complying with short selling requirements as in effect from time to time and for any consequences of non-compliance.

35. Stock Borrowing and Lending

Stock borrowing and lending will be permitted for eligible China Connect Securities as specified by the China Connect Market Operators for the purposes of (a) covered short selling, (b) satisfying the Pre-Trade Checking requirement and (c) in any other circumstances as SEHK or the China Connect Market Operators may specify from time to time. Stock borrowing and lending of eligible China Connect Securities will be subject to restrictions set by SEHK and the China Connect Market Operators, including but not limited to the following:

(a) stock borrowing and lending agreements for the purpose of covered short selling shall have a duration of not more than one month;

(b) stock borrowing and lending agreements for the purpose of satisfying the Pre-Trade Checking requirement shall have a duration of not more than one day (and roll-over is not permitted);

(c) stock lending will be restricted to certain types of persons to be determined by the China Connect Market Operators; and

(d) stock borrowing and lending activities will be required to be reported to SEHK.

The China Connect Market Operators will determine a list of China Connect Securities eligible for stock borrowing and lending. Special China Connect Securities are not eligible for stock borrowing and lending for the purpose of covered short selling (but are eligible for the purpose of satisfying the Pre-Trade Checking requirement). We will be required to file a monthly report to the SEHK providing details of our stock borrowing and lending activities with respect to China Connect Securities. This may include (amongst others) details of the borrower, lender, amount of shares borrowed/lent, amount of shares outstanding and date of borrowing/returning. Investors are advised to refer to the relevant provisions from time to time applicable in the SEHK China Connect Rules (as and when these are published) and in the China Connect Laws and China Connect Rules.

36. RMB Conversion

Any conversion of any currency into RMB pursuant to Clause 9 (Settlement and Currency Conversion) of the China Connect Terms may be subject to conversion limits. Settlement of a Northbound buy order may be delayed and/or fail if there is a delay in converting the relevant currency into RMB. Any risk, loss or cost resulting from any such delay or failure of settlement shall be borne by you.

37. Risks associated with Trading of ChiNext Shares

The trading of ChiNext Shares is subject to the risks associated with the SZSE ChiNext market, including but not limited to such risks arising from the following:

(a) volatility and overvaluation of the share prices;

(b) the less stringent requirements on profitability and share capital of the ChiNext market (compared to the main board markets in Mainland China);

(c) given the technological focus of the companies listed on the ChiNext market, such companies are more susceptible to technical failures in their respective business areas; and

(d) conventional valuation methods may not be entirely applicable to companies listed on the ChiNext market due to the high-risk nature of the relevant industries. Presently

only Institutional Professional Investors are allowed to place orders to Exchange Participants to buy or sell ChiNext Shares which are accepted as China Connect Securities (other than Special China Connect Securities which are eligible for sell orders only) through the use of the China Connect Service.

38. Risks associated with the Circuit Breaker Mechanism

The execution of trades in China Connect Securities is subject to the China Connect Rules including the Circuit Breaker Provisions. Although the Circuit Breaker mechanism has been currently suspended, you should note that any imposition of a Circuit Breaker on any trading day will result in the suspension of the execution of trades through SSE or SZSE for such period or periods as set out in the Circuit Breaker Provisions.

39. Other risks associated with investing in China Connect Securities

General Mainland China related risk

Mainland China is an emerging market that possesses one or more of the following characteristics: a certain degree of political instability, relatively unpredictable financial markets and economic growth patterns, a financial market that is still at the development stage or a weak economy. Emerging markets investments usually result in higher risks such as event risk, political risk, economic risk, credit risk, currency rate risk, market risk, liquidity/gapping risk, regulatory/legal risk, trade settlement, processing and clearing risks and bondholder/shareholder risk.

Equity risk

Investing in China Connect Securities may offer a higher rate of return than investing in short term and longer term debt securities. However, the risks associated with investments in China Connect Securities may also be higher, because the investment performance of China Connect Securities depends upon factors which are difficult to predict. Such factors include the possibility of sudden or prolonged market declines and risks associated with individual companies. The fundamental risk associated with any equity portfolio is the risk that the value of the investments it holds might suddenly and substantially decrease in value.

General legal and regulatory risk

You must comply with all China Connect Laws and China Connect Rules. Furthermore, any change in any China Connect Laws or China Connect Rules may have an impact on the market sentiment which may in turn affect the performance of China Connect Securities. It is impossible to predict whether such an impact caused by any such change will be positive or negative for China Connect Securities. In the worst case scenario, you may lose a material part of your investments in China Connect Securities. In addition, any litigation or other legal actions brought before the courts in Mainland China will be subject to Mainland China laws, rules and procedures, which are not the same as those which apply to the courts in Hong Kong.

Currency risk

RMB is subject to foreign exchange controls and restrictions. It may be difficult for investors to convert RMB into other currencies or vice versa at any specific time, and conversion will be subject to conversion costs and such costs and timings for conversion may not be of your preference. The value of RMB against Hong Kong dollars or other foreign currencies may be affected by a wide range of factors. There is no guarantee that RMB will not depreciate. A depreciation of RMB may result in a decrease in the market value of RMB securities and the realization price of RMB securities. There are also significant restrictions on the remittance of RMB into and out of the PRC. The liquidity and trading price of China Connect Securities may be adversely affected by the limited availability of RMB outside the PRC and restrictions on the conversion of RMB. These factors may affect the liquidity of RMB for investors and accordingly adversely affect the market demand for China Connect Securities.

40. Investor Compensation Fund

Trading in China Connect Securities does not enjoy the protection afforded by the Investor Compensation Fund established under the Securities and Futures Ordinance. Accordingly, when you trade in China Connect Securities, unlike the trading of SEHK-listed securities, you will not be covered by the Investor Compensation Fund in respect of any loss you may sustain by reason of a default by SFC licensed or registered persons.

Risks in relation to Stock Lending Agreement

The definitions in Appendix XI (Authorisation to enter into U.S. Securities Lending Transactions) apply to this section.

Basic mechanics of the Company's securities lending program

When a securities lending transaction takes place, your securities will be removed from the Account. In return, the Company will deposit collateral into such Account to secure the Loan pursuant to the Company's collateral policy (as updated from time to time by the Company).

the Company will have discretion to initiate, borrow and terminate Loans between you and the Company without your further consent. The Company (as principal) will be the borrower to all of the Loans. You will not have the ability or right to approve specific Loans before or after they are initiated, will not have the ability to approve or reject fee changes and will not have the right to terminate specific Loans (except if you sell the Relevant Securities that are the subject of the Loan or if you terminate this Authorisation).

No Investor Compensation / Protection

The relevant investor compensation/protection regime in the jurisdiction where the

loaned Relevant Securities are listed and/or where the Company operates may not protect you as a lender with respect to securities lending transactions (such as the Loan) in which you lend your securities to the Company. Therefore, the collateral delivered to you by the Company may constitute a limited source of satisfaction of the Company's obligation in the event that it fails to return the securities.

Loss of Proprietary Rights

If you lend any securities to the Company pursuant to a Loan, your rights, including any proprietary rights that you may have had, in those securities will be replaced by an unsecured contractual claim for delivery of Equivalent securities subject to the terms of the Authorisation.

Those loaned securities will not be held by the Company in accordance with the Securities and Futures (Client Securities Rules) (Chapter 571H of the laws of Hong Kong) (the "CSR") or any other Applicable Regulation, and, if they had benefited from any client asset protection rights under the CSR or any other Applicable Regulations, those protection rights will not apply.

Despite the above, you continue to have the market exposure inherent in the right of return of such loaned securities. If the share price increases while the securities are on loan, your equity in the position will increase. If the price goes down, your equity will decrease.

Use of loaned securities for short selling

The type of securities that are generally attractive to borrowers in the securities lending market, and which generate the highest income potential, are "hard to borrow" securities. When you lend these securities, it is likely that such securities will be used to facilitate one or more short sales where the borrower is selling securities in the hope that it will decline in value (the short seller will later re-purchase the securities to pay back the loan). Since you are holding the securities "long" in your account, the activity of short sellers potentially could affect the long-term value of your holdings.

If you do not want your securities used to facilitate short sales, you should NOT participate in the Company's securities lending program.

The Company's Insolvency Risk

In the event of the Company's insolvency or default under the Authorisation, your claim against the Company for delivery of Equivalent securities will be subject to the terms of the Authorisation and the Applicable Regulations and, accordingly, you may not receive such Equivalent securities or recover the full value of the Equivalent securities (although, in certain circumstances, your exposure may be reduced to the extent that you have liabilities to the Company which can be set off against the Company's obligation to deliver the Equivalent securities to you).

Loss of Voting Rights

As a result of your ceasing to have any beneficial or legal interest in the loaned securities, you will not be entitled to exercise any voting, consent or similar rights attached to those securities.

Settlement Risk

In the event that the Company is not able to readily obtain Equivalent securities to deliver to you at the time required, you may be unable to fulfil your settlement obligations under a hedging or other transaction you have entered into in relation to those securities. A counterparty, exchange or other person may exercise a right to buy-in the relevant securities, and you may be unable to exercise rights or take other action in relation to those securities.

No obligation to inform you of corporate events

The Company will have no obligation to inform you of any corporate events or actions in relation to the loaned securities.

Manufactured dividends

You will not be entitled to receive any interest, dividend or other distribution payable in relation to the loaned Relevant Securities at the time they are paid, although under the Authorisation, in the case of an interest, dividend or other distribution in the form of cash, the Company will provide for you to receive or be credited with a payment (net of deduction or withholding for or on account of any taxes, costs and expenses) by reference to such interest, dividend or other distribution in the form of cash (a "manufactured dividend"), or in the case of an interest, dividend or other distribution in the form of securities, the Company will deliver such securities to you at the end of the relevant loan.

Where you receive or are credited with a manufactured dividend, your tax treatment may differ from your tax treatment in respect of the original interest, dividend or other distribution in relation to those securities.

Tax Risk

The delivery of securities by you to the Company, and the delivery by the Company to you of the Equivalent securities may give rise to tax consequences that differ from the tax consequences that would have otherwise applied in relation to the holding by you or by the Company for your account of those securities.

The Company may be required to withhold tax on payments in connection with the Loans unless an exception applies. You are responsible for evaluating your own tax consequences of participating in the Company's securities lending program and the

Loans, and seeking the advice of a tax professional if needed.

No obligation to account for any fees and profits that may be received by the Company

If you lend any securities to the Company pursuant to a Loan, the Company will become the legal and beneficial owner of those securities, and the Company may, without limitation, on-lend those securities to a third party for its own purposes, or deposit such securities with a third party financial institution as collateral for financial accommodation provided by the financial institution. The Company will be borrowing your securities as principal based on the terms of the Loan, which may not necessarily be the best available terms. Provided there is no, or the Company reasonably believes that there would be no, material detriment to your interest, or the Company has taken all reasonable steps to ensure fair treatment pursuant to the terms of the Loan, the Company may enter into any transaction in its sole discretion with respect to the securities under a Loan that the Company or any affiliate of the Company has directly or indirectly a material interest of any description in the transaction concerned or a relationship of any description with another person, so as to place the Company in a position where its duty or its interest in relation to such transaction conflicts, or may conflict, with the Company's duty to you.

Unless otherwise agreed with you, the Company is entitled to retain for its own account all fees, profits and other benefits received by it in connection with any Loan, and such amount could be higher than any remuneration, fee or other benefits payable by the Company to you in respect of any Loan.

The Company is the borrower of all Loans. Any transactions that the Company may or may not do with the loaned Relevant Securities are completely independent of your Loan transaction with the Company. Thus, after the Company borrows securities from you, it may or may not then on-lend those securities in the marketplace, or lend them to or through an affiliate or third party. Likewise, the Company may terminate a Loan with you and return securities to you while at the same time the Company continues to lend securities of the same stock out to the marketplace. Nothing in the securities lending program restricts the Company's ability to conduct stock lending and borrowing transactions with third parties, who may experience profit or loss in connection with the transactions.

The Company may borrow securities from you on a principal-to-principal basis and then use such securities for the Company's own purposes (including short selling) or lending those securities to one of its affiliates or other third parties for their own purposes (including short selling). The Company may lend the securities to an affiliate or third party, which could then lend the securities out to other parties in the securities lending market.

The Company does not guarantee that you will receive the best possible income for the securities under its securities lending program.

The Company is not obligated to borrow specific securities from you. There is no guarantee that all or part of your securities that possibly could be loaned out will be loaned out. There may not be a market to lend your Relevant Securities at a rate that is advantageous, or the Company may not have access to a market with willing borrowers. The Company, its client or affiliates might have securities that may be loaned out that will satisfy available borrowing interest and therefore the Company may not borrow securities from you. Nothing in this Authorisation requires the Company to place your interest in lending shares ahead of the interest of other clients of the Company.

The Company has the discretion to determine the fees payable to you at which it will borrow securities from you under the Loan, taking into account factors such as prevailing rates in the market for loans of various sizes, rates that the Company may be paid by its affiliates or third parties for lending the securities in the securities lending markets, payments that the Company may make to third parties (such as introducing brokers who introduce accounts to the Company), the Company's affiliates' or third parties' demand for securities, and other relevant factors.

The Company or its affiliates may earn a spread in rates and may profit or lose in connection with the Loan or other transactions in the same securities. The fee you may receive for the duration of the Loan may be subject to frequent changes and can go down or up significantly. The Company may change the rate it pays you at any time compared to the income that it receives when it on-lends the relevant securities to another party. The Company may pay part of the Loan income (including income generated from on-lending the relevant securities) to third parties, which will reduce the fee you receive for the duration of the Loan.

Risk of providing an authority to lend your securities

There is a risk if you provide the Company with an authority that allows it to apply your securities or securities collateral pursuant to a Loan.

If your securities or securities collateral are received or held by the Company in Hong Kong, the above arrangement is allowed only if you consent in writing. Moreover, unless you are a Professional Investor, your authority must specify the period for which it is current and be limited to not more than 12 months. If you are a Professional Investor, these restrictions do not apply. Additionally, your authority may be deemed to be renewed (i.e. without your written consent) if the Company issues you a reminder at least 14 days prior to the expiry of the authority, and you do not object to such deemed renewal before the expiry date of your then existing authority. You are not required by any law to sign such authority. But an authority may be required by the Company to allow your securities or securities collateral to be lent to the Company. The Company should explain to you the purposes for which such authority is to be used. If you sign such authority and your securities or securities collateral are lent to the Company pursuant to a Loan, the Company will become the legal and beneficial owner of those securities. Although the Company is responsible to you for securities or securities collateral lent pursuant to the terms of the Loan, a default by it could

result in the loss of your securities or securities collateral. A cash Account not involving securities borrowing and lending is available from the Company. If you do not wish your securities or securities collateral to be lent, do not agree to the above authority and ask to open this type of Account.

Loans may be terminated at any time by the Company

When you lend your securities, the Loan may be terminated by the Company and the securities returned to the Account at any time for any reason. The Loan may be terminated because a party that borrowed the securities from the Company (after the Company borrowed it from you) chose to return the securities. The Company also has the right to terminate its borrowing of securities from you even if it continues to lend the same securities through the securities lending market. When the Loan is terminated, the securities will be returned to the Account, the collateral will be returned to the Company and the Company will stop paying fees with respect to the Loan.

Risk of Trading Virtual Assets

Unless the context requires otherwise, the terms defined in the Agreement and Appendix XV shall have the same meaning when used herein.

1. Issuer Default Risks

Unless expressly stated otherwise, the Company does not issue Virtual Assets. Virtual Assets are issued by third parties. Investors should read the relevant terms, offering document, white paper, information, risk disclosures and other documents provided by the issuers carefully before entering into any VA Transaction. The Client should note that the offering document, white paper or product information provided by the issuer have not been subject to scrutiny by any regulatory body, including any Hong Kong Regulators.

For any Virtual Assets authorised by a regulator, the Client should note that authorisation does not imply any official recommendation or endorsement of the Virtual Asset, nor does it guarantee the commercial merits of such Virtual Asset or its performance.

In the event that a Virtual Asset issuer becomes insolvent and defaults on their issued products, the Client may be considered as unsecured creditors and may have no preferential claims to any assets of the issuer. The Client should therefore pay close attention to the financial strength and credit worthiness of issuers and conduct their own assessment on the potential of their project. Since Virtual Assets are not legal tender and Virtual Asset products are not backed by any government and authorities, in the event of the bankruptcy, administration or liquidation of the issuer or the cessation of operations of the issuer, the Virtual Asset products issued by the issuer may no longer have any value and the Client can lose their entire investment. The Company makes no representations or warranties about whether any Virtual Asset will always continue to trade in a Virtual Asset Exchange. Any Virtual Asset is subject to delisting by a Virtual Asset Exchange without prior notice and in the sole discretion of the Virtual Asset Exchange. The Client should seek independent professional advice before making any investment decision.

2. Market, Liquidity and Conversion Risks

Where VA Transactions are denominated in a particular type of Virtual Assets or fiat currencies, or where the Client uses one type of Virtual Assets to purchase another type of Virtual Assets upon carrying out a VA Transaction, there is a risk of the exchange markets moving against the Client, resulting in the net proceeds being significantly less than the initial amount upon maturity or any earlier dealing, and any income or gains may be entirely negated.

The value of a Virtual Asset may be derived, among other things, from the continued willingness of market participants to exchange fiat currency for that Virtual Asset, this means that the value of a particular Virtual Asset may decline, or be completely and permanently lost should the market for that Virtual Asset disappear. The Client should further note that there is no assurance that a market that existed for a particular Virtual Asset will continue to exist in the future, or that a person who accepts a Virtual Asset as payment today will continue to do so in the future. The Client may not be able to trade any Virtual Asset outside the Trading Hours, even if the market declines or advances sharply.

Liquidity risk is the risk of losses attributable to a lack of liquidity (for example very few active market participants) in a particular market. This is usually indicated by wide bid / offer spreads and very few transactions being carried out in a particular product or market. The risk is that changes in the underlying market price may be infrequent but very large, and that it is not possible to unwind or transfer a particular transaction in a timely manner, at near the price the Client had expected, or at all. Such liquidity risk in an asset may be caused by the absence of buyers, limited buy/sell activity or underdeveloped secondary markets for certain Virtual Assets. Investors should note that there is no assurance that a person who accepts a Virtual Asset as payment, will continue to do so in the future.

The Client may also suffer loss as a result of depreciation of the value of the fiat currency paid as a result of foreign exchange controls imposed by the country issuing the fiat currency. Repayment or payment of amounts due to the Client may be delayed or prevented by foreign exchange controls or other actions imposed by governmental or regulatory bodies over fiat currencies which they control or regulate.

3. Volatility Risks

The extreme volatility and unpredictability of the price of Virtual Asset relative to other Virtual Asset or fiat currencies may result in significant losses over a short period of time. Such fluctuations could affect the price of any Virtual Assets. Any Virtual Asset may decrease in value or lose all of its value due to various factors including discovery of wrongful conduct, market manipulation on trading, lending or other dealing platforms, change to the nature or properties of the Virtual Asset, governmental or regulatory activity, legislative changes, suspension or cessation of support for a Virtual Assets by Virtual Asset Exchanges or service providers, public opinions, or other factors outside of our control. Technical advancements, as well as broader economic and political factors, may cause the value of Virtual Assets to change significantly over a short period of time. Virtual Assets are highly risky and the Client should exercise caution when trading with any Virtual Assets.

4. Trading Suspension Risks

During the suspension of trading of the Virtual Assets of the Virtual Asset Exchanges and outside the Trading Hours of the Company, the Clients cannot buy and sell Virtual Assets through such Virtual Asset Exchange. If the trading is suspended or stopped, the subscription and redemption of such Virtual Assets or securities may also be suspended. It may also be difficult or impossible to liquidate a position in the Virtual Assets under certain circumstances. Certain airdrops, forks or network events may occur rapidly and affect our ability to execute a VA Transaction for the Client. Information relating to such events may be difficult to ascertain ahead of time and may be subject to limited oversight by any third party who is capable of intervening to stabilise the network.

5. Risks Related to Delayed Funds Deposit or Transfer

The fund deposits to VA Account are not always instantaneous and may take some time to process, even when the fund is transferred from another account maintained with the Company. You may experience an inability to open a position until the fund deposit or transfer process is completed and the funds are fully accessible in the VA account. Consequently, there is an inherent risk of delay in the availability of funds for executing buy orders. The Client shall anticipate and plan for potential delays when initiating such transfers.

6. Investor Compensation Risks

The protection offered by the Investor Compensation Fund under the SFO does not apply to VA Transactions (irrespective of the nature of the Virtual Assets). The Clients should note that any Virtual Assets or fiat currency held in a VA Account may not be protected.

This means that VA Transactions and Virtual Assets may have reduced level or type of protection compared to other Investment Products and asset classes afforded by Applicable Regulations.

7. Not a Bank Deposit under Applicable Laws

Any fiat currencies or Virtual Assets held by the Virtual Assets Exchange are not held as “deposits” within the meaning of the Banking Ordinance (Cap. 155 of the Laws of Hong Kong). Without limitation, neither the Company nor the Virtual Assets Exchange is regulated by the Hong Kong Monetary Authority in respect of the foregoing.

8. Jurisdiction Risks

Residents, tax residents or persons having a relevant connection with certain jurisdictions are excluded from carrying out VA Transactions. Changes in the Client's place of domicile or the Applicable Regulations may result in the Client violating any Applicable Regulations of the applicable jurisdiction and the terms of this Agreement. The Client is responsible for ensuring that any VA Transaction is, and remains lawful despite changes to Applicable Regulations, the Client's place of domicile and circumstances.

9. Country Risks

If a VA Transaction is made in respect of Virtual Assets issued by a party subject to foreign laws or transactions made on markets in other jurisdictions, including markets formally linked to a domestic market, recovery of the sums invested and any profits or gains may be reduced, delayed or prevented by foreign exchange controls, debt moratorium or other actions imposed by the government or other official bodies. Before conducting any VA Transaction, the Client should be sufficiently familiarised with the Applicable Regulations and any rules or laws relevant to the particular VA Transactions.

The Client should note that their local regulatory authority (and if applicable, the Hong Kong Regulators) will be unable to compel the enforcement of the rules of regulatory authorities or markets in other jurisdictions where the Client's transactions have been effected. It is the sole responsibility of the Client to obtain independent advice about the different types of redress available in both the Client's home jurisdiction and other relevant jurisdictions before starting to trade. If the Client's country of residence imposes restrictions on VA Transactions, we may be required to discontinue your access to the VA Account, and may not be permitted to transfer Virtual Assets back to you or permit you to withdraw Virtual Assets from the VA Account to yourself or others, until such time as the regulatory environment permits us to do so.

10. Legal and Regulatory Risks

Legal and documentation risks include the risk that transactions and/or their related framework arrangements may not be legally enforceable or that the conduct of the parties violates Applicable Regulations. There is also legal uncertainty on whether Virtual Assets can be regarded as “property” under the law. This may affect the nature and enforceability of your interest in such Virtual Asset. Legislative and regulatory changes may adversely affect the use, storage, transfer, exchange, and value of Virtual Assets. You are solely responsible for knowing and understanding how the laws applicable to you or your property, rights or assets or the applicable tax for the Virtual Assets you trade or the leverage you provide.

11. Regulatory Measures

The planning, development, marketing, promotion, execution or otherwise of the Virtual Assets may be seriously affected, hindered, postponed or terminated as a result of any new laws and/or regulations. Since regulatory policies can change with or without prior notice, any existing regulatory permissions for or tolerance of Virtual Assets in any jurisdiction may be withdrawn without warning. Cryptographic-tokens and cryptocurrencies could be deemed from time to time as a commodity or virtual commodity, a digital asset or even as money, securities or currency in various jurisdictions and therefore the securities could be prohibited from being entered into, traded or held in certain jurisdictions pursuant to local regulations. In turn, the Virtual Assets could be deemed to be a regulated or restricted product. There is no guarantee that the Virtual Assets can maintain any particular legal or regulatory status in any particular jurisdiction at any time.

12. Risks Relating to Authorised Persons

There are substantial risks in allowing another person to trade or operate an Account, and it is possible that Instructions could be given by persons who are not properly authorised. You accept all of the risks of such an operation and irrevocably release us from all liabilities arising out of or in connection with such Instructions.

13. Virtual Assets may be Complex Products

Virtual Assets may be complex products by virtue that the terms, features and/or risk are not understood due to the complex structure, novelty and reliance on technological features.

14. Commissions and Fees

The Client should obtain details of all fees, costs, charges, expenses and commissions for which the Client will be liable before conducting any VA Transaction. If any of the foregoing is unclear to the Client, it is the responsibility of the Client to clarify such fees, costs, charges, expenses and commissions before entering into the VA Transaction.

15. Tax Treatment and Accounting

Some VA Transactions may be subject to the tax laws and regulations in an applicable jurisdiction. The tax treatment and accounting of Virtual Assets is a largely untested area of law and practice that is subject to changes. Tax treatment of Virtual Assets may vary amongst jurisdictions. We may receive queries, notices, requests or summons from tax authorities and as a result may be required to furnish certain information about the VA Transaction.

Among the accounting profession, there are no agreed standards and practices for how an auditor can perform assurance procedures to obtain sufficient audit evidence for the existence and ownership of the Virtual Assets, and ascertain the reasonableness of the valuations.

If you are unsure about the tax implications of your VA Transactions, you should seek independent professional advice before carrying out a VA Transaction.

16. Inflation and deflation risks

Virtual Assets may, either because of the inherent design of the Virtual Assets, not be a fixed supply of assets. Where additional Virtual Assets are created or the total supply of a Virtual Asset is reduced, their price may change due to inflationary or deflationary effects.

17. Concentration Risks

At any point in time, one or more persons may directly or indirectly control significant portions of the total supply of any particular Virtual Asset. Acting individually or in concert, these holders may have significant influence, and may be able to influence or cause forks or network events which may have a detrimental effect on price, value or functionality of the Virtual Assets. Network participants may make decisions that are

not in your best interest as a holder of Virtual Assets.

18. Cryptographic Protection

Cryptography is evolving and there can be no guarantee of security at all times. Advancement in cryptography technologies and techniques, including but not limited to code cracking, the development of artificial intelligence and/or quantum computers, could be identified as risks to all cryptography-based and/or blockchain based systems including the underlying assets of the Virtual Assets. The security of Virtual Asset Exchanges cannot be guaranteed as the future of cryptography or security innovations is unpredictable.

19. Loss of Private Key is Permanent and Irreversible

The Client should note that Virtual Assets not received nor held by the Company and/or the Virtual Assets Exchange in a VA Account is the Client's sole responsibility, and that the Client alone is responsible for securing the private key for any address with respect to such Virtual Assets. Any loss of control of the private key will permanently and irreversibly deny the Client's access to such Virtual Assets. Neither the Company nor any other person will be able to retrieve or protect the Virtual Assets not held by the Company and/or the Virtual Assets Exchange in a VA Account. Once lost, the Client will not be able to transfer such Virtual Assets to any other address or wallet. This means that the Client will also not be able to realize any value or utility that the Virtual Assets may hold now or in future.

20. Cyber-attacks and Fraudulent Activity, including Theft of Virtual Assets on the Virtual Asset Exchanges

There may be attempts to steal the Virtual Assets on the Virtual Asset Exchanges or otherwise intervene in a VA Transaction or any of the VA Services. The nature of Virtual Assets exposes the Client to an increased risk of fraud or cyber-attack. Virtual Assets, the VA Account, any VA Service, any service provided by Virtual Assets Exchange, and the website or application may be targeted by malicious persons who may attempt to steal Virtual Assets or fiat currencies, or otherwise intervene in a VA Transaction or any service provided by Virtual Assets Exchange. This includes (but is not limited to) interventions by way of distributed denial of service, sybil attacks, phishing, social engineering, hacking, smurfing, malware, double spending, majority-mining, consensus-based or other mining attacks, misinformation campaigns; forks; and spoofing.

These malicious entities may target the Client in an attempt to steal any asset held by the Client, or to claim any asset that the Client may have purchased. This may involve unauthorised access to a VA Account, the Client's private keys, addresses, passwords, email or social media accounts, log-in details or access method for the VA Account, as well as unauthorised access to the Client's computer, smartphone and any other devices used by the Client. The Client alone is responsible for protecting against such actions.

Virtual Assets, the Client's VA Account, any service provided by Virtual Assets Exchange, and the website and application of the Company may also be vulnerable to exploitation of vulnerabilities in smart contracts and other code, as well as to human

error.

A limited amount of your Virtual Assets may be stored in hot wallets (i.e. online environments which provide an interface with the internet), which can be prone to hacking or cyber-attacks. Cyber-attacks resulting in the hacking of Virtual Asset Exchanges and thefts of Virtual Assets are common. Victims may have difficulty recovering any losses resulting from these attacks. This could result in significant loss and/or other impacts that may materially affect the Client's interests.

The above events may affect the features, functions, operation, use, access or other properties of the Virtual Assets, the Client's VA Account, the website or applications or any services provided by Virtual Assets Exchange. While the Company will endeavour to adopt industry best practices to keep the Virtual Assets safe (including but not limited to the use of cold storage and multi-signature authentications), successful cyber thefts and other fraudulent activities set out above may still occur.

21. Flaw in the Source Code

While we adopt quality assurance procedures to help ensure the source codes as accurately as possible reflect their intended operation, the flawlessness of the source codes, some of which are open source codes, cannot be guaranteed. They may contain bugs, defects, inconsistencies, flaws or errors, which may disable some functionality, create vulnerabilities or cause instability. Such flaws may compromise the predictability, usability, stability, and/or security of the Virtual Asset Exchanges. Open source codes rely on transparency to promote community-sourced identification and solution of problems within the code.

22. Unpermissioned, Decentralized and Autonomous Ledger

The Virtual Asset Exchanges are being developed to serve various distributed ledger systems which are unpermissioned protocols that could be accessed and used by anyone. In addition to the use of decentralized ledgers, the Virtual Asset Exchanges may also make use of supporting technologies that also operate on decentralized ledgers. The utility and integrity of the Virtual Asset Exchanges relies on the stability, security and popularity of these decentralized ledgers. Risks arising from relying on such distributed ledger technology include the existence of technical flaws in the technology, targeting by malicious persons, majority-mining, consensus-based or other mining attacks, changes in the consensus protocol or algorithms, decreased community or miner support, rapid fluctuations in value of relevant Virtual Assets, the existence or development of competing networks, platforms and assets, flaws in the scripting language, disputes between developers, miners and/or users and regulatory action. The open, decentralized community and its composition can include users, supporters, developers and other participants worldwide may not be connected with the Virtual Asset Exchanges in any manner. The Virtual Asset Exchanges may be decentralized and autonomous in nature as far as its maintenance, governance and evolution are concerned.

23. Compromised Security

The Virtual Asset Exchanges rely on open source software and unpermissioned decentralized distributed ledgers including but not limited to Ethereum. Accordingly,

anyone may intentionally or unintentionally compromise the core infrastructural elements of the Virtual Asset Exchanges and their underlying technologies. This may consequently result in the loss of any Virtual Assets held on the Virtual Asset Exchanges and may cause our system to fall.

24. Inadequacy of Processing Power

The ramp up of the Virtual Asset Exchanges may be accompanied by sharp increases in transaction numbers and demand for processing power. If the demand for processing power outgrows that forecasted, the network of the Virtual Asset Exchanges could be destabilized and/or stagnated. This may create opportunities for fraudulent activities including but not limited to false or unauthorized transactions (such as "double-spending") to arise. All these may adversely impact the usability, stability and security of the Virtual Asset Exchanges.

25. Unauthorized Claim of Virtual Assets

Virtual Assets can be claimed in bad faith by any person who successfully gains access to the wallet, email or the Client's VA Accounts they have registered with us. This can be as a result of deciphering or cracking the user's password, phishing scams and/or other hacking techniques. Subsequently, these Virtual Assets may be sent to anyone and such remittance is not revocable or reversible. It is recommended that all Clients should take appropriate security measures to safeguard their wallet, email and accounts. Each Client is responsible for the security of their wallet, email and account at all times.

26. Forking and Attacks

Many cryptographic tokens are developed on the Ethereum blockchain, which is an open source protocol. Once released to the open source community, anyone may develop a patch or upgrade for the source code of Ethereum without prior permission by anyone else. The acceptance of patches or upgrades by a significant, but not necessarily overwhelming percentage of the Ethereum holders could result in a "fork" in the Ethereum blockchain.

The temporary or permanent existence of forked blockchains could adversely impact the operation of the Virtual Asset Exchange. Such a fork can undermine the sustainability of the ecosystem of the Virtual Asset Exchange, and may destroy or frustrate the Virtual Asset Exchange. While a fork in the blockchain could possibly be rectified by community-led efforts to re-merge the two separate branches, success is not guaranteed and could take an undetermined amount of time to achieve.

Virtual Assets may also be subject to attacks on the security, integrity or operation of the networks, including network events. Such foregoing events (including a fork) may affect the features, functions, operation, use or other properties of any Virtual Assets, network or platform.

The events may also severely impact the price or value, function and/or the name of any Virtual Assets, or even result in the shutdown of the network or platform associated with the Virtual Assets. Such events may be beyond the control of the Company, or to the extent the Company has any ability to impact such event, the

Company's decision or actions may not be in your best interests.

27. Reliance on the Internet and Other and Technology-related Risks

VA Transactions rely heavily on the internet and other technologies. However, the public nature of the internet means that either parts of the internet or the entire internet may be unreliable or unavailable at any given time. Further, interruption, delay, corruption or loss of data, the loss of confidentiality in the transmission of data, or the transmission of malware may occur when transmitting data via the internet and/or other technologies. The result of the above may be that your VA Transaction is not executed according to your Instructions, at the desired time, or not at all.

The nature of Virtual Assets also means that any technological difficulties experienced by the Virtual Assets Exchange may prevent Clients from accessing their Virtual Assets.

No authentication, verification or computer security technology is completely secure or safe.

The internet or other electronic media (including without limitation electronic devices, services of third-party telecom service providers such as mobile phones or other handheld trading devices) are an inherently unreliable form of communication, and such unreliability may be beyond the Company's control.

Any information (including any document) transmitted, or communication or transactions made, over the internet or through other electronic media (including electronic devices, services of third party telecommunication service providers such as mobile phones or other handheld trading devices or interactive voice response systems) may be subject to interruption, transmission blackout, delayed transmission due to data volume, internet traffic, market volatility or incorrect data transmission (including incorrect price quotation) or stoppage of price data feed due to the public nature of the internet or other electronic media.

28. Transactions Deemed Executed Only when Recorded or Confirmed

Some VA Transactions may be deemed to be executed only when recorded and confirmed by Virtual Assets Exchange, which may not necessarily be the time at which the investors initiate the transaction.

29. Risks Relating to Timing

A VA Transaction is binding. Following the execution of a VA Transaction, the VA Transaction will not be reversed. There is a risk that the final binding VA Transaction does not occur at the same time as Instructions are provided. You may suffer loss due to the fact that a VA Transaction is not carried out at the desired time.

30. Irreversible Transactions

VA Transactions may be irreversible, and, accordingly, losses due to fraudulent or accidental transactions may not be recoverable. The Clients should note that once a VA Transaction has been verified and recorded on a blockchain, loss or stolen Virtual Assets generally will not be reversible. This means accidental or fraudulent VA

Transactions may not be recoverable.

31. Other Important Notes

In addition to the above, the Clients should also note:

31.1 the continuing evolution of Virtual Assets and how this may be affected by global regulatory developments;

31.2 most trading, lending or other dealing platforms and custodians of Virtual Assets are presently unregulated;

31.3 counterparty risks when effecting transactions with issuers, private buyers and sellers or through trading, lending or other dealing platforms;

31.4 risk of the loss of Virtual Assets, especially if held in hot wallets; and

31.5 new risks which may arise from investing in new types of Virtual Assets or market participants' engagement in more complex transaction strategies.
